

Create Value-Based Care Contracts Effortlessly with Arcadia's Contract IQ

Arcadia's Contract IQ simplifies the creation of value-based care contracts, facilitating seamless collaboration among stakeholders. With Contract IQ's intuitive dashboard, easily toggle between "what if" scenarios to optimize contract terms, maximizing value and minimizing costs. Improve discoverability across teams, and centralize data so it's accessible to every stakeholder. Elevate your contract-making process with Contract IQ today.

Features

Collaborate with decision-makers in a unified interface

Predict revenue more accurately with forecasting and "what-if" tools

Automate manual processes like contract forecasting, saving time and resources

Benefits

Reduce data sprawl and contracting complexities

Determine the optimal contract type by population

Save up to \$60K per month in third-party actuarial fees

Top payers and healthcare providers trust Arcadia to deliver insights where they matter most.
