

Visiting Physician Program (VPP) Fact Sheet

The EvoEndo Visiting Physician Program, or VPP for short, is a clinical education initiative that connects current physician and facility champions of our technology with interested clinicians who would like to learn more about how the product can be integrated into their own practices by observing live cases and consulting in-person with respected clinical peers and colleagues.

At EvoEndo, we believe clinician education is essential to the successful advancement of medical technology and are dedicated to the idea that the most effective way to deliver that education is in-person and via a peer or colleague.

We are sensitive to the need to maintain a healthy separation between industry and healthcare delivery. To that end, we contract with independent faculty to serve as Key Opinion Leaders who are reimbursed for their time but have sole discretion over educational content and opinions expressed during their presentations. Our belief is that this technology and its benefits to patients and clinicians are strong enough to stand on their own merits, and our involvement does not need to go any farther than the front door.

What would a VPP Clinical Education Session look like?*

**This is NOT a preceptorship in the traditional sense; we are not an educational body and program participation DOES NOT infer competence.*

VPP FAQs

> WHO IS ELIGIBLE TO PARTICIPATE?

Any physician or advanced practice clinician whose credentials are in good-standing, and that currently use endoscopy within their practice.

> IS THIS ONLY FOR PHYSICIANS?

No, advanced practice clinicians such as Nurse Practitioners or Physician Assistants are also welcome to participate.

> WHO CREATES THE EDUCATION CURRICULUM & TOPICS?

The resident Key Opinion Leader is responsible for the educational dinner presentation and all topics and content covered.

> ARE RELATED TRAVEL AND LODGING EXPENSES COVERED?

At EvoEndo we stringently follow all rules and regulations related to healthcare practitioner expense reimbursement and reporting. We follow current AdvaMed Guidelines for Medical Device Companies along with any and all local, state, and federal requirements and restrictions. Please contact the program administrator for more information.

> HOW IS CREDENTIALING HANDLED?

We will follow each facility's individual credentialing requirements and strive to make the process as frictionless as possible. Please speak with your account manager or the program administrator for more specific requirements.

> DO I HAVE TO BE A CURRENT EVOENDO CUSTOMER TO PARTICIPATE?

No, you do not have to be a current customer or using our products in order to participate. This is a clinical education activity only, and therefore you are under no obligation to purchase.

> WILL I RECEIVE A CERTIFICATE OR CONTINUING EDUCATION CREDITS UPON COMPLETION?

Participation in the Visiting Physician Program is not meant to be a determination of competency, nor does it award any type of continuing education credit.

Questions?

Please feel free to reach out to me directly if you have any questions regarding program participation, rules and regulations, and anything else that would pertain to this clinical education initiative.

Are you a healthcare administrator or a clinician that is interested in participating in this program as a host facility or teaching faculty? I would love to go into further detail with you regarding what that would entail, and what potential benefits participation in this program may provide.

I look forward to hearing from you!

Clint Smith

VPP Program Administrator
