Elevate your ownership experience

with the myKubota app

Get started with myKubota in 4 easy steps

1 Download the myKubota app

The myKubota app is a free app available for iOS and Android from the Apple App Store (iOS) and Google Play Store (Android). You can also access the myKubota app on a web browser.

mykubota.com (US)
mykubota.app (CAN)

2 Create a myKubota user account

Once downloaded, launch the myKubota app. Click the "Profile" button, select "Create Account," and follow the registration instructions.

Note: To access KubotaNOW Telematics you must register with the email address used for warranty registration at time of purchase of your equipment.

3 Add your equipment

Adding your equipment is easy. Either scan the QR code of the machine or enter the information manually. You can also edit the details of your Kubota equipment, such as the machine name or engine hours, simply click on the machine in the equipment tab.

4 Get the most out of your Kubota

You now have access to all of your equipment's resources right at your fingertips.

Subscribe to KubotaNOW Telematics and revolutionize your equipment management*

View your entire fleet at a glance

Know what is happening with your machine at all times. Check your battery, fuel and DEF levels, coolant and hydraulic oil temperatures, whether your machine is on, off, running or stationary.

Get proactive maintenance alerts

Stay ahead of maintenance with tailored notifications for your equipment, detailing upcoming service requirements. Be notified of upcoming maintenance before you need it.

Fleet management integration

Use third party fleet management software to easily access and view KubotaNOW Telematics.

Enhanced security and restart inhibit

Locate your equipment quickly with real-time tracking or remotely disable start-up in the unfortunate event of theft.

Advanced location tracking and geofencing

Establish geofencing parameters and receive alerts when your equipment moves into or out of your custom boundaries.

Get connected with 3 years of KubotaNOW Telematics service included*

KubotaNOW Telematics includes service for three years after purchase. Renewal after the initial three years is subject to owner discretion.

*KubotaNOW Telematics is available for purchase on select Kubota equipment. KubotaNOW features may vary by model. KubotaNOW Telematics features are only available with Kubota-NOW Telematics-equipped machines.
