Issues resolved:

1. Freephotocalendar no longer vaible
   a. What was the issue/problem?
      i. Freephotocalendar is no longer available.
   b. What is the cause?
      i. No longer a viable application
   c. What was the resolution to fix the problem?
      i. Create Deprecated application category.
      ii. Move Freephotocalendar to this new category.

2. Issues Classifying Google Drive Requests
   a. What was the issue/problem?
      i. Clients6.google.com domain was classified under application "Google"
   b. What is the cause?
      i. clients6.google.com domain is quite generic to google suite of applications, however it seems more relevant to google drive as this provides the unaffaliated data to prevent entire google drive access
   c. What was the resolution to fix the problem?
      i. clients6.google.com domain is now classified under application "Google Drive"
