Webroot Email Threat Protection
Purpose Built for SMBs

Five Reasons Why SMBs Choose
Webroot Email Threat Protection

## The Problem

1122%
increase in phishing

in the first quarter of 2022 compared
to 2021 Q1 phishing numbers*

*2022 BrightCloud Threat Report

"Which solutions do you view as most important to your overall workplace security?"

70%
Email Threat
Filtering

44%
Email Encryption /
Data Loss Prevention

57%
Endpoint
Security

Source: Zix Pulse Survey "State of SMB Security", 2021 (includes NA & EMEA)

The Solution

1. Muti-layered
threat filtering for inbound
and outbound emails

2. Link Protection
with time-of-click
analysis

3. Attachment Quarantine
Disarming & Sandboxing

4. Message Retraction
for Office 365

5. Simple to install,
manage, customize
and support
