Luke Daniels receives a surprise visit from the head of a former-CIA operation named Sommerhaus — a failed attempt to assemble an espionage network within the Ukraine on the eve of the Russian invasion. During this mission, his friend, CIA case officer John Vince, was captured by Russian operatives and supposedly executed. But Vince is alive, in failing health, locked behind the walls of Russia's Solovetsky Island prison, and has a message for Luke. Just as Luke manages to extract his friend from prison, Vince dies. His final words plunge Luke into a hunt for the legendary library of the first Tsar of All Russia, Ivan the Terrible. Within that priceless collection of rare manuscripts is the key to unraveling a modern-day cipher and stopping a secret Soviet satellite program that still exists. But Luke is not the only one on the trail. Luke's mission is clear. Find the lost library, solve the puzzle, and prevent Red Star falling.

WHAT IT TAKES TO HEAL

HOW TRANSFORMING OURSELVES CAN CHANGE THE WORLD

Prentis Hemphill

What It Takes to Heal argues that the principles of embodiment — the recognition of our body's sensations and habits, and the beliefs that inform them — are critical to lasting healing and change. Hemphill,

an expert embodiment practitioner, therapist, and activist who has partnered with Brené Brown, Tarana Burke, and Esther Perel, among others, shows us that we don't have to carry our emotional burdens alone. Hemphill demonstrates a future in which healing is done in community, weaving together stories from their own experience as a trauma survivor with clinical accounts and lessons learned from their time as a social movement architect.
