

Flint Group Sustainability Policy

Flint Group Sustainability policy

It is the policy of Flint Group to identify and manage social, environmental and economic impact within our operations. We are committed to providing high quality products and services in a manner that ensures safe and healthy workplace for our employees and minimizes the impact on the surrounding. This policy applies to all Flint Group employees, contractors and visitors.

Key Requirements

Our approach to continuously improving our sustainability performance is underpinned by our Mission and Guiding Principles. Flint Group is a member of UN Global Compact for sustainability. By incorporating Ten Principles of the UN Global Compact based on:

- Human Rights,
- Labour,
- Environment,
- Anti-corruption

into our strategy and using 17 Sustainability Development Goals as a roadmap to achieve better and more sustainable future, we deliver value for our key stakeholders – customers, suppliers, employees, investors and communities, and also create solid base for long-term success.
