

TECHNICAL DATA SHEET

Varn® NEWSLINE 550

KT35-019

**Description:**

Varn® Newsline 550 is best-in-class fount that will keep your coldset press cleaner than ever. Formulated with newly developed proprietary technology, Varn® Newsline 550 offers superior cleaning and protection of the non-image areas of plates and blankets. The product significantly limits build-up of contaminants during the press run, even at the lowest possible water settings, and offers excellent print quality, page after page. It is specifically designed for spray bar dampening system.

Application:

- Recommended dosage: Add 2-3 ounces of product per gallon of water to achieve conductivity of 900-1300 micromhos over water. For best results, start with a clean dampening system.

Key Features:

- Substantially limits bacterial growth
- Wider operating window, requires less fountain solution
