

# Automated Budgeting, Forecasting, and Financial Reporting

## Prophix for Sage Intacct

### Working Together to Deliver Value to the Mid-Market

Many companies still rely on Excel spreadsheets for budgeting, reporting, and forecasting, creating ongoing issues with version control, security, and human error.

With Prophix for Sage Intacct, you can reduce risk and save time by moving away from manual, spreadsheet-based processes.

Prophix's Corporate Performance Management (CPM) software is an easy-to-use and powerful solution designed to support the needs of today's leading businesses.

Seamless integration between Prophix and Sage Intacct will give you a better understanding of your entire organization. You can easily answer "what-if" scenarios to determine departmental impact, optimize your strategic planning, and better allocate your resources.

With Prophix's integrated planning platform, you can be confident that every decision is the best decision possible for your business.

# Move Beyond Excel & Drive Performance:

The combined power of Prophix and Sage Intacct will allow customers to:

- Build intuitive financial and operational models to support evolving strategy across business entities
- Automate the budgeting process, reducing risk and improving collaboration within the organization
- Forecast across multiple entities, business units, departments, and regions from a single source of the truth
- Expedite and reduce the risk associated with financial closes, internal audits, account reconciliations and more
- Reduce the time spent on data collection and focus on supporting strategic data-driven decisions
