

Flexible Models - 105 (40 Imp. gallons)

Standards

- These models meet the safety and construction requirements of CSA Standard C22.2 No. 110
- Meet or exceed the standby loss requirements of NRCAN and ASHRAE 90.1 Standard

Benefits

- **COMMERCIAL DESIGN:** Manufactured with thicker special steel and works so as to feed the elements or a bank of elements alternately and not simultaneously
- Insulated with a uniform 2 inch (5 cm) layer of insulation reducing heat loss and energy costs
- Two (2) oversized high quality magnesium anodes to provide superior protection against the corrosive effects of water and extend the life of the tank
- Conveniently located handhole to help clean and remove sediment accumulation inside the water heater
- Inner tank is glass-lined with a uniquely formulated blue cobalt glass enriched with zircon
- 1-1/2" hot and cold water NPT di-electric connections on all models

- Increased ease of voltage and power conversion on site
- **CONVERSION KIT :** Light and medium duty: allows more than 90 different configurations. Heavy duty: allows more than 343 different configurations.
- T&P valve(supplied) to protect the tank from damaging effects of excessive temperature and pressure (factory installed on 112 models)
- Equipped with two hinged doors for easy service access to components
- Brass drain valve
- Surface mount thermostat at 160°F
- CSA certified immersion heating elements
- Patented twist-lock flange for easier element replacement

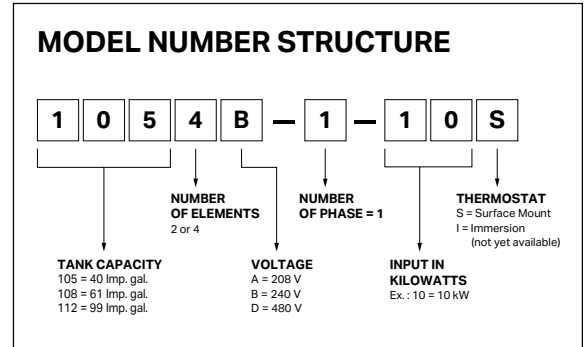

Warranty

- 3-year warranty against inner tank leakage
- 1-year warranty on parts

Flexible Models - 105 (40 Imp. gallons)

Light & Medium Duty - 208, 240 & 480 Volts / Single-Phase

VOLTAGE INDEX	
A	208 Volts
B	240 Volts
D	480 Volts

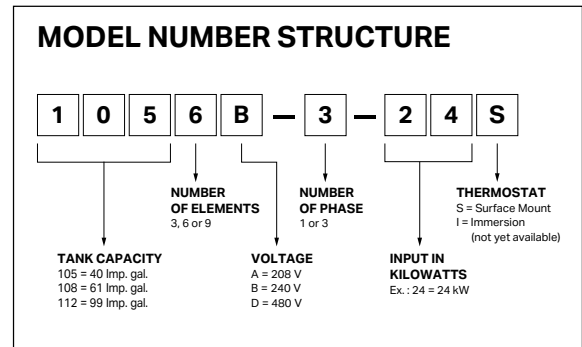

SPECIFICATIONS						
Model*	Input	Amperage			Phase	Number of elements
	kW	208 V	240 V	480 V		
LIGHT & MEDIUM DUTY - 2 or 4 elements
