

## TECHNICAL DATA SHEET

# Varn® SUPREME CA UV 7805 KT25-029

- Description:** Varn® Supreme CA 7805 is a one-step sheetfed fountain solution suitable for conventional and UV sheetfed presses. It is high performance, one-step, low dose product, works well for both baked and unbaked plates. It can effectively reduce water dial speed.
- Application:**
- Recommended dosages: dosage range of 4-8 ounces per gallon of water, typical dosages at 4.5 to 6 ounces per gallon of water. For best results, start with a clean dampening system.
- Key Features:**
- A true one-step fountain solution. No need to add an alcohol substitute.
  - Provides a proper emulsion with the inks that will prevent misting, slip roller build up and tailing – print barcodes properly
  - Reduces water settings, excellent results on low/non absorbent stocks
  - Low dosage application
  - Designed for high speed equipment to prevent picture framing and water roller build up

**Storage:**

- The product should be processed within 12 months after production date.
- To prolong the shelf life, we recommend storing the product in its original, un-opened packaging at room temperature (68 -78 °F), as correct storage conditions are essential.

**Quality / Environment / Health & Safety**

Flint Group maintains a comprehensive Management System that integrates quality, environment, health & safety. Our production and quality control processes meet high industry standards, ensuring product safety and reliability. When used as intended, our products are safe and pose no hazards under normal conditions. For more details, refer to the Safety Data Sheet.

**Handling precautions – skin sensitization**

Ensure the use of proper protective equipment when handling chemicals. For detailed guidance, refer to the Safety Data Sheet and consult with your PPE (Personal Protective Equipment) provider.

**Additional Information**

Please contact your local Flint Group Customer/Technical Service if further information is required.
