

# Arcadia Research Data: Accelerate your clinical research.

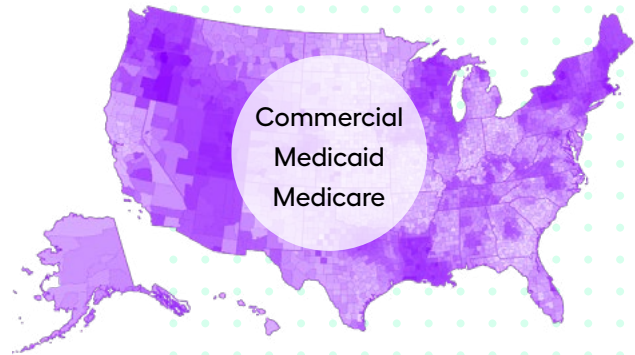

Arcadia's RWD is built on an actively growing EHR and payer data asset. Our comprehensive payer coverage ensures visibility for your drugs across formularies.

License by therapeutic area or for the whole population, we will work with you to deliver the data that meets your unique research needs.

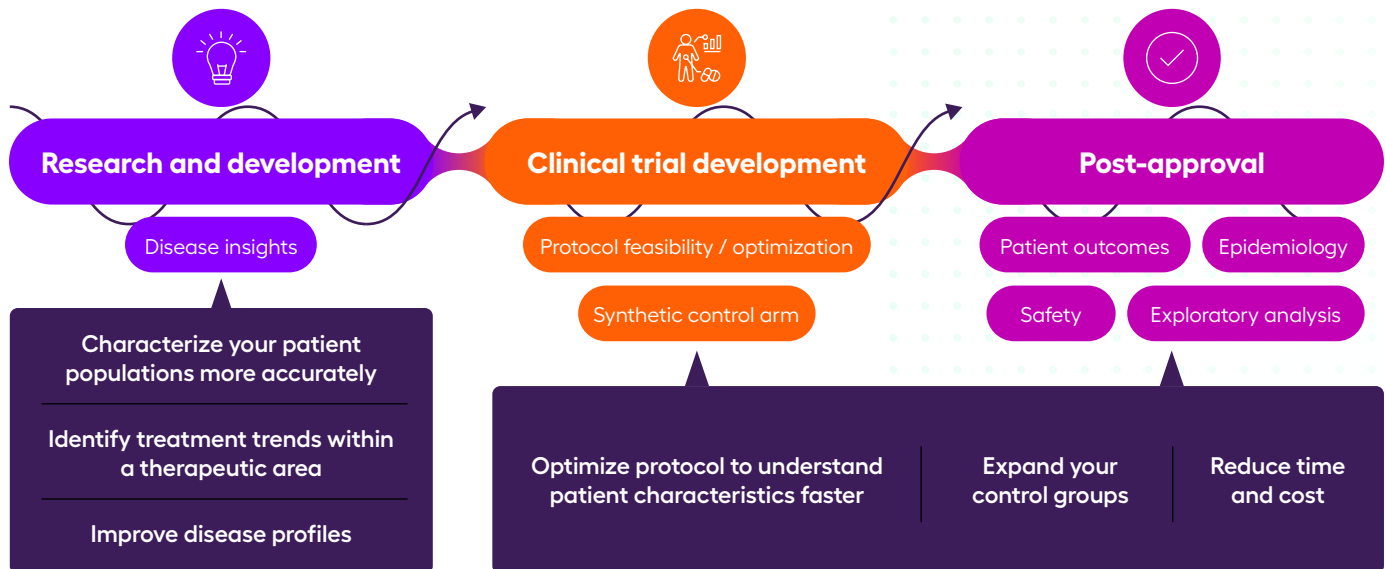

## Growing active patient data set

## Multi-payer coverage

We support a variety of research needs across the development and approval stages.

## Arcadia's RWD standardized data model is built for analysis of the patient journey

The primary domains in our model:

**Clinical**

Conditions, procedures, observations, medications, allergies, and immunizations

**Payer**

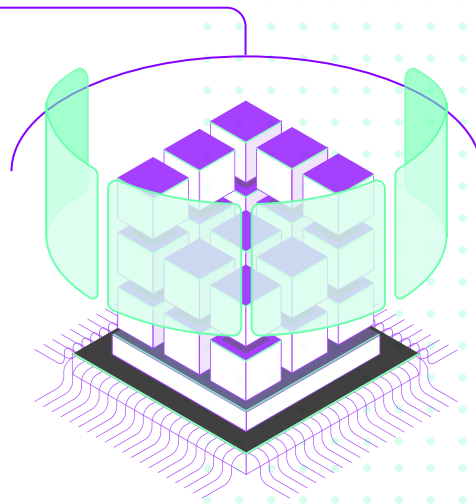

Episodes of care, longitudinal episodes, patient eligibility

**Workflow**

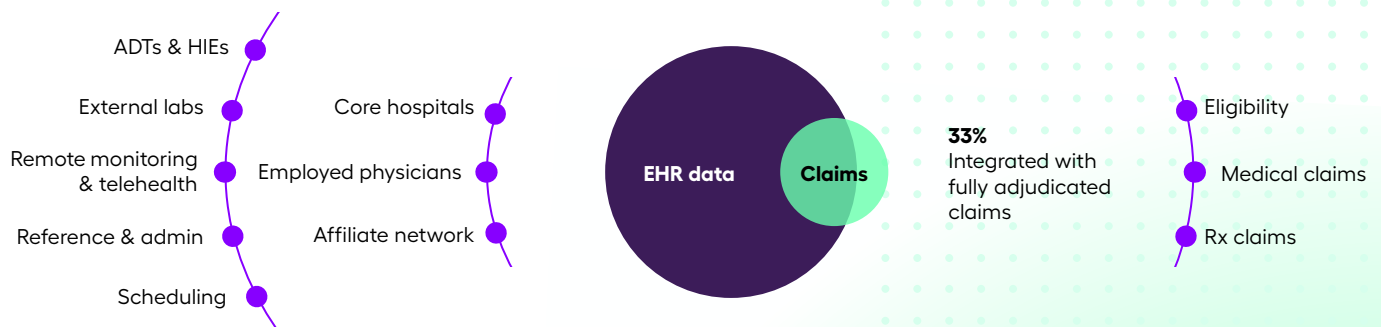

Appointments, encounters, orders

**Entity**

Summaries on individual patients, providers, locations, organizations, and payers

## Arcadia acquires and aggregates clinical and financial data at scale from diverse sources
