

Web-Based Colour Correction Software to Correct Out of Spec Ink, Compensate for Process Variables, and Optimise Press Returns

VIVO ColourFix is part of Flint Group's unique colour services toolbox designed to provide a dynamic end to end digital colour workflow for an integrated pressroom.

VIVO ColourFix is easily utilised to correct colour

- **Press-side:** due to everyday process variable changes (substrate, anilox wear, press change...).
- **Ink kitchen:** to create "clusters", correct press returns for quick and effective reuse.

It will improve efficiencies in colour correction which will increase percentage of 'Right First Time' and faster on-press colour make-ready.

FEATURES & BENEFITS:

- Provides an easy to use software tool that removes the need for specialist ink/colour resource on site.
- Creates a standardised method for colour correction across operators, shifts and sites.
- Improves the speed and accuracy to correct ink due to unforeseen:
 - ▶ Substrate batch variation.
 - ▶ Contaminated ink.
- Contributes to improved press productive time.
- Utilises press returns quickly and efficiently reducing the need to use new ink.

System requirements

VIVO ColourFix users must have a PC, internet connection, and web browser. The minimum requirement is Windows 10 and the latest version of Edge, Chrome or Firefox.
