COVID-19 tests are now available through your pharmacy benefit.

Hello,

During these difficult times, one thing should be easier: getting tested for COVID-19. As of January 15, you can get COVID-19 tests for free at your local pharmacy.

How to get free at-home COVID-19 tests
You can use your Express Scripts® pharmacy benefit to obtain up to eight (8) tests per month for a $0 copay.

Here's how:

1) Visit a [participating pharmacy](#) and select a COVID-19 at-home test.
2) Bring your test to the **pharmacy** counter (not the general check-out register) and present your prescription benefit card to the pharmacist. The pharmacist will process the test for a $0 copay.

Submitting a manual claim *(Pharmacy receipt required)*
If the COVID-19 Test does not process for $0 copay at the pharmacy (and you have not used your allotment of eight tests per month) do not worry. You can submit a manual claim for reimbursement for COVID-19 at-home tests purchased at a participating pharmacy after Jan. 15, 2022.

To submit a manual claim, please visit our website https://express-scripts.com/covid-19/resource-center. You will need to complete the manual claims form and submit it along with a pharmacy receipt to receive reimbursement.

Protect Yourself From COVID-19: Get Vaccinated

COVID-19 vaccines reduce the risk of getting and spreading the virus that causes COVID-19. They also help prevent children and adults from getting seriously ill even if they do get COVID-19 and can help protect them from serious short and long-term complications.

Millions of people in the United States have received COVID-19 vaccines since they were authorized for emergency use by FDA. COVID-19 vaccines have undergone and will continue to undergo the most intensive safety monitoring in U.S. history.

To learn more about the vaccine and find resources by state, visit the Express Scripts COVID-19 Resource Center.
