

Benchmarks

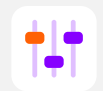

Identify Trends, Fill Blind Spots, and Improve Performance

Leverage Arcadia Benchmarks, a Vista analytics dashboard, to compare your performance against similar organizations regionally or nationwide. Arcadia Benchmarks lets analysts and program managers measure cost and utilization benchmarks across multiple KPIs in a single dashboard, eliminating the need for third-party vendors and enabling precise business intelligence insights.

Features

Compare your organization's performance to those of similar organizations nationwide

Toggle between multiple KPIs to measure what matters most for your organization

Tap 20 million longitudinal records with multi-year claims history for a contextualized comparison

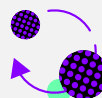

Benefits

Improve outcomes and efficiency by identifying blind spots and areas for improvement

Eliminate the need to invest in additional third-party benchmarking vendors or products

Support major initiatives or organizational changes with a robust data foundation

Top payers and healthcare providers trust Arcadia to deliver insights where they matter most.
