### Varn® MAJESTA 793 KT15-020

- Description:** Varn® Majesta 793 is a cost-effective acid fountain solution performs on a wide variety of dampening systems, including Dahlgren, spray and Duotrol. The special design also makes it a highly effective fountain solution for short runs.
- Application:**
- Recommended dosages: Use 4-7 ounces per gallon of water (depending on equipment and requirements). Increase product by ½ ounce per gallon as needed to achieve desired print quality.
  - For best results start with a clean dampening system.
- Key Features:**
- Reduces waste and improves color quality related to ink laydown and gloss.
  - Reduces ink misting and paper piling through proper emulsion and transfer.
  - Strong buffering system.
  - Strong performance, even at high speeds.

## TECHNICAL DATA SHEET

# Varn® MAJESTA 793 KT15-020

**Storage:**

- The product should be processed within 12 months after production date.
- To prolong the shelf life, we recommend storing the product in its original, un-opened packaging at room temperature (68 -78 °F), as correct storage conditions are essential.

**Quality / Environment / Health & Safety**

Flint Group maintains a comprehensive Management System that integrates quality, environment, health & safety. Our production and quality control processes meet high industry standards, ensuring product safety and reliability. When used as intended, our products are safe and pose no hazards under normal conditions. For more details, refer to the Safety Data Sheet.

**Handling precautions – skin sensitization**

Ensure the use of proper protective equipment when handling chemicals. For detailed guidance, refer to the Safety Data Sheet and consult with your PPE (Personal Protective Equipment) provider.

**Additional Information**

Please contact your local Flint Group Customer/Technical Service if further information is required.
