

# What to Expect from Your Free Site Visit

## A closer look at your warehouse today. A clearer path for tomorrow.

A site visit is a completely free, on-site consultation with a Kardex Remstar warehouse automation expert, right in your facility.

In just a couple of hours, we'll walk your floor, review your workflows, and take precise measurements of your space and inventory. The goal? To give you a clear picture of how automated storage solutions can fit into your operation, and what kind of efficiency, space savings, and ROI you can expect. This isn't a pushy product pitch. This is a consultative conversation with an automation expert.

## Why Book a Site Visit?

A Kardex site visit isn't just about measuring racks. It's about uncovering hidden efficiency, reducing labor strain, and making the most out of your space.

When you book a free site visit, you get:

- Tailored recommendations based on your unique operation
- Insights from an ASRS expert, who has solved challenges in facilities just like yours
- Fresh ideas on how to optimize your picking, replenishment, and storage
- A clear, actionable plan to implement the right automation solution, and a tailored proposal

## The Site Visit Journey

Discover & Discuss	Measure & Analyze	Advise & Envision
<ul style="list-style-type: none"><li>▪ We'll meet with key stakeholders, from leadership to operators</li><li>▪ Have you review your current workflows, pain points, and growth plans</li><li>▪ We'll tour your picking, replenishment, and order routing processes</li></ul>	<ul style="list-style-type: none"><li>▪ We'll collect product dimensions, shelving layout, and item heights</li><li>▪ We'll measure your ceiling height using precision laser tools</li><li>▪ We'll work to understand your seasonal fluctuations and workflow bottlenecks</li></ul>	<ul style="list-style-type: none"><li>▪ Identify quick wins and long-term automation opportunities</li><li>▪ Recommend the best technology: VLM, VCM, VBM, or specialty systems</li><li>▪ Discuss potential ROI, labor savings, and space gains</li><li>▪ Agree on next steps and set expectations for your personalized proposal</li></ul>

## How to Prepare for Your Visit

Preparing for your site visit is easy. It's helpful to compile any available product dimensions, SKU data, and velocity reports you have. Don't have that data handy? No problem. We can help you get measured up. We may offer you a pre-visit questionnaire to help our team get up to speed before we arrive.

## After the Visit

Getting a quote is fast and easy. We are usually able to deliver a tailored proposal within one week of your visit. We may also recommend:

- A site tour of a similar customer facility, so you can see your future solution in action
- A software demo to see how easy it is to get up and running

## Here's What You Get

By the end of your site visit, you'll have:

- A clear understanding of where automation can deliver the most impact
- Accurate space savings and ROI projections
- Recommendations backed by real-world success stories
- A step-by-step path you can trust, with support that lasts for decades
