

Gale Research Complete

Your Comprehensive Solution to
Campus-Wide Research Needs

A single academic resource from Gale unites millions of scholarly journals, eBooks, primary sources, news sources, and reference content to power innovative instruction and independent research across your campus.

Support Rising Research Demands by Simplifying Access

The Challenge

Academic libraries face mounting pressures to address program expansions, growing enrollment, and complex research needs—often without additional funding or staffing.

The Solution

Gale Research Complete helps libraries meet evolving expectations by delivering multidisciplinary academic content through one unified subscription.

What Can Your Library Achieve with Gale Research Complete?

- **Expand access to trusted** academic resources across departments.
- **Fuel successful research** outcomes with faster source identification.
- **Deliver strong collection** value within predictable budgets.

“We’re getting fifty databases for the price of four—that was especially exciting for a small school like ours. We don’t have a million-dollar budget, and we were suddenly able to give our students access to so much more.”

— Susanna Smith, Assistant Professor of Library and Information Science at Georgia Highlands College

Why Libraries Trust Gale Research Complete

Your library depends on intuitive and user-friendly research platforms. With *Gale Research Complete*, students and faculty receive a reliable foundation for credible research across courses and programs.

Key Advantages

Student-friendly content and features

Students build credible academic work using peer-reviewed journals, primary sources, news, DRM-free eBooks, and study tools.

Designed for coursework integration

Faculty can embed trusted content directly into courses and assignments through LMS integration, bringing Gale resources to the forefront of students' learning experience.

Strength in high-use academic areas

High-demand disciplines benefit from extensive coverage across literature, business, news, and historical archives.

Discovery-driven context

Users uncover new perspectives through Gale's InterLink technology, which connects articles to related reference and eBook content.

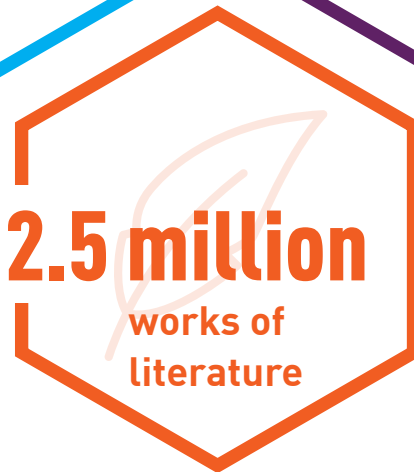

"Students always have trouble locating relevant, credible sources for their research. We're confident in Gale's ability to deliver that through GRC [Gale Research Complete]."

— Kirk Russell, Technical Services Librarian at Bakersfield College

Supporting Stronger Student Research— from First Search to Final Citation

Many students struggle to transition from a general topic to credible academic sources. *Gale Research Complete* streamlines discovery, helping students efficiently refine and apply research, while reducing repeated support needs.

1

Start with one search across all content

Students search across journals, reference works, news, and primary sources at once, eliminating guesswork about where to begin.

2

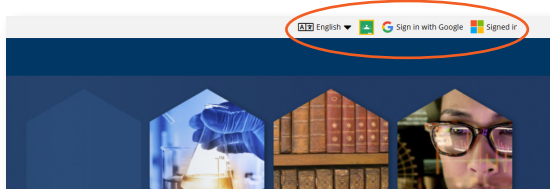

Quickly narrow results

Advanced filters guide students toward credible academic sources faster, reducing time spent sorting through irrelevant material.

3

Discover topics and connections

Topic Finder reveals themes and related perspectives, helping students develop stronger research questions and arguments.

4

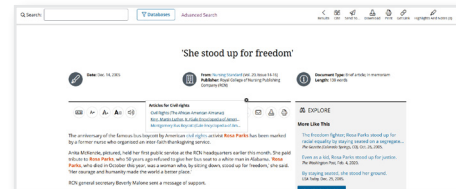

Save, share, and collaborate

Integrated Microsoft 365 and Google tools allow students to save, highlight, and share research easily across devices.

5

Cite and export with confidence

Built-in citation tools help students format references correctly, reducing common errors.

Designed with Accessibility in Mind

- Assist multilingual learners with translation and audio tools
- Give students the freedom to research anywhere with mobile-friendly access
- Support diverse learning needs with accessibility-aligned features
- Enable embedding of resources directly into coursework through LMS integration

Expand Your Library's Impact Across Campus

Your library plays a central role in guiding student success, faculty research, and institutional priorities. *Gale Research Complete* broadens access to trusted academic resources while simplifying collection management across campus.

Partnership Beyond the Platform

Every subscription delivers resources to help libraries boost awareness and usage.

Gale is your library's partner in accelerating student, faculty, and researcher success.

“GRC [Gale Research Complete] was the only resource I looked at that seemed to be designed with students at the center of every decision.”

— Luke Owens, Senior Manager,
Library and Instructional Support at Coconino
Community College
