Solutions We Proposed

FIELD EQUIPMENT MANAGEMENT SOLUTION

Challenge: How can we keep a pulse on equipment conditions, job supply inventories, & preventative maintenance schedules for our construction equipment?

Solution: Empower Foreman's & their teams to inspect, audit, and report out on equipment health while providing management with at-a-glance portfolio level visibility.

Key Enablers:

Solutions We Proposed

FIELD EQUIPMENT MANAGEMENT

Challenge: How can we keep a pulse on equipment conditions, job supply inventories, & preventative maintenance schedules for our construction equipment?

Solution: Empower Foreman's & their teams to inspect, audit, and report out on equipment health while providing management with at-a-glance portfolio level visibility.

Key Enablers:

SUPER CHECKLISTS

Challenge: How can we efficiently & dynamically build construction plans from our standardized processes?

Solution: Enable team leads to quickly build large construction plans from a library of standardized processes.

Key Enablers:

Our Steps for a Successful Solution

1. Always start with the Dashboards – what information does each team member or group need?
2. Map the processes and architecture.
3. Build the solution iteratively.

Dive Deeper into Smartsheet Solution Design

Next Sessions:

- Paul's 5 favorite shortcuts
- Dashboard Design and navigation for small and large solutions
- Templating with and without Control Center

Next steps...

- Register for access to 10xTimeSavers: Small Group Interactive Deep Dive Sessions led by the 10xViz team (complimentary!)
- Visit our Booth #502– we would love to connect with you in person while we are all together!
- Schedule a complimentary consultation.

Take the survey

We'd love to hear your thoughts on the session.

Open this session in the mobile app, click “Survey,” and answer two questions — it's that easy!

Thank you.
