

CONSTRUCTION EQUIPMENT EXCAVATOR BUCKET LINEUP

KX SERIES / U SERIES

Your reputation is only as good as the work you do. And your excavator is only as good as the attachment on the end of the dipper. Trust Kubota's range of performance-matched excavator buckets and attachments to help you get the work done to your high standards.

With Kubota's complete construction solutions, you get tough, durable equipment that works as hard as you do. Everything from excavators to loaders to our range of attachments is built to help Canadian construction companies do what they do best: build Canada. It's why we've earned our own reputation for reliability, and we're proud to put that commitment to the test day in and day out.

### **CONSTRUCTION EQUIPMENT EXCAVATOR BUCKET LINE UP**

# K008-5 / U10-5

This lightweight, high performance excavator features a dynamic Kubota diesel engine and a pedal-operated boom swing.

Kuboto

# K008-5 / U10-5

#### **PIN ON BUCKETS**

Kubota offers a wide range of attachments and buckets for its machines, varying ٠ from trenching and ditching buckets to hydraulic breaker adapters.

#### TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight	Number of Teeth
8"	0.27	45	3
10"	0.35	41	3
12"	0.46	45	4
14"	0.57	56	5

14"	0.7

### K008-5 / U10-5

### **PREMIUM WEDGE COUPLER**

#### **MECHANICAL QUICK ATTACH COUPLER**

• The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler lets operators mechanically reverse trenching, ditching, and tilting buckets.

• Kubota offers a range of mechanical reversible

**REVERSIBLE TRENCHING** AND DITCHING BUCKETS

#### **INVERTED AND REVERSIBLE EAR KIT**

Ear kits modify buckets and attachments that are not offered by Kubota, so they're compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

**REVERSIBLE EAR KIT** 

**INVERTED EAR KIT** 

#### trenching and ditching buckets for digging.

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth	
12"	0.513	63	3	
18"	0.81	81	4	
24"	1.89	92.7	-	
30"	1.593	108	no teeth	

#### **ROOT RAKE**

• The Root Rake attachment made of Hardox<sup>®</sup> 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

The U17-5 zero-tail swing compact excavator has excellent stability and balance while the KX018-4 offers powerful bucket digging force and can access small spaces.

## U17-5 & KX018-4

### **PIN ON BUCKETS**

• Pin On Trenching buckets are available, while Pin On Ditching buckets are currently unavailable. There is no thumb compatibility with Pin On buckets.

#### TRENCHING BUCKETS

Width	Heaped Capacity (Cubic Feet)	Weight (lbs)	Number of Teeth
8"	0.51	54	3
10"	0.7	59	3
12"	0.89	65	4
16"	1.27	83	5
18"	1.49	90	5

#### STANDARD WEDGE COUPLER

#### MECHANICAL QUICK ATTACH COUPLER

 The Standard Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. The Standard coupler keeps the bucket close to the dipper end, so there's no loss of breakout force.

#### HYDRAULIC THUMB

• Kubota Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.

#### **HYDRAULIC BREAKER ADAPTOR**

 A KXB360QA hydraulic breaker can be fitted to the U17 and KX018-4 to break up rocks, concrete, and construction materials by simply adding an adapter to the end of the arm.

#### EAR KIT

• Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers.

#### **ROOT RAKE**

• The Root Rake attachment made of Hardox<sup>®</sup> 450 steel can be used to sift rocks and soil, remove shrubs, reduce overgrowth, and manage crops.

#### **TRENCHING AND DITCHING BUCKET**

### PREMIUM WEDGE COUPLER

#### **MECHANICAL QUICK ATTACH COUPLER**

 The Premium Wedge Mechanical Quick Attach Coupler makes bucket changes quick and efficient. This premium coupler lets operators mechanically reverse trenching, ditching, and tilting buckets.

#### **INVERTED AND REVERSIBLE EAR KIT**

• Ear kits modify buckets and attachments that are not offered by Kubota, so they are compatible with Kubota Mechanical Quick Attach Couplers. The inverted ear kit is specifically designed to fit attachments such as breakers, rake, tooth/frost ripper and vibratory compactors.

**REVERSIBLE EAR KIT** 

#### **HYDRAULIC QUICK ATTACH COUPLER**

• Kubota Hydraulic Quick Attach Couplers allow operators to hook up or remove attachments at the flip of a switch, without leaving the cab.

#### **HYDRAULIC QUICK ATTACH COUPLER CONVERSION KIT**

• Convert the Mechanical Quick Attach Coupler to hydraulic with the Hydraulic Quick Attach Coupler Conversion kit.

#### **HYDRAULIC BREAKER ADAPTOR**

• A KXB510QA or KXB560QA hydraulic breaker can be fitted to the U48-5 to break up rocks, concrete, and construction materials by simply attaching an adapter at the end of the arm.

#### **ADJUSTABLE HYDRAULIC THUMB**

- Kubota Adjustable Hydraulic Thumbs make it easy for operators to pick up and move tree branches, concrete, rocks, and other debris from work sites.
- Compatible with premium and standard • wedge couplers.

#### **ADJUSTABLE HYDRAULIC** THUMB WIDENING KIT

The bolt-on widening kit increases grapple strength

#### TOOTH/FROST RIPPER

HARDOX" Kubota provides robust ripper attachments made of Hardox<sup>®</sup> 450 steel to break up soil or frost and dig up stumps or roots.

#### **REVERSIBLE DRAINAGE BUCKET**

• The "V" design of the drainage bucket speeds up operations by digging only the necessary material while reducing the number of bucket strokes. The interchangeable and replaceable teeth make maintenance easier. Our EGD buckets are entirely made of highstrength Hardox® 450 steel.

#### **REVERSIBLE TRENCHING** AND DITCHING BUCKETS

• Kubota offers a range of mechanical reversible trenching and ditching buckets for digging with hooks, so chains can be attached to place objects.

#### **REVERSIBLE TRENCHING BUCKETS**

### **FEATURES AND BENEFITS**

# **BREAKOUT FORCE CALCULATION**

FEATURE	BENEFIT
WEDGE COUPLER	Both the Standard and Premium Coupler are a wedge design. It keeps the bucket close to the end of the arm therefore you don't lose breakout force. The Wedge coupler prevents the bucket from being sloppy over time to provide the cperator a precise and efficient digging
MECHANICAL QUICK ATTACH	The manual quick attach coupler allows operator to exchange buckets quickly and efficiently. The operator does have to leave the operator station to detach buckets or attachments.
HYDRAULIC COUPLER	Couplers are available for the operator to exchange buckets without leaving the operator station. Both Standard and Premium Coupler have a secondary lock. Standard Hydraulic Coupler is available on KX033-4 and larger excavators. Premium Hydraulic Coupler is available on KX030-4 and larger excavators.
HYDRAULIC COUPLER CONVERSION KIT	The Premium Coupler has a hydraulic coupler conversion kit. The premium mechanical quick attach can be upgraded to hydraulic coupler. This is only available on the Premium Coupler.
REVERSIBLE BUCKETS	The Premium Coupler trenching and ditching buckets allow operator to mechanically reverse bucket. The reversible buckets allows the operator to dig up close to walls or scoop away from the excavator.
TILT DITCHING BUCKET	The tilt citching bucket allows the operators to easily grade or level an area without having to reposition their excavator as frequently, making them more efficient
RAKE	The Root Rake allows the operator for fast clean-ups, vegetation management, sifting soil/rocks and removing unwanted shrubbery and overgrowth
TOOTH / FROST RIPPER	Whether you have to break frost or dig out roots and stumps, Kubota has a tooth ripper for the job.
PREMIUM COUPLER BUCKET CATEGORIES	<ul> <li>The Premium Coupler Bucket has 4 categories:</li> <li>Category 1 – K008, U10, U17, KX018</li> <li>Category 2 – U27</li> <li>Category 3 – KX030 to KX057</li> <li>Category 4 – KX080</li> </ul> The benefit between the categories are buckets are interchangable. A KX030-4 bucket will fit a KX057-4. The buckets are different dimension and have different capacities howeveroperator can use KX030-4 buckets on a KX057-4.

Breakout force is dependent on power unit and bucket design. Two key factors on the bucket design are distances dc and dd. To increase bucket breakout force distance dc will need to be increased or distance dd will need to be decreased on bucket design.

**FB** = Bucket Breakout Force **p** = Pressure **DB** = Bucket Cylinder Diameter

All other designations are shown in diagram

$$\frac{D_{\rm B}{}^2}{\left(\frac{d_{\rm A} \times d_{\rm C}}{d_{\rm B}}\right)}$$

### **POWER UNITS**

### SMALL FOOTPRINT, BIG RESULTS.

Tackle the toughest excavations with ease. From Ultra Compact to Mid Size, every Kubota mini-excavator starts with a powerful, dependable and clean-running Kubota engine that delivers low noise and vibration, reliable performance, exceptional fuel efficiency and emission compliance. With spacious, comfortable cabs and superior strength and stability, they're easy to operate, maneuver, and control. Find the Kubota mini-excavator that works best for you.

Spacious, comfortable, and more productive, yet it fits in the tightest spaces. The K008-5 sets the standard for all ultra-compact excavators.

Setting the benchmark for miniexcavators, the premium Kubota KX018-4 is engineered to handle the heaviest of loads in the tightest of places. With a roomy operator's area, the Kubota KX018-4 is jam packed with features to increase productivity and comfort.

When outstanding maneuverability, operational performance, operator comfort, ease of servicing, durability and reliability are the deciding factors, the KX030-4 mini-excavator is the answer.

Designed for efficiency, built for stability, and created for comfort. The new KX033-4 redefines the mini-excavator.

**U27-4 SERIES** 

The Kubota KX040-5 combines superior strength, versatility and performance to deliver one of the most balanced miniexcavators on the market, incorporating industry leading technology.

Kubota's flagship 8-ton Power Utility Excavator combines performance with superior digging force.

### **U10-5 SERIES**

The Kubota U10-5 Series 1-ton tight tail swing excavator is built to get more done in compact spaces. Power your way through areas as tight as 29" to perform challenging landscaping tasks. Plus, it can work with plenty of attachments like trenching and ditching buckets, tooth rippers, hydraulic breakers and more.

The Kubota U17 is the perfect miniexcavator for tackling jobs in the tightest of spaces. Powered by Kubota 17 HP engine, renowned worldwide for their outstanding reliability, the U17 delivers on superior manoeuvrability.

The U27-4 is designed for challenging jobs that are not possible with larger excavators. Powerful breakout force, compact design and precision control delivers productive performance in tight working conditions.

With an all-new 3 tonne class cab, the Kubota U35-4 is a class leading, tight tail swing mini-excavator offering more room than ever before. Powered by a reliable Kubota 24.8 HP engine, the and outstanding versatility.

#### **KX040-5 SERIES**

#### **KX057-5 SERIES**

The Kubota KX057-5 Series 5.5 ton miniexcavator combines cab comfort and an impressive Stage V engine to get the job done. It also offers modern features like a new LCD screen, LED lights and a ton of work-focused options for better capability.

#### **U35-4 SERIES**

Kubota U35-4 combines superior power

#### **U55-5 SERIES**

The Kubota U55-5 Series is a tight tail swing excavator that brings great versatility to any jobsite. Its wellbalanced design combines great power and comfort to handle tough jobs and tougher working conditions.

### **POWER UNITS**

### SMALL FOOTPRINT, BIG RESULTS.

Kubota skid steer loaders offer power, performance, operator comfort and versatility. They can be fitted with a variety of attachments for a range of applications.

and much more.

Kubota's next-generation R640 and R540 wheel loaders come with all the power and comfort you need to get the results you demand

Not only is the KC Series compact in size, it also provides all the load capacity and dump force needed to efficiently and reliably get the job done. The rugged power delivered by the Kubota diesel engine ensures reliable and efficient operation in a wide range of applications.

Meet the Kubota SCL1000: the compact stand-on track loader that stands head and shoulders above the rest. Designed for tight spaces, it's perfect for landscaping jobs like building pools, installing fences, or preparing soil.

### YOUR WORK NEVER STOPS. NEITHER DOES KUBOTA.

### **KUBOTA CONSTRUCTION SOLUTIONS - MADE FOR CANADIANS**

#### PLATE COMPACTOR

For construction crews, farmers, landscapers, nurseries, tree services, and rental fleets who need a tool to pick up large debris while separating dirt and other small material.

Crafted to meet the demands of contractors and landscapers. Equip this construction-grade blade to any skid steer or track loader, and handle backfilling, grading, landscaping, levelling, and more.

#### RIPPERS

Created for contractors and landscapers looking to rip or loosen dirt, sand, and tailings.

Fit for any construction site, demolition site and beyond. Our range of breakers offer durability, reliability and power.

These attachments, implements and more are available at your Kubota dealer. For model availability and pricing, please contact your local dealership.

#### **BOX BLADES**

#### TRENCHERS

Makes quick work of trenching runs for pipe, cable, electrical, or irrigation. Available in two sizes with two motor options. Great for rentals, contractors, and developers.

#### HYDRAULIC BREAKERS

#### **POST HOLE DIGGERS**

Nurseries, tree farms, landscapers, contractors, construction companies, farmers and municipalities will find Kubota's post hole diggers a good fit for their heavy-duty applications.
