Prophix for Sage X3

Move from a system of record to a system of insight

As companies grow, the complexity of financial management grows, too. Eventually, an ERP system alone may be inefficient to meet your evolving business needs.

With Prophix One, a Financial Performance Platform, finance teams can easily integrate Sage X3 – transforming operational data into actionable financial insights. Now businesses can plan, predict, and perform with greater speed and confidence.

## Sage X3 + Prophix One: From ERP to complete FP&A solution

Dynamic planning and modeling

Address ERP limitations and respond to external shifts using flexible templates, line-item details, and advanced analytics.

Multi-entity intelligence

Aggregate and drill into performance across all entities, no matter the source ERP.

High impact dashboards

Monitor your EBITDA, cash flow, CapEx, and OpEx, and auto-generate executive-ready board packages.

Speed and efficiency at scale

Reduce manual data collection and consolidation, streamline budget reviews, and automate financial reporting.

Sage Tech Partner

Turn your operational data into strategic insights

Enterprise-grade budgeting and forecasting

- Take your budgets and commitments tracking from Sage X3 and bring it into Prophix One for centralized planning across departments, divisions, and geographies.
- Use driver-based and assumption-driven models and quickly adjust based on changing conditions.
- Use what-if scenario planning to create multiple budget or forecast versions that support better decision-making.
- Use automated workflows for accountability, version control, audit trails, and AI-predictive forecasting for easy insights.

Power up your Sage X3 investment

As a certified Sage X3 ISV partner, discover how Prophix One bridges the gap between operations and finance to fuel smarter, faster decision-making.

Robust financial and operational reporting and analysis

- Integrate your operational data and leverage AI-powered insights across your reports, dashboards, and data.
- Centralize the management of key parameters to do period roll-overs with ease.
- Access dashboards, visualizations, and dynamic drill downs.
- Leverage report distribution and automatically apply role-based security.

High-volume data support across multi-entity organizations

- Integrate Sage X3 and other source data to build accurate, timely plans based on real-time data.
- Take advantage of scalable architecture that grows as your company expands – without sacrificing speed or usability.
