CONSTRUCTION EQUIPMENT EXCAVATOR BUCKET LINEUP

KX SERIES / U SERIES

CONSTRUCTION EQUIPMENT EXCAVATOR BUCKET LINE UP

Your reputation is only as good as the work you do. And your excavator is only as good as the attachment on the end of the dipper. Trust Kubota's range of performance-matched excavator buckets and attachments to help you get the work done to your high standards.

With Kubota's complete construction solutions, you get tough, durable equipment that works as hard as you do. Everything from excavators to loaders to our range of attachments is built to help Canadian construction companies do what they do best: build Canada. It's why we've earned our own reputation for reliability, and we're proud to put that commitment to the test day in and day out.

K008-5 / U10-5

This lightweight, high performance excavator features a dynamic Kubota diesel engine and a pedal-operated boom swing.

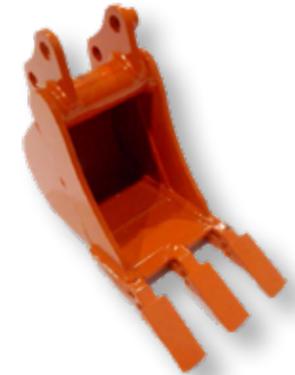

K008-5 / U10-5

PIN ON BUCKETS

- Kubota offers a wide range of attachments and buckets for its machines, varying from trenching and ditching buckets to hydraulic breaker adapters.

TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight	Number of Teeth
8"	0.27	45	3
10"	0.35	41	3
12"	0.46	45	4
14"	0.57	56	5

DITCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)
12"	0.59
14"	0.7

K008-5 / U10-5

PREMIUM WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler lets operators mechanically reverse trenching, ditching, and tilting buckets.

REVERSIBLE TRENCHING AND DITCHING BUCKETS

- Kubota offers a range of mechanical reversible trenching and ditching buckets for digging.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
12"	0.513	63	3
18"	0.81	81	4
24"	1.89	92.7	-
30"	1.593	108	no teeth

INVERTED AND REVERSIBLE EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they're compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

REVERSIBLE EAR KIT

INVERTED EAR KIT

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

U17-5 & KX018-4

The U17-5 zero-tail swing compact excavator has excellent stability and balance while the KX018-4 offers powerful bucket digging force and can access small spaces.

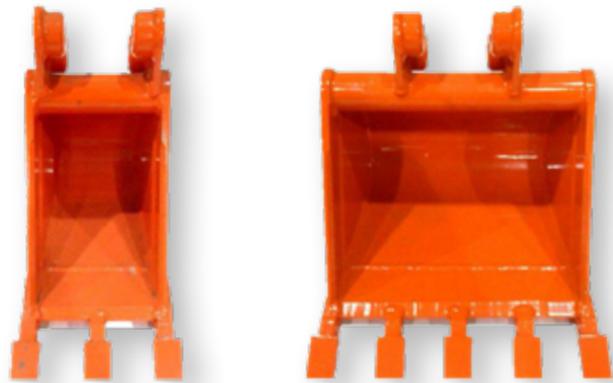

U17-5 & KX018-4

PIN ON BUCKETS

- Pin On Trenching buckets are available, while Pin On Ditching buckets are currently unavailable. There is no thumb compatibility with Pin On buckets.

TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
8"	0.51	54	3
10"	0.7	59	3
12"	0.89	65	4
16"	1.27	83	5
18"	1.49	90	5

STANDARD WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Standard Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. The Standard coupler keeps the bucket close to the dipper end, so there's no loss of breakout force.

HYDRAULIC THUMB

- Kubota Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.

HYDRAULIC BREAKER ADAPTOR

- A KXB360QA hydraulic breaker can be fitted to the U17 and KX018-4 to break up rocks, concrete, and construction materials by simply adding an adaptor to the end of the arm.

EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers.

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

TRENCHING AND DITCHING BUCKET

DITCHING BUCKET

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
24"	2.03	90

TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
10"	0.7	59	3
12"	0.89	65	4
16"	1.27	83	5
18"	1.49	90	5

TILTING DITCHING BUCKET

- Kubota offers tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
36"	3.24	196

U17-5 & KX018-4

PREMIUM WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler also lets operators mechanically reverse trenching, ditching, and tilting buckets.

REVERSIBLE TRENCHING AND DITCHING BUCKETS

- Kubota offers a range of mechanical reversible trenching and ditching buckets for digging.

REVERSIBLE TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
12"	0.82	81.1	3
18"	1.35	103.2	4

REVERSIBLE DITCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
24"	1.89	92.7
30"	2.43	106.4

REVERSIBLE TILTING DITCHING BUCKET

- Kubota offers reversible tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
30"	1.62	140

INVERTED AND REVERSIBLE EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

REVERSIBLE EAR KIT

INVERTED EAR KIT

HYDRAULIC BREAKER ADAPTOR

- A KXB360QA hydraulic breaker can be fitted to the U17 and KX018-4 to break up rocks, concrete, and construction materials by simply attaching a adaptor to the end of the arm.

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments made of Hardox® 450 steel to break up soil or frost and dig up stumps or roots.

HYDRAULIC THUMB

- Kubota Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.
- Compatible with premium and standard wedge couplers.

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

U27-4

Powered by a Kubota Tier-4 diesel, the compact, tight-tail swing U27-4 takes on challenging jobs that big excavators can't handle.

U27-4

STANDARD WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Standard Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. The Standard coupler keeps the bucket close to the dipper end, so there's no loss of breakout force.

HYDRAULIC THUMB

- Kubota Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.

HYDRAULIC BREAKER ADAPTOR

- A KXB460QA hydraulic breaker can be fitted to the U27-4 to break up rocks, concrete, and construction materials by simply adding an adapter at the end of the arm.

EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers.

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

TRENCHING AND DITCHING BUCKETS

TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
12"	1.3	82	3
16"	1.8	105	4
18"	2.08	115	4
24"	2.95	135	5

DITCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
30"	3.8	120
36"	4.2	140

TILTING DITCHING BUCKET

- Kubota offers tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
36"	3.24	196

PREMIUM WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler also lets operators mechanically reverse trenching, ditching, and tilting buckets.

INVERTED AND REVERSIBLE EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

HYDRAULIC THUMB

- Kubota Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.
- Compatible with premium and standard wedge couplers.

HYDRAULIC BREAKER ADAPTOR

- A KXB460QA hydraulic breaker can be fitted to the U27-4 to break up rocks, concrete, and construction materials by simply attaching an adapter at the end of the arm.

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments made of Hardox® 450 steel to break up soil or frost and dig up stumps or roots.

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

REVERSIBLE TRENCHING AND DITCHING BUCKETS

- Kubota offers a range of mechanical reversible trenching and ditching buckets for digging with hooks, so chains can be attached to place objects.

REVERSIBLE TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
14"	1.49	148.2	3
18"	2.05	168.7	4
24"	3.321	188	5

REVERSIBLE DITCHING BUCKET

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
36"	4.77	205.9

TILTING DITCHING BUCKET

- Kubota offers reversible tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
36"	3.24	196

KX030-4

Rugged, reliable, and highly maneuverable, the KX030-4 compact excavator has the deepest digging depth and highest power in its class.

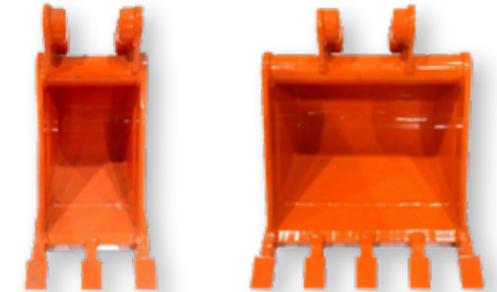

KX030-4

PIN ON BUCKETS

- Kubota offers a wide range of attachments and buckets for its machines, varying from trenching and ditching buckets to hydraulic breaker adapters.

TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
12"	2.1	162	3
16"	3.1	187	4
18"	3.5	197	4
24"	3.9	217	5

DITCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
30"	5	187
36"	6	252

KX030-4

STANDARD WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Standard Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. The Standard coupler keeps the bucket close to the dipper end, so you don't lose breakout force.

HYDRAULIC THUMB

- Kubota Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.

HYDRAULIC BREAKER ADAPTOR

- A KXB460QA hydraulic breaker can be fitted to the KX030-4 to break up rocks, concrete, and construction materials by simply attaching an adaptor at the end of the arm.

EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers.

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments to break up soil or frost and dig up stumps or roots.

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

TRENCHING AND DITCHING BUCKETS

TRENCHING BUCKET

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
12"	2.1	155	3
16"	3.1	180	4
18"	3.5	190	4
24"	3.9	210	5
30"	5.1	240	6

DITCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
30"	5	210
36"	6	245

TILTING DITCHING BUCKET

- Kubota offers tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
36"	3.24	196

PREMIUM WEDGE COUPLER

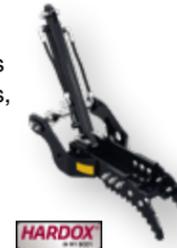

MECHANICAL QUICK ATTACH COUPLER

- The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler lets operators mechanically reverse trenching, ditching, and tilting buckets.

ADJUSTABLE HYDRAULIC THUMB

- Kubota Adjustable Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.
- Compatible with premium and standard wedge couplers.

INVERTED AND REVERSIBLE EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

REVERSIBLE EAR KIT

INVERTED EAR KIT

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

HYDRAULIC QUICK ATTACH COUPLER CONVERSION KIT

- Convert the Mechanical Quick Attach Coupler to hydraulic with the Hydraulic Quick Attach Coupler Conversion kit.

HYDRAULIC BREAKER ADAPTOR

- A KXB460QA hydraulic breaker can be fitted to the KX030-4 to break up rocks, concrete, and construction materials by simply adding an adaptor at the end of the arm.

REVERSIBLE DRAINAGE BUCKET

- The "V" design of the drainage bucket speeds up operations by digging only the necessary material while reducing the number of bucket strokes. The interchangeable and replaceable teeth make maintenance easier. Our EGD buckets are entirely made of high-strength Hardox® 450 steel.

KX030-4

PREMIUM WEDGE COUPLER

REVERSIBLE TRENCHING AND DITCHING BUCKETS

- Kubota offers a range of mechanical reversible trenching and ditching buckets for digging with hooks so chains can be attached to place objects.

REVERSIBLE TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
14"	1.9	169.1	3
24"	3.87	250.4	5

REVERSIBLE DITCHING BUCKET

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
36"	6.02	267.4

TILTING DITCHING BUCKET

- Kubota offers reversible tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
36"	4.05	384

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

TOOTH/FROST RIPPER

- Kubota provides robust attachment made of Hardox® 450 steel to break up soil or frost and dig up stumps or roots.

REVERSIBLE DRAINAGE BUCKET

- The "V" design of the drainage bucket speeds up operations by digging only the necessary material while reducing the number of bucket strokes. The interchangeable and replaceable teeth make maintenance easier. Our EGD buckets are entirely made of high-strength Hardox® 450 steel.

U35-4 & KX033-4

The powerful tight tail-swing U35-4 is highly versatile and well-suited for a range of applications. The KX033-4 mini-excavator delivers outstanding bucket breakout force and has the lifting capacity of a much larger machine.

U35-4 & KX033-4

PIN ON BUCKETS

- Kubota offers a wide range of attachments and buckets for its machines, varying from trenching and ditching buckets to hydraulic breaker adaptors.

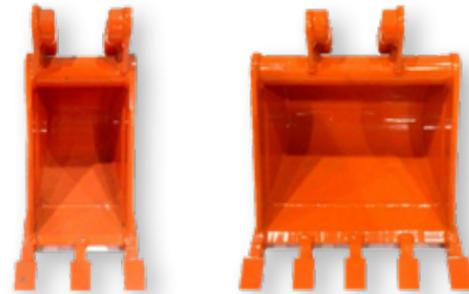

TRENCHING AND DITCHING BUCKETS

TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight	Number of Teeth
12"	2.1	162	3

36"	3.24	196

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers.

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments to break up soil or frost and dig up stumps or roots.

HYDRAULIC BREAKER ADAPTOR

- A KXB460QA hydraulic breaker can be fitted to the U35-4 and KX033-4 to break up rocks, concrete, and construction materials by simply attaching an adapter at the end of the arm.

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

U35-4 & KX033-4

PREMIUM WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler lets operators mechanically reverse trenching, ditching, and tilting buckets.

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

ADJUSTABLE HYDRAULIC THUMB

- Kubota Adjustable Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.
- Compatible with premium and standard wedge couplers.

HYDRAULIC QUICK ATTACH COUPLER CONVERSION KIT

- Convert the Mechanical Quick Attach Coupler to hydraulic with the Hydraulic Quick Attach Coupler Conversion kit.

INVERTED AND REVERSIBLE EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

REVERSIBLE EAR KIT INVERTED EAR KIT

HYDRAULIC BREAKER ADAPTER

- A KXB460QA hydraulic breaker can be fitted to the U35-4 and KX033-4 to break up rocks, concrete, and construction materials by simply attaching an adapter at the end of the arm.

REVERSIBLE DRAINAGE BUCKET

- The "V" design of the drainage bucket speeds up operations by digging only the necessary material while reducing the number of bucket strokes. The interchangeable and replaceable teeth make maintenance easier. Our EGD buckets are entirely made of high-strength Hardox® 450 steel.

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments made of Hardox® 450 steel to break up soil or frost and dig up stumps or roots.

REVERSIBLE DITCHING BUCKET

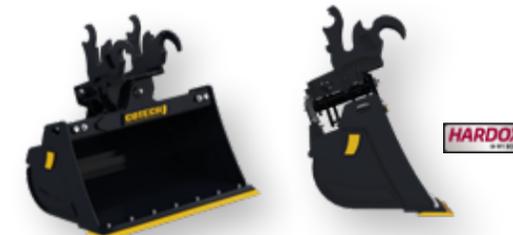

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
36"	6.02	267.4

TILTING DITCHING BUCKET

- Kubota offers tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
36"	4.05	384

KX040-5

This mini-excavator delivers high performance and superior strength while minimizing noise and emissions.

KX040-5

STANDARD WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Standard Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. The Standard coupler keeps the bucket close to the dipper end, so there's no loss of breakout force.

HYDRAULIC THUMB

- Kubota Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.

HYDRAULIC BREAKER ADAPTOR

- A KXB510QA or KXB560QA hydraulic breaker can be fitted to the KX040-4 to break up rocks, concrete, and construction materials by simply attaching an adapter at the end of the arm.

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers.

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments to break up soil or frost and dig up stumps or roots.

PREMIUM WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler lets operators mechanically reverse trenching, ditching, and tilting buckets.

ADJUSTABLE HYDRAULIC THUMB

- Kubota Adjustable Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.
- Compatible with premium and standard wedge couplers.

ADJUSTABLE HYDRAULIC THUMB WIDENING KIT

- The bolt-on widening kit increases grapple strength.

INVERTED AND REVERSIBLE EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

REVERSIBLE EAR KIT

INVERTED EAR KIT

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

HYDRAULIC QUICK ATTACH COUPLER CONVERSION KIT

- Convert the Mechanical Quick Attach Coupler to hydraulic with the Hydraulic Quick Attach Coupler Conversion kit.

HYDRAULIC BREAKER ADAPTOR

- A KXB510QA or KXB560QA hydraulic breaker can be fitted to the KX040-4 to break up rocks, concrete, and construction materials by simply attaching an adaptor at the end of the arm.

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments made of Hardox® 450 steel to break up soil or frost and dig up stumps or roots.

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

REVERSIBLE TRENCHING AND DITCHING BUCKETS

- Kubota offers a range of mechanical reversible trenching and ditching buckets for digging with hooks, so chains can be attached to place objects.

TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
14"	2.26	197.8	3

REVERSIBLE DITCHING BUCKET

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
42"	8.91	315.3

TILTING DITCHING BUCKET

- Kubota offers reversible tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
42"	5.67	525

REVERSIBLE DRAINAGE BUCKET

- The "V" design of the drainage bucket speeds up operations by digging only the necessary material while reducing the number of bucket strokes. The interchangeable and replaceable teeth make maintenance easier. Our EGD buckets are entirely made of high-strength Hardox® 450 steel.

U48-5

The 4.8 ton, tight tail swing U48-5 is a versatile machine that can easily access small spaces.

U48-5

STANDARD WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Standard Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. The Standard coupler keeps the bucket close to the dipper end, so there's no loss of breakout force.

HYDRAULIC BREAKER ADAPTOR

- A KXB510QA or KXB560QA hydraulic breaker can be fitted to the U48-5 to break up rocks, concrete, and construction materials by simply attaching an adaptor at the end of the arm.

HYDRAULIC THUMB

- Kubota Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.

ROOT RAKE

- The Root Rake attachment can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers.

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

TOOTH RIPPER

- Kubota provides robust ripper attachments to break up soil or frost and dig up stumps or roots.

U48-5

PREMIUM WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler lets operators mechanically reverse trenching, ditching, and tilting buckets.

INVERTED AND REVERSIBLE EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

HYDRAULIC QUICK ATTACH COUPLER CONVERSION KIT

- Convert the Mechanical Quick Attach Coupler to hydraulic with the Hydraulic Quick Attach Coupler Conversion kit.

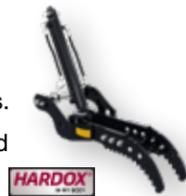

HYDRAULIC BREAKER ADAPTOR

- A KXB510QA or KXB560QA hydraulic breaker can be fitted to the U48-5 to break up rocks, concrete, and construction materials by simply attaching an adaptor at the end of the arm.

ADJUSTABLE HYDRAULIC THUMB

- Kubota Adjustable Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.
- Compatible with premium and standard wedge couplers.

ADJUSTABLE HYDRAULIC THUMB WIDENING KIT

- The bolt-on widening kit increases grapple strength

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments made of Hardox® 450 steel to break up soil or frost and dig up stumps or roots.

REVERSIBLE DRAINAGE BUCKET

- The "V" design of the drainage bucket speeds up operations by digging only the necessary material while reducing the number of bucket strokes. The interchangeable and replaceable teeth make maintenance easier. Our EGD buckets are entirely made of high-strength Hardox® 450 steel.

REVERSIBLE TRENCHING AND DITCHING BUCKETS

- Kubota offers a range of mechanical reversible trenching and ditching buckets for digging with hooks, so chains can be attached to place objects.

REVERSIBLE TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
15"	3.28	270.9	3
24"	6.08	297.2	5
30"	8.07	329.9	5

REVERSIBLE DITCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
42"	12.06	359.6
48"	14	392.9

TILTING DITCHING BUCKET

- Kubota offers reversible tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
48"	9.45	615

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

U55-5 & KX057-5

The five ton, tight tail swing U55-5 is a versatile machine that can easily access small spaces. The KX057-5 has a user-friendly digital panel and an electronically controlled fuel injection system.

U55-5 & KX057-5

STANDARD WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Standard Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. The Standard coupler keeps the bucket close to the dipper end, so there's no loss of breakout force.

HYDRAULIC THUMB

- Kubota Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.

EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers.

TRENCHING AND DITCHING BUCKETS

TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
12"	2.6	210	3
16"	3.8	265	4
18"	4.4	305	4
24"	6.3	346	5
30"	8.2	395	6
36"	8.2	410	7

DITCHING & TILT DITCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
36"	7.8	270
48"	8.7	350
42"	7.9	335
42"	7.9	600

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

TOOTH RIPPER

- Kubota provides robust ripper attachments to break up soil or frost and dig up stumps or roots.

HYDRAULIC BREAKER ADAPTOR

- A KXB510QA or KXB560QA hydraulic breaker can be fitted to the U55-5 and KX057-5 to break up rocks, concrete, and construction materials by simply attaching an adaptor at the end of the arm.

ROOT RAKE

- The Root Rake attachment can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

TILT ACTUATOR COUPLER

- Kubota offers a tilt actuator coupler with a 180-degree pivot angle (90 degrees on each side) to increase operational versatility and productivity.
- U48 compatible

U55-5 & KX057-5

PREMIUM WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler lets operators mechanically reverse trenching, ditching, and tilting buckets.

INVERTED AND REVERSIBLE EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

HYDRAULIC QUICK ATTACH COUPLER CONVERSION KIT

- Convert the Mechanical Quick Attach Coupler to hydraulic with the Hydraulic Quick Attach Coupler Conversion kit.

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

HYDRAULIC BREAKER ADAPTOR

- A KXB510QA or KXB560QA hydraulic breaker can be fitted to the U55-5 & KX057-5 to break up rocks, concrete, and construction materials by simply attaching an adaptor at the end of the arm.

ADJUSTABLE HYDRAULIC THUMB

- Kubota Adjustable Hydraulic Thumb make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.
- Compatible with premium and standard wedge couplers.

ADJUSTABLE HYDRAULIC THUMB WIDENING KIT

- The bolt-on widening kit increases grapple strength.

TILT ACTUATOR COUPLER

- Kubota offers a tilt actuator coupler with a 180-degree pivot angle (90 degrees on each side) to increase operational versatility and productivity.
- KX057 and U55 compatible.

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments made of Hardox® 450 steel to break up soil or frost and dig up stumps or roots.

REVERSIBLE TRENCHING AND DITCHING BUCKETS

Kubota offers a range of mechanical reversible trenching and ditching buckets for digging with hooks, so chains can be attached to place objects.

REVERSIBLE TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
15"	3.28	270.9	3
24"	6.08	297.2	5
30"	8.07	329.9	5

REVERSIBLE DITCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
42"	12.06	359.6
48"	14	392.9

TILTING DITCHING BUCKET

- Kubota offers tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.
- U55 and KX057 compatible.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
48"	9.45	615 lbs

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

REVERSIBLE DRAINAGE BUCKET

- The "V" design of the drainage bucket speeds up operations by digging only the necessary material while reducing the number of bucket strokes. The interchangeable and replaceable teeth make maintenance easier. Our EGD buckets are entirely made of high-strength Hardox® 450 steel.

KX080-5

This tight tail swing excavator delivers fuel economy and reduced emissions, while providing stability, power, and versatility.

KX080-5

STANDARD WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Standard Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. The Standard coupler keeps the bucket close to the dipper end, so there's no loss of breakout force.

HYDRAULIC THUMB

- Kubota Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.

HYDRAULIC BREAKER ADAPTOR

- A KXB860QA hydraulic breaker can be fitted to the KX080-4S2 to break up rocks, concrete, and construction materials by simply attaching an adapter at the end of the arm.

EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers.

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments to break up soil or frost and dig up stumps or roots.

ROOT RAKE

- The Root Rake attachment can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

TILT ACTUATOR COUPLER

- Kubota offers a tilt actuator coupler with a 180-degree pivot angle (90 degrees on each side) to increase operational versatility and productivity.
- U48 compatible

KX080-5

PREMIUM WEDGE COUPLER

MECHANICAL QUICK ATTACH COUPLER

- The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler lets operators mechanically reverse trenching, ditching, and tilting buckets.

INVERTED AND REVERSIBLE EAR KIT

- Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

ADJUSTABLE HYDRAULIC THUMB

- Kubota Adjustable Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.
- Compatible with premium and standard wedge couplers.

ADJUSTABLE HYDRAULIC THUMB WIDENING KIT

- The bolt-on widening kit increases grapple strength.

HYDRAULIC QUICK ATTACH COUPLER

- Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

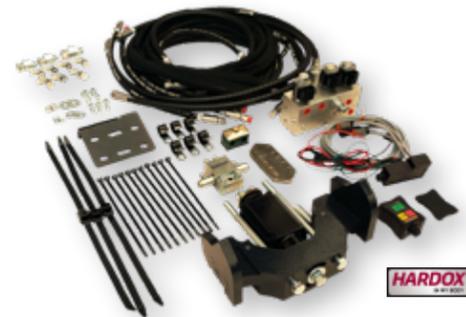

HYDRAULIC BREAKER ADAPTOR

- A KXB860QA hydraulic breaker can be fitted to the KX080-4S2 to break up rocks, concrete, and construction materials by simply attaching an adaptor at the end of the arm.

HYDRAULIC QUICK ATTACH COUPLER CONVERSION KIT

- Convert the Mechanical Quick Attach Coupler to hydraulic with the Hydraulic Quick Attach Coupler Conversion kit.

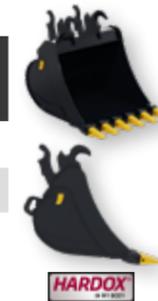

REVERSIBLE TRENCHING AND DITCHING BUCKETS

- Kubota offers mechanical, reversible trenching and ditching buckets with hooks, so chains can be attached to lift objects.

REVERSIBLE TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
18"	5	384.5	4
30"	9.43	520.7	5
36"	11.71	570	6

REVERSIBLE DITCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
48"	20.73	630.8
54"	18.45	580.9
60"	16.17	536.7

TILTING DITCHING BUCKETS

- Kubota offers reversible tilting ditching buckets with a 90-degree pivot angle (45 degrees on each side) to increase operational versatility.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)
48"	10.26	847
54"	11.61	915
60"	12.96	980

TOOTH/FROST RIPPER

- Kubota provides robust ripper attachments made of Hardox® 450 steel to break up soil or frost and dig up stumps or roots.

ROOT RAKE

- The Root Rake attachment made of Hardox® 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

TILT ACTUATOR COUPLER

- Kubota offers a tilt actuator coupler with a 180-degree pivot angle (90 degrees on each side) to increase operational versatility and productivity.
- KX080 compatible

REVERSIBLE DRAINAGE BUCKET

- The "V" design of the drainage bucket speeds up operations by digging only the necessary material while reducing the number of bucket strokes. The interchangeable and replaceable teeth make maintenance easier. Our EGD buckets are entirely made of high-strength Hardox® 450 steel.

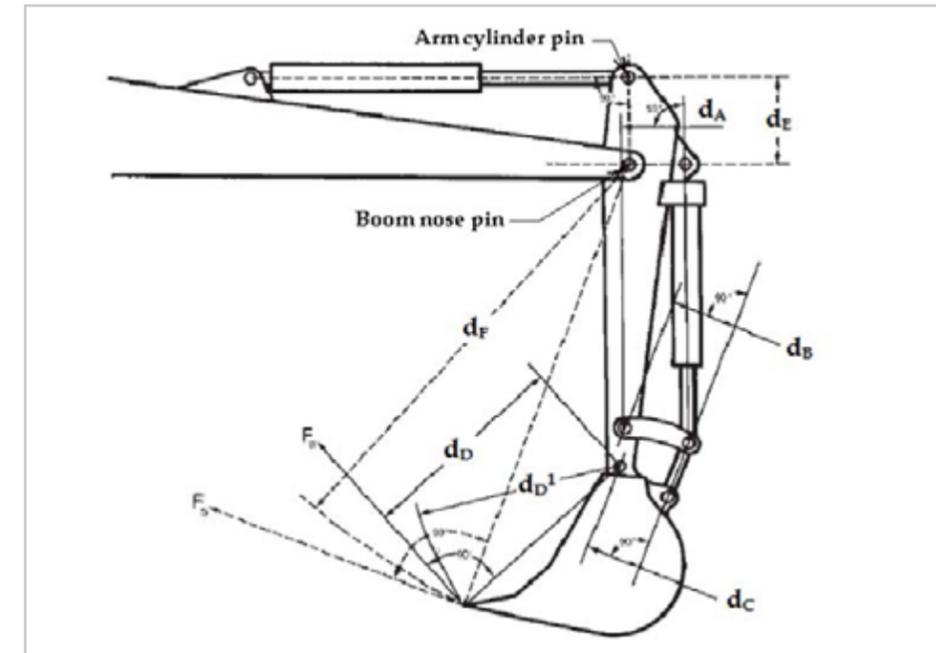

FEATURES AND BENEFITS

BREAKOUT FORCE CALCULATION

FEATURE	BENEFIT
WEDGE COUPLER	Both the Standard and Premium Coupler are a wedge design. It keeps the bucket close to the end of the arm therefore you don't lose breakout force. The Wedge coupler prevents the bucket from being sloppy over time to provide the operator a precise and efficient digging
MECHANICAL QUICK ATTACH	The manual quick attach coupler allows operator to exchange buckets quickly and efficiently. The operator does not have to leave the operator station to detach buckets or attachments.
HYDRAULIC COUPLER	Couplers are available for the operator to exchange buckets without leaving the operator station. Both Standard and Premium Coupler have a secondary lock. Standard Hydraulic Coupler is available on KX033-4 and larger excavators. Premium Hydraulic Coupler is available on KX030-4 and larger excavators.
HYDRAULIC COUPLER CONVERSION KIT	The Premium Coupler has a hydraulic coupler conversion kit. The premium mechanical quick attach can be upgraded to hydraulic coupler. This is only available on the Premium Coupler.
REVERSIBLE BUCKETS	The Premium Coupler trenching and ditching buckets allow operator to mechanically reverse bucket. The reversible buckets allow the operator to dig up close to walls or scoop away from the excavator.
TILT DITCHING BUCKET	The tilt ditching bucket allows the operators to easily grade or level an area without having to reposition their excavator as frequently, making them more efficient
RAKE	The Root Rake allows the operator for fast clean-ups, vegetation management, sifting soil/rocks and removing unwanted shrubbery and overgrowth
TOOTH / FROST RIPPER	Whether you have to break frost or dig out roots and stumps, Kubota has a tooth ripper for the job.
PREMIUM COUPLER BUCKET CATEGORIES	<p>The Premium Coupler Bucket has 4 categories:</p> <ul style="list-style-type: none"> - Category 1 – K008, U10, U17, KX018 - Category 2 – U27 - Category 3 – KX030 to KX057 - Category 4 – KX080 <p>The benefit between the categories are buckets are interchangeable. A KX030-4 bucket will fit a KX057-4. The buckets are different dimension and have different capacities however operator can use KX030-4 buckets on a KX057-4.</p>

Breakout force is dependent on power unit and bucket design. Two key factors on the bucket design are distances d_c and d_d . To increase bucket breakout force distance d_c will need to be increased or distance d_d will need to be decreased on bucket design.

$$F_B = \frac{p \times (\pi/4) D_B^2}{d_D} \left(\frac{d_A \times d_C}{d_B} \right)$$

FB = Bucket Breakout Force

p = Pressure

DB = Bucket Cylinder Diameter

All other designations are shown in diagram

POWER UNITS

SMALL FOOTPRINT, BIG RESULTS.

Tackle the toughest excavations with ease. From Ultra Compact to Mid Size, every Kubota mini-excavator starts with a powerful, dependable and clean-running Kubota engine that delivers low noise and vibration, reliable performance, exceptional fuel efficiency and emission compliance. With spacious, comfortable cabs and superior strength and stability, they're easy to operate, maneuver, and control. Find the Kubota mini-excavator that works best for you.

K008-5 SERIES

Spacious, comfortable, and more productive, yet it fits in the tightest spaces. The K008-5 sets the standard for all ultra-compact excavators.

KX018-4 SERIES

Setting the benchmark for mini-excavators, the premium Kubota KX018-4 is engineered to handle the heaviest of loads in the tightest of places. With a roomy operator's area, the Kubota KX018-4 is jam packed with features to increase productivity and comfort.

KX030-4 SERIES

When outstanding maneuverability, operational performance, operator comfort, ease of servicing, durability and reliability are the deciding factors, the KX030-4 mini-excavator is the answer.

KX033-4 SERIES

Designed for efficiency, built for stability, and created for comfort. The new KX033-4 redefines the mini-excavator.

KX040-5 SERIES

The Kubota KX040-5 combines superior strength, versatility and performance to deliver one of the most balanced mini-excavators on the market, incorporating industry leading technology.

KX057-5 SERIES

The Kubota KX057-5 Series 5.5 ton mini-excavator combines cab comfort and an impressive Stage V engine to get the job done. It also offers modern features like a new LCD screen, LED lights and a ton of work-focused options for better capability.

KX080-5 SERIES

Kubota's flagship 8-ton Power Utility Excavator combines performance with superior digging force.

U10-5 SERIES

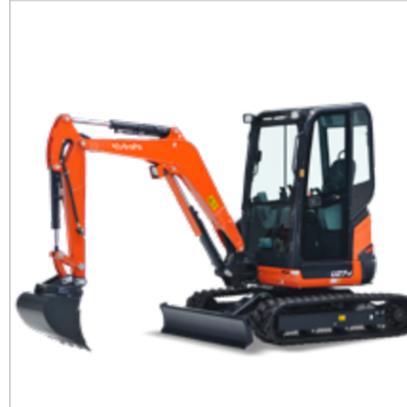

The Kubota U10-5 Series 1-ton tight tail swing excavator is built to get more done in compact spaces. Power your way through areas as tight as 29" to perform challenging landscaping tasks. Plus, it can work with plenty of attachments like trenching and ditching buckets, tooth rippers, hydraulic breakers and more.

U17-5 SERIES

The Kubota U17 is the perfect mini-excavator for tackling jobs in the tightest of spaces. Powered by Kubota 17 HP engine, renowned worldwide for their outstanding reliability, the U17 delivers on superior manoeuvrability.

U27-4 SERIES

The U27-4 is designed for challenging jobs that are not possible with larger excavators. Powerful breakout force, compact design and precision control delivers productive performance in tight working conditions.

U35-4 SERIES

With an all-new 3 tonne class cab, the Kubota U35-4 is a class leading, tight tail swing mini-excavator offering more room than ever before. Powered by a reliable Kubota 24.8 HP engine, the Kubota U35-4 combines superior power and outstanding versatility.

U55-5 SERIES

The Kubota U55-5 Series is a tight tail swing excavator that brings great versatility to any jobsite. Its well-balanced design combines great power and comfort to handle tough jobs and tougher working conditions.

POWER UNITS

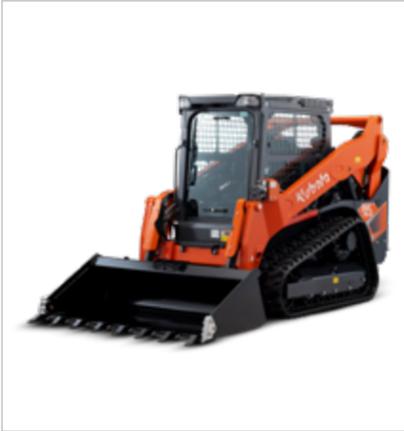

SMALL FOOTPRINT, BIG RESULTS.

SSV SERIES

Kubota skid steer loaders offer power, performance, operator comfort and versatility. They can be fitted with a variety of attachments for a range of applications.

SVL SERIES

These compact track loaders deliver best-in-class bucket breakout force and lifting capacity, outstanding stability, a wide and comfortable operator area, and much more.

R SERIES

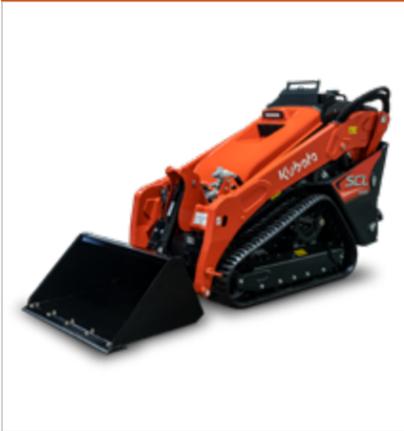

Kubota's next-generation R640 and R540 wheel loaders come with all the power and comfort you need to get the results you demand.

KC SERIES

Not only is the KC Series compact in size, it also provides all the load capacity and dump force needed to efficiently and reliably get the job done. The rugged power delivered by the Kubota diesel engine ensures reliable and efficient operation in a wide range of applications.

SCL SERIES

Meet the Kubota SCL1000: the compact stand-on track loader that stands head and shoulders above the rest. Designed for tight spaces, it's perfect for landscaping jobs like building pools, installing fences, or preparing soil.

YOUR WORK NEVER STOPS. NEITHER DOES KUBOTA.

KUBOTA CONSTRUCTION SOLUTIONS - MADE FOR CANADIANS

PLATE COMPACTOR

For construction crews, farmers, landscapers, nurseries, tree services, and rental fleets who need a tool to pick up large debris — while separating dirt and other small material.

BOX BLADES

Crafted to meet the demands of contractors and landscapers. Equip this construction-grade blade to any skid steer or track loader, and handle backfilling, grading, landscaping, levelling, and more.

TRENCHERS

Makes quick work of trenching runs for pipe, cable, electrical, or irrigation. Available in two sizes with two motor options. Great for rentals, contractors, and developers.

RIPPERS

Created for contractors and landscapers looking to rip or loosen dirt, sand, and tailings.

HYDRAULIC BREAKERS

Fit for any construction site, demolition site and beyond. Our range of breakers offer durability, reliability and power.

POST HOLE DIGGERS

Nurseries, tree farms, landscapers, contractors, construction companies, farmers and municipalities will find Kubota's post hole diggers a good fit for their heavy-duty applications.

These attachments, implements and more are available at your Kubota dealer. For model availability and pricing, please contact your local dealership.
