# Robotic SMD

# Robotic SMD

**How can you optimize your warehouse in the electronics industry? Consider integrating a fully automated handling and storage system for SMD (Surface-Mount Device) reels and trays.**

The Kardex Robotic SMD automatically picks and stores SMD reels and trays with the highest accuracy, eliminating errors that can cause delays and waste in production. The electronics industry benefits from the 24/7 uninterrupted operation of the system, which significantly increases overall productivity.

Kardex Robotic SMD is scalable and expandable in both storage capacity and performance, and can be easily upgraded to meet your needs over time. Its storage density is much higher than semi-automated solutions.

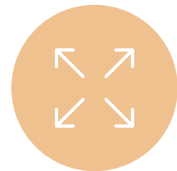

Investing in robotics for your warehouse will result in significant savings through increased productivity and reduced errors. Using Kardex Robotic SMD will streamline inventory control, and save operators time and effort.

Gentle and accurate handling of SMD reels and trays

Optional X-ray SMD counter

Fully scalable design

High storage capacity

Discover how the fully automated Kardex Robotic SMD can enhance your warehouse operations.

#### Improve accuracy

It picks accurately and operates fully automatically, 24/7, helping to reduce non-conformance costs.

#### Save space

It provides up to twice the storage capacity compared to semi-automatic upright SMD reel storage.

#### Optimize operator efficiency

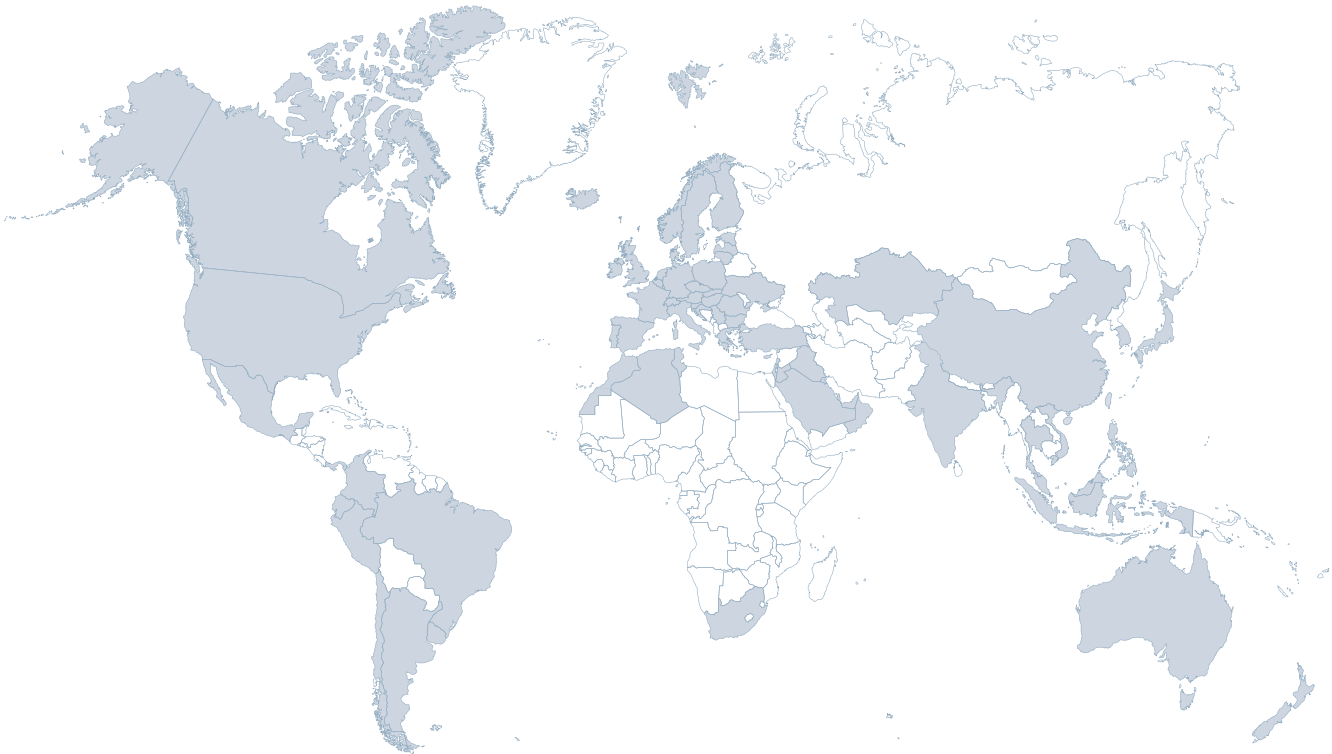

It reduces inventory control efforts and complexity.

#### Did you know?

The layout type, performance and storage dimensions of the unit are customized. This flexibility makes the Kardex Robotic SMD the ideal solution for handling and storing SMD reels and trays.

# Always close to you – Worldwide

## About Kardex

Kardex is a leading global partner for intralogistics solutions in an attractive and growing market. The Group offers premium automated products, standardized systems, and life cycle services that guarantee high availability and low total cost of ownership.

Kardex provides an intelligent entry into automation with its dynamic storage and retrieval systems, offers integrated material handling systems, small parts storage systems, and automated high-bay warehouses, and acts as a global AutoStore™ partner, offering flexible and modular storage and order fulfillment solutions.

The Group employs around 2,500 people in over 30 countries. Kardex Holding AG has been listed on the SIX Swiss Exchange since 1989.
