

Varn® Supreme CA UV 7805

For use with UV and Conventional inks.

Sheetfed

Varn® Supreme CA UV 7805 is a one-step fountain solution designed for use with conventional and UV ink series. Its versatility enables the printer to optimize press time with one fount for both applications.

Advantages of Varn® Supreme CA UV 7805

- A true one-step fountain solution. No need to add an alcohol substitute.
- Provides a proper emulsion with the inks that will prevent misting, slip roller build up and tailing – print barcodes properly
- Reduces water settings
- Low dosage application
- Excellent results on low absorption stocks
- Designed for high speed equipment to prevent picture framing and water roller build up on long press runs at the highest rated speeds.
