

PANDA
WINDOWS & DOORS

Pivot Doors

Quality

Engineering and Craftsmanship

We've been designing European-inspired windows and doors for over 30 years, catering to custom luxury residential and commercial projects.

Our dedicated team of engineers focuses on innovation and excellence, delivering industry-leading, premium-grade products.

Materials

Extrusions and Hardware

We source only the finest materials from the leading suppliers around the world. Products are made from abundantly available, highly recyclable, and sustainable materials.

Our hardware is designed in-house and features patented innovations, guaranteeing exceptional product fidelity and performance.

Custom

Bespoke and Innovative

Choose from over 80 state-of-the-art products, including sliding, folding, stacking, swinging, and pivoting options, all customizable to your exact specifications.

We offer select premium features such as automation, smart home integration, biometric smart locks, smart glass technology, and much more.

Service

Tailored and Reliable Support

An experienced team is just a call or a click away. So whether you need onsite support, a replacement part, or guidance over the phone, we're committed to resolving the issue quickly.

You can count on our exceptional customer support backed by a 10-year Warranty. Enjoy your windows, your doors, and your peace of mind.

Highlights

Panda's Pivot Doors are designed to be the focal point of your entryway. Our modern pivot doors can accommodate exceptionally tall or wide entryways while providing a sleek glass aesthetic or striking patterned design.

Grand Entryways

Pivot doors can soar up to 24 feet in height or span 10 feet in width, creating striking entryways that leave a lasting impression.

Effortless Operation

Swing open exceptionally large doors with just the push of a finger using Panda's proprietary designs, and enjoy the convenience of a self-closing door with a concealed closer.

Maximum Security

Pivot doors feature a concealed multi-point locking system with up to five locking points, providing exceptional security and peace of mind.

* This system features an air break—an insulating air cavity surrounding the panel—which minimizes thermal conduction and enhances energy efficiency and indoor comfort.

** Solid wood is among the most effective thermal insulators, and solid wood systems provide the highest form of thermal performance.

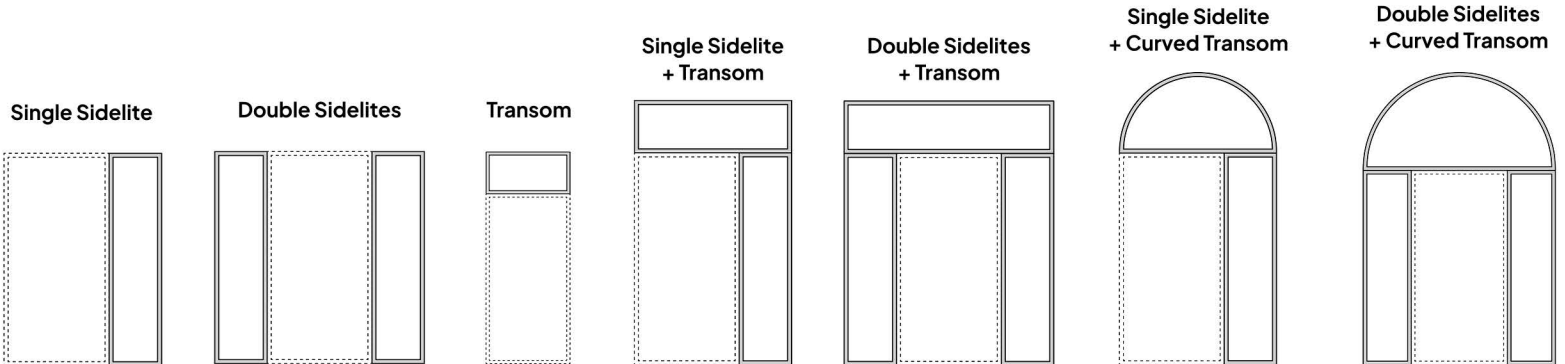

† U-Factors are based on Cardinal 366 Low-E glass unless stated otherwise.

Hardware

Multi-point Lock ± Roller Catch

With its robust steel construction and three-point locking system, this latch lock offers superior protection against intruders. The adjustable roller latch ensures a tight seal, while the Europrofile cylinder with unique key technology adds an extra layer of security. Designed for versatility, this lock is suitable for various door materials and thicknesses. Whether for residential or commercial use, this lock is the ultimate choice for peace of mind.

Up to two additional points can be optionally added for added security.

Pivot Closer

This innovative hardware offers unparalleled control and elegance for your pivot doors. With its customizable features, including adjustable soft-close and hydraulic backcheck, you can fine-tune the door's movement to perfection. The self-closing and hold-open positions provide flexibility and convenience, while the versatile design accommodates a wide range of door configurations.

An optional upgrade is available that offers enhanced control over door movement and is designed for larger, heavier doors.

Concealed Closer

Completely hidden within the door, this closer provides gentle, controlled closure, protecting your doors and preventing noise disturbances. Its durable aluminum construction and customizable settings ensure optimal performance in a variety of applications.

Exclusive to Voyage Collection, PDS.20, PDTS.68, PDWS.22, and PDWTS.69 doors.

Concealed Drop Seal

This is a versatile drop-down seal for narrow wooden, metal, and PVC doors, offering sound absorption up to 48 dB, a drop height of up to 20 mm, and automatic floor compensation for sloped surfaces. Its silent actuation, adjustable settings, and durable silicone lip with recessed protection ensure smooth operation and long-lasting performance.

Exclusive to the Voyage Collection.

External Drop Seal

Ideal for various door materials, including steel and aluminum, this easy-to-install seal provides a reliable barrier against noise and drafts. Combining your projects with the external drop seal creates a comprehensive sealing solution that elevates the performance of your doors.

Exclusive to PDS.20, PDS.21, PDTS.64, and PDTS.68 systems.

Automation

Experience the effortless operation of our pivot doors with integrated automation.

Powered by advanced motors, these doors open and close with a smooth and quiet precision, adding a touch of elegance and convenience to any space.

Controls

9-in-1 Touchscreen

9-in-1 Touchscreen: Offers a user-friendly interface with features like timer functions, custom backlighting, and custom security settings.

Smartphone App: Control your systems via the intuitive app. Available on both iOS and Android platforms.

Voice Command: Control your automated doors with your smart home ecosystem by using voice commands through platforms like Google Home, Alexa, and Siri.

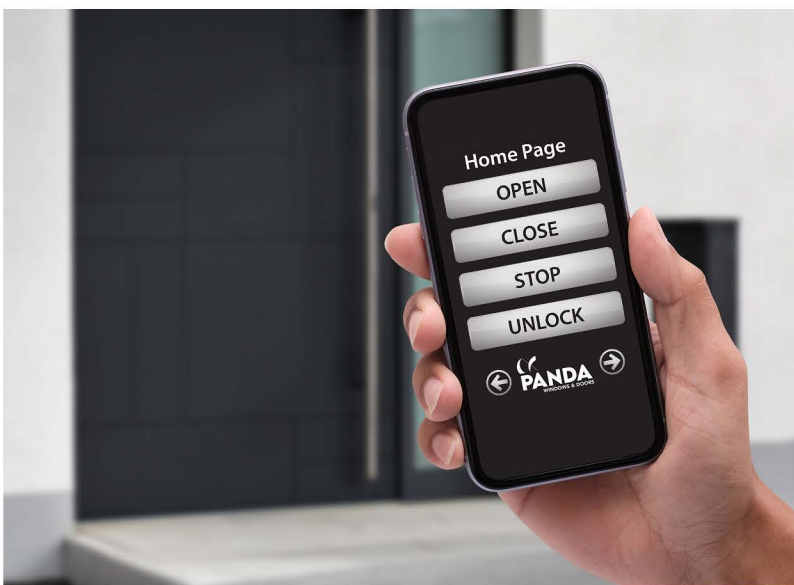

Wall Switch: Control your doors with wall switches, offering features like self-close, auto-open, speed control, and security codes. Available in black or white.

Remote Fob: Enjoy the convenience of remote control for your systems with a range of up to 75 feet.

Fingerprint Scanner: Enhance security and convenience with biometric access control.

Exterior Keypad: This durable and weatherproof keypad provides secure exterior access with a user-defined code.

Motion Sensor: This exterior motion sensor, mounted on the lead panel, offers hands-free entry and provides an added layer of safety. Can be activated by motion (head track) or by approaching the system (flush mount).

Smartphone App

Test Results

Panda Windows and Doors prioritizes rigorous testing and certification, with nearly all products independently verified by the NFRC and AAMA, including six HVHZ-approved options. This commitment to quality ensures superior performance, energy efficiency, and security for homeowners and builders alike.

Voyage Collection Pivot Door

AAMA / WDMA / CSA 101 / I.S.2 / A440-17

Performance Grade	25
Design Pressure	±2400 Pa (±50.13 psf)
Air Infiltration	<0.1 L/s/m ² (<0.01 cfm/ft ²)
Water Penetration Resistance	180 Pa (3.76 psf)
Structural Test Pressure	±3600 Pa (±75.19 psf)
Florida Approval Number	FL 46942.1

Tailored to You

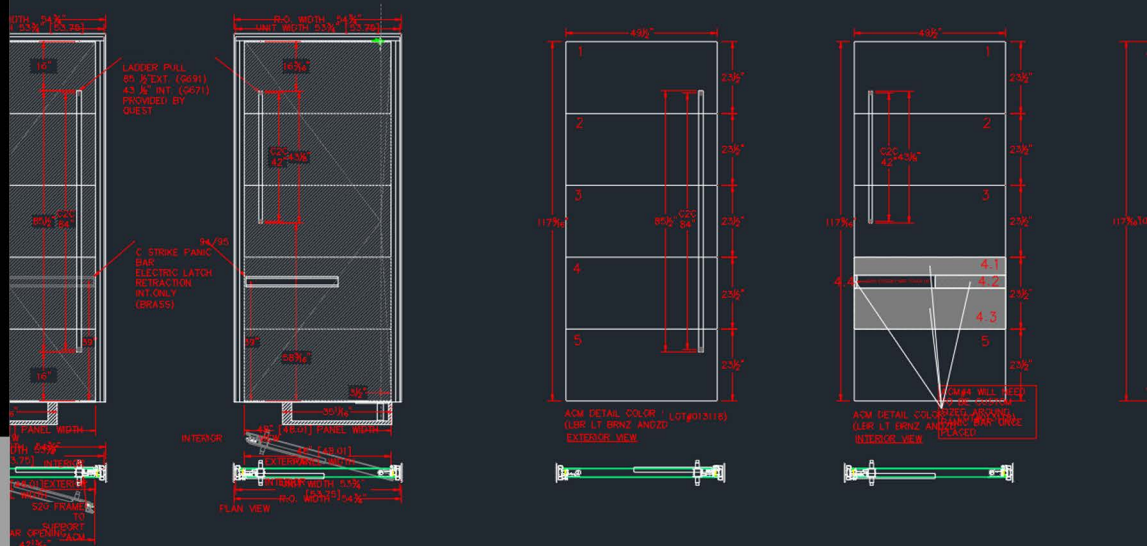

At Panda Windows and Doors, we understand that every project is unique. Our commitment to customization extends beyond standard product offerings to encompass project-specific testing and engineering.

Whether you're facing the relentless winds of a coastal region or the extreme temperature fluctuations of a high-altitude environment, our team can design and test systems to meet your exact needs.

Engineered Solutions

By leveraging advanced engineering techniques and rigorous testing protocols, we ensure that our products deliver optimal performance in even the most demanding conditions.

Materials

Unparalleled quality matched with incredible durability

All products are made with abundantly available, highly recyclable, and sustainable materials - Aluminum, Steel, Stainless Steel, Bronze, and Wood.

Aluminum

A highly versatile material capable of a wide range of shapes and finishes

- Affordable and low-maintenance
- Durable and highly customizable
- Thermally broken and energy efficient
- Superior thermal efficiency

Steel

Sleek and incredibly thin profiles that deliver unmatched durability and timeless elegance

- Exceptional strength and structural support
- Industrial and contemporary design aesthetic
- Forced entry and fire resistant
- Superior thermal efficiency

Stainless Steel

The luxurious and ultra-modern alternative to steel, providing unparalleled elegance and allure

- Exceptional strength and structural support
- Forced entry and fire resistant
- Outstanding rust and corrosion resistance
- Superior thermal efficiency

Architectural Bronze

A warm and inviting aesthetic with many of the same benefits of steel

- Exceptional strength and structural support
- Durable and low-maintenance
- Unparalleled rust and corrosion resistance
- Energy efficient and thermally broken

Wood

Naturally beautiful and full of character without compromising performance

- Durable and highly customizable
- Natural thermal and sound insulation
- Timeless and naturally inviting character
- Sustainable and highly recyclable

Finishes

Tailored finish options to perfectly suit your climate and vision

These high-quality finishes are designed to provide lasting beauty and robust protection that you can rely on.

Powder Coat

Color match or select from 25 Powder Coat colors available in AAMA 2604/2605, and Metallic/Bonded.

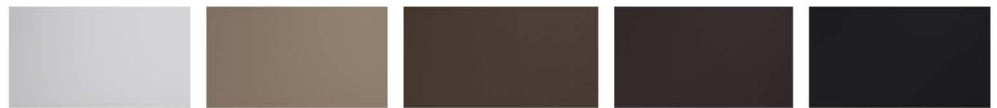

FEATURED

Anodized

For best-in-class corrosion resistance and durability, ideal for coastal applications.

FEATURED

Kynar Paint

Renowned for its exceptional color retention and sun-resistance, Kynar Paint stays vibrant even in the harshest climates.

FEATURED

Faux Wood

Enjoy the rich texture and natural look of real wood, with the strength and durability of aluminum.

FEATURED

Wood

Select from timeless classics like Pine or Poplar, or exotic species like Cherry, Mahogany, Maple, and more.
