VIVO ColourCloud

Secure Web-Based Colour Repository Containing thousands of Achievable Colours on Common Corrugated Industry Liners

VIVO ColourCloud is part of Flint Group's unique colour services toolbox designed to provide a dynamic end to end digital colour workflow for an integrated pressroom.

VIVO ColourCloud

VIVO ColourCloud is a secure web-based repository providing an easy to use dynamic search functionality with the ability to quickly search for a required colourby VIVO ColourStandard name, industry guide name, spectral data, CxF file or Lab/LChvalues. Resulting in downloadable essential colour data; recipe, CxF file and VIVO DigiSwatch. Use in conjunction with VIVO ColourConnect to send recipes directly to all leading dispensers. Every recipe has been created on press with a calibrated banded anilox on common standard substrate grades delivering achievable colour!

VIVO ColourCloud provides the functionality to issue ink to press typically within minutes of the initial search, delivering 'Right First Time'colour to press/ speed to market and improved service lead times.

FEATURES & BENEFITS:

▶ **Instant access to international digital colour libraries supported by:**
- Spectral colour data.
- VIVO DigiSwatch – typical average dE<>1.0.
- Connects to all leading ink dispensers.

▶ **Cost savings and efficiencies:**
- Fewer colour changeovers and identical colour data across multiple sites ensures consistent packaging.
- Increased 'right first time' = faster colour approval and reduced waste.

System requirements

VIVO ColourCloud users must have a PC, internet connection, and web browser. The minimum requirement is Windows 10 and the latest version of Edge, Chrome or Firefox.
