

# Flint Group Packaging Solutions

## Narrow Web Solutions

**One platform. Multiple processes.  
Endless application possibilities.**

Flint Group Packaging Solutions' Narrow Web segment delivers fully integrated packaging solutions, combining inks, coatings, and services to support converters across a wide range of applications.

With deep expertise in regulatory compliance and print performance, we help customers navigate complexity while ensuring efficiency, consistency, and sustainability.

From UV LED dual-curing inks to low migration solutions, as well as coatings and primers that support recycling, our teams are focused on developing technologies that meet both current and future packaging challenges.

### Complete portfolio

Inks, coatings, and pressroom chemicals designed to work together seamlessly

### Technical support that shows up

Our experts support you from onboarding to optimisation, on-site or remote

### Compliance you can trust

We stay ahead of regulatory changes - helping you stay compliant and prepared

### Reliable supply

Consistent quality and on-time deliveries that keep your operations running smoothly

### Our innovation ecosystem combines:

Specialist teams focused on market-specific solutions

Customer-focused development processes

Building block technologies and innovation toolboxes that drive performance

Strategic centres of excellence around the world

# Solutions for Narrow Web print technologies

**UV Flexo inks** - Versatile, high-productivity printing across multiple substrates.

**Water-based Flexo inks & coatings** - Reliable and sustainable printing for paper and film applications.

**UV Rotary Screen inks & coatings** - High-impact graphics and tactile effects for standout packaging.

**Metallic inks** - Premium visual effects for enhanced brand differentiation.

**UV Coatings** - The enabler of premium packaging performance and design.

## Applications

- Pressure Sensitive Labels (PSL)
- Shrink Sleeves
- Flexible Packaging
- Specialty applications

## Substrates

- Papers
- Films
- Flexible laminates
- Board applications

We bring **colour** to the world
