# Advanced Management Reporting with Prophix

## **Better Results with More Powerful Insights**

Are you struggling to meet the ever-increasing reporting needs of your business? Are you looking to improve the depth and speed of your reporting? With expedited insights from Prophix, you can act on your data faster and more intelligently with better collaboration.

Free up your team to make strategic decisions by eliminating the time they typically spend combing through data by streamlining reporting, distribution, commentary, and everything in between.

It should be easy for you to follow, consume, and act on the story your data tells.

# Your Journey to Actionable Insights

# Your data should work for you – not the other way around.

As companies face increasing external risks, high-frequency reporting of KPIs is essential to organizational health. Today, Finance professionals are under growing pressure to help businesses navigate an uncertain economic environment.

Spend less time gathering and updating data, creating reports, and distributing them across the organization. Using a centralized platform to automate these activities can improve the speed, efficiency, and reliability of your reporting.

Advanced Management Reporting with Prophix provides a single source of truth for your financial data, enabling better insights and deeper financial analysis.

# Dashboards are the starting point to a richer data journey.

With personalized Dashboards from Prophix, your team can stay on top of KPIs, identify pivotal trends, and navigate to important reports.

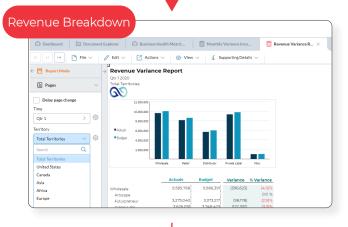

Gain insight into your organization's performance with the ability to analyze your data at a granular level. Create complex reports with ease and without any IT involvement.

We designed Prophix's reporting and analysis capabilities with cross-company collaboration and self-service in mind.

## Take Your Reporting to the Next Level of Efficiency

Expedite decisions with a consistent and impartial AI-generated narrative on key factors that drive your business.

Empower leadership and strategic stakeholders to self-serve and dive into the data to understand trends and variances in any report with auto-generated insights. Get peace of mind that stakeholders across the company are working with the same consistent and trustworthy voice.

The Office of Finance can spend more time acting on what drives trends rather than looking for them. Minimize follow-ups and the need for document details and allow your Finance team to focus on being a strategic partner to the business.

Save time and increase productivity by making your data journey accessible to all levels of your organization.

### A Single, Secure Source of Truth

Sensitive information is centrally managed – from data collection to reporting review. With a single, secure, and unified view of your financial truth, you can make better decisions faster and with greater confidence.

### Save Time with Intelligent Report Assembly & Distribution

Prophix's automation and Artificial Intelligence (AI) provide a handsfree approach by expediting report creation, assembly, and distribution. Workflow visualization and automation ensure a seamless, scheduled, and hassle-free reporting process.

### **Better Decision-Making with an Expedited Close**

What if you could accelerate the distribution of your consolidated data and use that to drive better business outcomes? Prophix enables you to integrate KPIs and statistical data into your analysis, improving the depth and flexibility of your reporting.

### **About Prophix**
