

XBRL & iXBRL REPORTING POWERED BY IRIS CARBON

Simplify and streamline ESEF reporting

Be confident in meeting compliance requirements with Prophix

The European Securities and Markets Authority (ESMA) released their European Single Electronic Format (ESEF) mandate in 2021. This mandate asserts that all corporate reporting should be digitized to support accessibility, analysis, and the comparability of annual financial reports.

Meeting ESEF compliance requirements can be challenging without the right tools, education, and expert support. With Prophix, you can reduce compliance timelines with error-free filings.

Empower your team

Reduce time spent on reporting

- Collaborate with contributors in one environment
- Manage edits and approvals with built-in workflows
- Use flexible permissions to expedite the reporting process

Be confident in your filings

- Report faster with artificial intelligence-enabled tagging
- Ensure transparency with a full audit trail
- Easily manage changes to reports with version management

Trust our ESMA experts

- Always up-to-date on the latest regulatory changes
- Available 24/7 to help you meet deadlines
- Easy to reach via email, phone, or in-app comments

Simplify and transform processes in the Office of the CFO

Ensure a smooth filing process

Smart tagging

Submit your reports on-time with full confidence in your data

Expedite your report creation with smart tagging, review, and audit capabilities all in the same platform.

Multiple report formats

Streamline your compliance reporting

The ESEF mandate requires that you create an xHTML version of your annual report. If changes need to be made to your xHTML file, you can easily add new content and pages to your report without having to create a new HTML file.

Hassle-free compliance

Save time with outsourced reporting

Outsource your ESEF reporting with Prophix's hassle-free compliance process. It's easy to contract out your report creation, leaving only review and sign-off to you.
