

PANDA
WINDOWS & DOORS

Hinged Doors

Quality

Engineering and Craftsmanship

We've been designing European-inspired windows and doors for over 30 years, catering to custom luxury residential and commercial projects.

Our dedicated team of engineers focuses on innovation and excellence, delivering industry-leading, premium-grade products.

Materials

Extrusions and Hardware

We source only the finest materials from the leading suppliers around the world. Products are made from abundantly available, highly recyclable, and sustainable materials.

Our hardware is designed in-house and features patented innovations, guaranteeing exceptional product fidelity and performance.

Custom

Bespoke and Innovative

Choose from over 80 state-of-the-art products, including sliding, folding, stacking, swinging, and pivoting options, all customizable to your exact specifications.

We offer select premium features such as automation, smart home integration, biometric smart locks, smart glass technology, and much more.

Service

Tailored and Reliable Support

An experienced team is just a call or a click away. So whether you need onsite support, a replacement part, or guidance over the phone, we're committed to resolving the issue quickly.

You can count on our exceptional customer support backed by a 10-year Warranty. Enjoy your windows, your doors, and your peace of mind.

Highlights

Panda’s Hinged Doors are custom-made and boast multi-point locking for unparalleled security and durability. Doors can reach 14’ in height, are offered in single or double swing, and can be paired with any window style.

Maximum Security

Feature a concealed multi-point locking system with up to five locking points, providing exceptional security and peace of mind.

Matching Profiles

Hinged doors profiles perfectly match our folding, lift & slide, and multi-slide systems, offering a seamless and harmonious design.

Door Designs

Choose a modern glass-only design or customize your door with custom grid patterns, muntins, mid-rails, wood cladding, and more to create a design that is uniquely yours.

* This system features an air break—an insulating air cavity surrounding the panel—which minimizes thermal conduction and enhances energy efficiency and indoor comfort.

** Solid wood is among the most effective thermal insulators, and solid wood systems provide the highest form of thermal performance.

† U-Factors are based on Cardinal 366 Low-E glass unless stated otherwise.

Drop Seals

Concealed Drop Seal (Single Doors)

This is a high-performance drop seal designed for exterior doors made of wood, metal, or PVC, offering driving rain protection (7A/9A, ift certified), sound absorption up to 52 dB, and adjustable sealing movements in three directions. It also comes equipped with a durable silicone lip, compatibility with doors as thin as 68 mm, and an easy-to-use shortening set.

Exclusive to PandaSelect and Odyssey Collection systems in single door configurations.

Concealed Drop Seal (Double Doors)

This discreet solution offers unmatched acoustic insulation, reducing noise pollution by up to 48 dB. Its smooth, silent operation and automatic floor compensation ensure a seamless user experience, while its durable silicone lip provides long-lasting protection.

Exclusive to PandaSelect and Odyssey Collection systems in double door configurations.

External Drop Seal

Ideal for various door materials, including steel and aluminum, this easy-to-install seal provides a reliable barrier against noise and drafts. Combining your projects with the external drop seal creates a comprehensive sealing solution that elevates the performance of your doors.

Exclusive to FDS.20, FDS.21, FDTS.64, and FDTS.68 systems.

Hardware

Automated Closers

External Closer

Engineered to handle heavy-duty doors, it offers precise control over closing and latching speeds, ensuring smooth and secure operation. With its customizable features, including adjustable back check and versatile installation options, this closer is the ideal choice for demanding environments.

Unavailable for Odyssey Collection doors.

Concealed Closer

Completely hidden within the door, this closer provides gentle, controlled closure, protecting your doors and preventing noise disturbances. Its durable aluminum construction and customizable settings ensure optimal performance in a variety of applications.

Exclusive to Odyssey Collection, FDS.20, FDTS.68, FDWS.22, and FDWTS.69 doors.

Multi-Point Lock

With its robust steel construction and three-point locking system, this latch lock offers superior protection against intruders. The adjustable roller latch ensures a tight seal, while the Europrofile cylinder with unique key technology adds an extra layer of security. Designed for versatility, this lock is suitable for various door materials and thicknesses. Whether for residential or commercial use, this lock is the ultimate choice for peace of mind.

Up to two additional lock points can be installed for increased security.

Test Results

Panda Windows and Doors prioritizes rigorous testing and certification, with nearly all products independently verified by the NFRC and AAMA, including six HVHZ-approved options. This commitment to quality ensures superior performance, energy efficiency, and security for homeowners and builders alike.

FDT5.30 All Aluminum Thermally Broken Hinged Door (Outswing / Inswing)

AAMA / WDMA / CSA 101 / I.S.2 / A440-17

Performance Grade	40 / 15

Florida Approval Number	-

Tailored to You

At Panda Windows and Doors, we understand that every project is unique. Our commitment to customization extends beyond standard product offerings to encompass project-specific testing and engineering.

Whether you're facing the relentless winds of a coastal region or the extreme temperature fluctuations of a high-altitude environment, our team can design and test systems to meet your exact needs.

Engineered Solutions

By leveraging advanced engineering techniques and rigorous testing protocols, we ensure that our products deliver optimal performance in even the most demanding conditions.

Glass

All Panda Hinged Door Systems come standard with Dual glazed, Low-E, Tempered glass for improved energy efficiency and security.

Additional glass options include:

- Low-E
- Triple-Glazed
- Tempered
- Tinted
- Gas Filled
- Obscured
- Laminated
- Spandrel
- Impact Resistant
- Switchable Glass

Standard Glass Thicknesses

$\frac{3}{16}$ " | $\frac{1}{4}$ " | $\frac{3}{4}$ " | 1" | $1\frac{3}{8}$ "

Other glass OA sizes available upon request

Materials

Unparalleled quality matched with incredible durability

All products are made with abundantly available, highly recyclable, and sustainable materials – Aluminum, Steel, Stainless Steel, Bronze, and Wood.

Aluminum

A highly versatile material capable of a wide range of shapes and finishes

- Affordable and low-maintenance
- Durable and highly customizable
- Thermally broken and energy efficient
- Superior thermal efficiency

Steel

Sleek and incredibly thin profiles that deliver unmatched durability and timeless elegance

- Exceptional strength and structural support
- Industrial and contemporary design aesthetic
- Forced entry and fire resistant
- Superior thermal efficiency

Stainless Steel

The luxurious and ultra-modern alternative to steel, providing unparalleled elegance and allure

- Exceptional strength and structural support
- Forced entry and fire resistant
- Outstanding rust and corrosion resistance
- Superior thermal efficiency

Architectural Bronze

A warm and inviting aesthetic with many of the same benefits of steel

- Exceptional strength and structural support
- Durable and low-maintenance
- Unparalleled rust and corrosion resistance
- Energy efficient and thermally broken

Wood

Naturally beautiful and full of character without compromising performance

- Durable and highly customizable
- Natural thermal and sound insulation
- Timeless and naturally inviting character
- Sustainable and highly recyclable

Finishes

Tailored finish options to perfectly suit your climate and vision

These high-quality finishes are designed to provide lasting beauty and robust protection that you can rely on.

Powder Coat

Choose from five standard AAMA 2604 / 2605 colors or upgrade to a palette of 20 premium colors.

FEATURED

Anodized

For best-in-class corrosion resistance and durability, ideal for coastal applications.

FEATURED

Kynar Paint

Renowned for its exceptional color retention and sun-resistance, Kynar Paint stays vibrant even in the harshest climates.

FEATURED

Faux Wood

Enjoy the rich texture and natural look of real wood, with the strength and durability of aluminum.

FEATURED

Wood

Select from timeless classics like Pine or Poplar, or exotic species like Cherry, Mahogany, Maple, and more.
