Milan Dostalik  
Director

We respect the community around us and most of all everyone's expertise the same way the founders did in 1861.

Every day we respect nature  
and the gift of wood.

Every day we strive for excellence in every aspect of what we do: bending wood and handcrafting chairs and tables.

Chair No. 14 is brought to life by 22 pairs of skilled hands. Countless others, while not physically touching it, contribute to making this conception a reality.
