In *The Half-Skinned Steer*, an elderly fool drives west to the range he grew up on for his brother's funeral and dies a mile from home. In the masterpiece, *Brokeback Mountain*, the difficult affair between two cowboys survives everything but the world's intolerance. These stories of hard times, and unlikely elation, juxtapose Wyoming's traditional character and attitudes with the more benign values of the new west.

The Rise and Fall of the Artificial State demonstrates how technology has corroded global democracy, creating a new form of AI government where AI will recommend the course of action to humans in place of human-run legislatures. Especially sobering is that the Artificial State has come at the expense of wildlife habitat and biodiversity. Deliberately alarming, *The Rise and Fall of the Artificial State* is a wake-up call which demonstrates that nothing about the Artificial State was inevitable. WHERE THE LONG TRAIL ENDS

Rod Miller

Joaquin Ignacio MacDonald is a Texas cowboy descended from a white plantation owner, Black slaves, and a Mexican mother. The only thing he owns from his distant white ancestor is his surname and a book of poetry passed down through the generations. The poetry leads to friendship with Elspeth, which costs him his job at a ranch owned by a Scottish syndicate and managed by her father, Duncan Cameron. Crippled in a horse wreck at his new job, Joaquin turns to cooking and runs the chuckwagon on a cattle drive up the Chisholm Trail, leading to renewed conflict with Cameron. Thrown together by a bullet wound, the two men tussle over a troublesome past and uncertain future.

PRIMEVAL AND OTHER TIMES

A NOVEL

Olga Tokarczuk, Antonia Lloyd-Jones

For the denizens of Primeval, the world beyond its fields and forests is but a dream. The outcast Cornspike raises her daughter among the creatures and spirits of the forest. The squire Popielski loses his faith and becomes obsessed with a game where progress is attained only by dreaming the right kind of dream. Nonhuman beings — trees and mushrooms and archangels — have their Times too, as do inanimate objects, which may be "more important for the world than people." Yet their stories — or Times — are buffeted by the feral history of the twentieth century, after war carries Michał the miller away from his family in 1914. Bloodshed, betrayal, and the dramas of daily life mark the birth, life, and decline of Primeval's little world and Times, making us consider afresh the stories by which we comprehend our own.

THE ROTHSCHILDS

THE UNTOLD FAMILY HISTORY

Harry Freedman

The Rothschild name has long been synonymous with wealth and privilege, but as Jews the family has also been dogged by prejudice and hatred. Antisemitism followed them from their earliest beginnings in the oppressive Jewish ghetto of Frankfurt to the lofty summits of high finance, art, and culture. In *The Rothschilds*, Harry Freedman takes us from the genesis of the Rothschild international banking empire to the impact of individual Rothschilds in multiple fields over the past 250 years. Spanning war, politics and the industrial revolution, art, architecture and interior design, zoology, smuggling, counter-terrorism and the ongoing struggle against entrenched anti-Jewish bigotry, he reveals a truly new story of a very old family. *The Rothschilds* makes a great contribution not only to Jewish history but also our understanding of a dynasty that has shaped our world.
