History Smashers: The American Revolution

Uncover the hidden truth behind the Revolutionary War with a fun mix of sidebars, illustrations, photos, and graphic panels.

On April 18, 1775, Paul Revere rode through Lexington and Concord, Massachusetts, shouting, “The British are coming!” to start the American Revolution. Right? WRONG! Paul Revere made it to Lexington, but before he could complete his mission, he was captured!

The truth is, dozens of patriots rode around warning people about the redcoats’ plans that night. It was actually a man named Samuel Prescott who succeeded, alerting townspeople in Lexington and then moving on to Concord. But the Revolutionary War didn’t officially start for more than a year after Prescott’s ride. No joke.

History Smashers: The Mayflower

Through illustrations, graphic panels, photographs, sidebars, and more, acclaimed author Kate Messner smashes history by exploring the little-known details behind the legends of the *Mayflower* and the first Thanksgiving.

In 1620, the Pilgrims landed at Plymouth Rock and made friends with Wampanoag people who gave them corn. *Right?* WRONG! It was months before the Pilgrims met any Wampanoag people, and nobody gave anybody corn that day.

Did you know that the pilgrims didn't go straight from England to Plymouth? No, they made a stop along the way—and almost stayed forever! Did you know there was a second ship, called the *Speedwell*, that was too leaky to make the trip? No joke. And just wait until you learn the truth about Plymouth Rock.

On December 7, 1941, the Japanese launched a completely unpredictable attack on the US Navy base at Pearl Harbor, Hawaii. *Right?* Well, that's not quite the real deal. Some military experts *had* suggested that Pearl Harbor was a likely target. There were other warning signs, too, but nobody paid much attention. Uncover the hidden truth behind the sinking of the *Titanic* with sidebars, illustrations, photos, and graphic panels in *History Smashers: The Titanic*.

On April 15, 1912, an “unsinkable” ship called the *Titanic* unexpectedly hit an iceberg and sank to the bottom of the North Atlantic. *Right?* Wrong! Nobody was really talking about the *Titanic* being unsinkable until after it sank.

The truth is, four different ships wired the *Titanic* to report icebergs and field ice in the area. But the *Titanic* never slowed down. In fact, when the *Californian* warned that it was trapped in ice, the *Titanic*’s wireless operator was so busy sending outgoing messages that he replied, “Shut up!” No joke.

History Smashers: Women's Right to Vote

Through illustrations, graphic panels, photographs, sidebars, and more, Kate Messner smashes history by exploring the little-known details behind the fight for women's suffrage.

Women marched and picketed for the right to vote! They even went to jail. But in the end, it all came down to a letter from a state representative's mom. No joke.

Women's Right to Vote smashes the myths about the struggle for women's suffrage. In 1920, Susan B. Anthony passed a law that gave voting rights to women in the United States. RIGHT? WRONG! Susan B. Anthony wasn't even alive when the Nineteenth Amendment was ratified. Plus, it takes a lot more than one person to amend the Constitution.
