

# An ACO assignment journey

Coding and attribution in Medicare ACOs

## ATTRIBUTION SIMULATIONS

### BASE ASSIGNMENT

Medicare assignments based on historic coding rates.

### SIMULATION #1

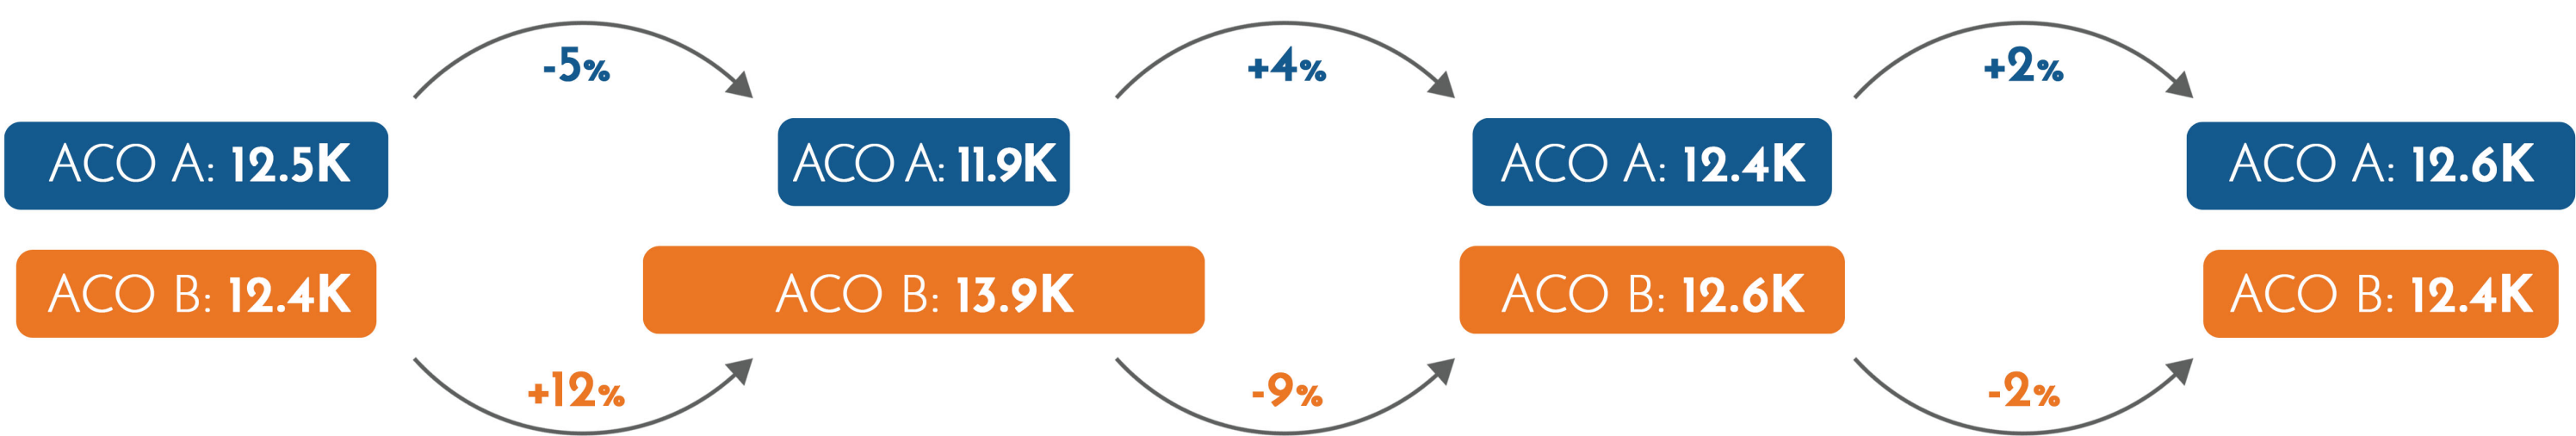

5% of low-cost 99213 visits are swapped for longer 99215 visits at ACO B.

### SIMULATION #2

ACO B uses extra-long new patient visits for first-time patients. New visits are billed at 4x the rate of an established visit.

### SIMULATION #3

ACO B boosts Skilled Nursing care. These services are considered "Primary Care" under CMS formula.
