

Unlock the power of your QAD Data

Manufacturing Experience that Matters

Managing your supply chain can be a challenge - you need to reduce your time-to-market, deliver quality products and optimize your production processes to maximize profits. Supply and production must be in sync with demand while also taking production capacity restraints, human resource requirements, manufacturing schedules and material pricing into account. With Prophix, QAD customers can immediately see the impact of operational decisions on cash flow, profitability and revenue.

Move beyond Excel & drive performance

Prophix enables manufacturing companies in the automotive, high-tech, food and beverage, consumer, industrial and life sciences industries, to:

- ▶ Review, analyze and adjust processes based on key performance indicators
- ▶ Automate data consolidation from multiple plants, divisions and cost centers
- ▶ Set up easy self-service reporting for all users, from one version of the truth
- ▶ Create powerful what-if scenarios
- ▶ Pinpoint areas to adjust and manipulate based on analysis at the material, product, business unit, or region level
- ▶ Plan for headcount, and automate the calculation of associated costs
- ▶ Meet industry and government reporting regulations
- ▶ Make proactive changes to drive competitive advantage
