

# Powered Anode Kits

## Compatible with **MORE** products!

### Get better corrosion protection!

Product Preservers powered anode system has patented technology to sense water conditions and provide the proper level of corrosion protection.

Enhance the performance and extend the life of a residential or commercial water heater with a powered anode kit, suitable for 30 USG - 120 USG.

### FEATURES

- Built-in LED fault light and audible alarm
- Easy installation with a standard 120 volt wall outlet
- Eliminates smelly water caused by sulfate reactions with sacrificial magnesium anodes
- Protects for years; no maintenance required
- Great for softened water applications

### KIT COMPONENTS

- Control module with two self-tapping screws
- Anode (electrode)
- Power supply with 5 ft. cord (input 120 VAC/output to module: 12 VDC)
- Wiring harness

Kit #	Description	Size
100305721	Residential & light duty commercial	30-70USG
100324744	Residential & light duty commercial	75-120USG
100358397	Commercial	50-120USG
