

LOTIONS

Lotions are typically for personal use by consumers for cosmetic purposes. Most lotions are used for softening or moisturizing skin. Some lotions are used to deliver medicine to unbroken skin as well. Typically, these are emulsions with oil suspended in water and shear-thinning.

SUGGESTED PUMPS:

4127C SERIES™

- 316 Stainless Steel
- Cartridge Lipseal Options
- Low Shear
- Capacities to 320 GPM

1127C SERIES™

- Capacities to 320 GPM

REVOLUTION® SERIES

- 316 Stainless Steel Sanitary Design
- Innovative front loading Seal
- Low shear
- Capacities to 761 GPM

MARKET APPLICATIONS:

- Tanker truck unloading
- Product transfer
- Ingredient dosing
- Finished product transfer

VIKING IN THE PROCESS:

Stainless Steel pumps play a key role in the manufacturing of lotions. Beginning with the transfer of raw materials from tanker trucks to storage tanks, day tanks, ingredient dosing and finished product transfer to filling machines, Viking Pump has a solution for your application requirements.

Note: O-Pro® seals are patented.
