HOURS

Monday - Friday
10am - 6:30pm Eastern
7am - 3:30pm Pacific

PLACING AN ORDER

- Orders can be received by fax, mail, email, or sent EDI with established partners.
- Orders for heat sealed powder coat painted products must specify a color to be considered complete and entered for production.
- Order acknowledgments will be sent within 24 hours to confirm details of order, i.e. products ordered, pricing and estimated ship date.
- All changes to purchase orders must be confirmed by hard copy.

TERMS OF SALE

- Net 30 days for established customers.
- Visa, MasterCard, American Express, ACH and wire transfers accepted.
- C.O.D. shipments are not available.

WARRANTIES

- 12-year limited warranty on parts manufactured by Harloff.
- 1-year limited warranty on parts and hardware purchased by Harloff.
- Please contact customer service for additional details.

HARLOFF INNOVATING STORAGE FOR CARE is now part of CAPSAHEALTHCARE

On June 4th, 2026 The Harloff Company was acquired by Capsa Healthcare.

This will mean continued access to the medical storage products and support you count on, now backed by Capsa's broader resources and manufacturing scale, with an expanding portfolio to follow. For more details, please visit the Harloff website.

QUICK SHIP OPTIONS

Quick Ship products are a selection of our most popular models that usually ship within a week or less so you can get back to work.

ABOUT HARLOFF

Company History and Product Offerings

The Harloff Company was founded in 1951 by Norman Harloff with the creation of the first Hotel Maid Cart.

In 1987 Harloff launched its healthcare line. Designed from the ground up, this line offered many innovative features that have now become industry standards, such as ball-bearing drawer slides and easily customized drawer configurations.

THE HARLOFF VALUE PROPOSITION

- *Comprehensive and Flexible Product lines – Multiple styles of standard product for most commonly selected requirements with a broad range of standard accessories*
- *Long experience in meeting custom requirements – In-house engineering, design flexibility and fabrication skill in multiple materials*
- *Industry reputation for quality, convenience, on-time delivery, strong sales support and service with a single point of contact – Sales, customer service and manufacturing are all housed in a single US-based facility*

We now offer a comprehensive array of Large Storage Cabinets, Crash Carts, Anesthesia Carts, Isolation Carts, Medication Carts, Vaccine Storage Carts and Narcotics Cabinets for a variety of hospitals, nursing homes, clinics, schools, surgery centers, pharmacies, rehab centers and various other medical facilities. We also produce a diverse selection of specialty clinical products that include MRI-Safe Anesthesia and Emergency Carts, Stainless Steel Casting Carts and Malignant Hyperthermia Carts.

Our most recent product additions include SureDry scope cabinets with optional Dri-Scope Aid®, the industry leading internal lumen drying system, M-Series and A-series carts and our redesigned MedStor Max medical storage cabinet line

With our vast selection of standard carts/cabinets and accessories, you will be sure to find the cart you want with the configuration you need. If you can't find exactly what your facility requires within our current product offering, contact our experienced design and engineering team so they can build the ideal custom solution to meet all your storage, delivery and security needs!

Manufacturing excellence

We offer the widest variety of medication and health care carts in the industry. We are pleased to be recognized for providing the highest quality medical carts & cabinets found within today's industry as the quality of our products is matched only by our commitment to outstanding Customer Service. At Harloff, our goal is to exceed the highest expectations of every customer, every day.

Made in the USA

Harloff products are proudly manufactured in Colorado Springs, Colorado. Our principal sales network utilizes the top national and international distributors within the industry as well as independent sales representatives who have a wealth of knowledge about everything Harloff has to offer.

Worldwide Distribution

The Harloff story starts with a 70 year history of quality products, service and delivery. Harloff remains committed to top drawer, U.S. made quality, world class service, exceptional on-time delivery and investment in research and development. Our team is committed to maintaining and growing this legacy.

SMALL AND LARGE SCOPE DRYING **SOLUTIONS FOR YOUR FACILITY!**

Harloff cabinets are used for the storage and drying of EGD scopes, colonocopes, EUS scopes, ERCP scope, TEE probes, bronchoscopes, cystoscopes and ENT scopes.

ENDOSCOPY **CABINETS**

Three drying cabinet options to choose from!

SUREDRY ENDOSCOPE DRYING CABINET

Harloff's SureDry Scope Cabinet includes the industry best Positive Pressure HEPA Filtered Drying system. Inside air is replaced inside the cabinet up to four times per minute. Meets or exceeds AORN, SGNA and AAMI guidelines (including ANSI/AAMI ST91:2021 updated guidelines.

DRI-SCOPE AID® EQUIPPED CABINET

Harloff's SureDry + Dri-Scope Aid® is the industry leading internal lumen drying system. Endoscope channels are dried with the Dri-Scope Aid® internal lumen drying system which uses simple-to-attach scope connectors to provide constant flow, consistent pressure and repeatable results.

"SMART" SCOPE TRACKING SYSTEM WITH DRI-SCOPE AID®

We combined SureDry positive pressure with the next generation Dri-Scope Aid® Tracker System, creating our first "smart" scope cabinet. The integrated color touchscreen digitally displays scope status, user access, check-ins/outs, displays processing times and provides customizable drying options with unique settings for each scope. Also includes a customizable hang time monitor with an intelligent automated scheduler and downloadable export files for scope management and user lists.

SureDry SCOPE CABINETS

ENDOSCOPE DRYING

OUR FAMILY OF SCOPE DRYING CABINETS CAN FULFILL THE REQUIREMENTS OF ANY FACILITY!

CHOICE OF 4 WIDTHS

Harloff scope cabinets come in several widths; choose the size you want based upon the volume of scopes you plan to use, your available square footage and how much interior cabinet space you want for scopes.

24" WIDTH

8 scope, 6 scope or custom setup

Our most compact model, this positive pressure scope cabinet features a single door, two intake fans and one exhaust fan. For configurations that use Dri-Scope Aid®, this cabinet uses the smaller 5-scope manifolds.

30" WIDTH

10 scope, 5 scope or custom setup

This slim profile, double door scope cabinet is ideal for facilities with fewer scopes or with limited available floor space. For configurations that use Dri-Scope Aid®, this cabinet uses the smaller 5-scope manifolds.

36" WIDTH

14, 12 or 8 scope or custom setup

Our standard scope cabinet size is able to accommodate multiple capacities and multiple configurations of different scope types. For customers who purchase the internal lumen drying package, it fits the standard 8-scope Dri-Scope Aid® manifold. Meets or exceeds AORN, SGNA and ANSI/AAMI ST91:2021 updated guidelines.

44" WIDTH

16 scope, 8 scope or custom setup

Perfect for busy units with high traffic and frequent scope changeouts, this high volume cabinet has a wider profile and more spacing between scope holders for easy access. This is the industry's most spacious scope cabinet, allowing for easy hanging and retrieval of scopes.

Need it larger? We build 60" wide cabinets too!

SC80WTDRDP-10-DSS2305

All the features of the standard pass through scope cabinet but also comes equipped with Dri-Scope Aid®, the industry best lumen drying system. An optional customizable hang time monitor is also available.

SureDry SCOPE CABINETS

ENDOSCOPE DRYING

PASS THROUGH CABINET SC80WTDRDP-10

This double sided pass through cabinet allows access between both procedure and reprocessing rooms. This in-wall system has multiple available locking options and can hold up to 10 scopes with our secure adjustable mounting system. Each cabinet comes with 4 intake and 2 exhaust fans and tempered glass doors, one on each side. Other features include easy to clean removable dual drip trays, a HEPA Filter system that can be replaced without the removal of scopes and SureDry's positive pressure fully redundant fan system.

FEATURES & BENEFITS OF DRI-SCOPE AID®

- *Significantly improves drying of internal channels*
- *HEPA filter offers a 99.97% retention rate of particles that have a size> 0.3µm*
- *Provides constant air delivery through all internal endoscope channels*
- *Short drying cycle for quick turn-around time*
- *Continuous venting cycle for overnight storage*
- *Automatic high-pressure shutoff*
- *Fulfills forced air recommendations*
- *Self-adjusting high-pressure regulation*

EASE OF OPERATION

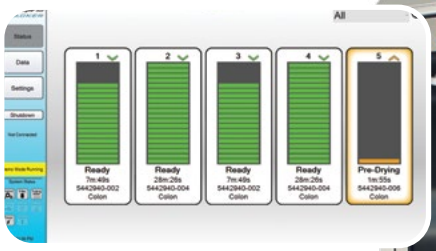

- *Hands-free operation with visual display of purging times*
- *Simple to attach individual scope connectors*
- *Works with all major endoscope brands*
- *Disposable connectors to meet SGNA and AORN guidelines*
- *Dries 1 to 16 endoscopes*

SureDry SCOPE CABINETS with Dri-Scope Aid® ENDOSCOPE DRYING

SCSS8036TD-T3316D

SMART SCOPE TRACKING CABINET

This next generation "Tracker" scope tracking system from Dri-Scope Aid® adds yet another component to your SureDry scope cabinet, the ability to monitor the drying process and to display staff check-ins/check-outs and other scope functions using a built in touch tablet configured to your scope inventory and ready to run immediately on cabinet delivery. This flexible endoscope tracking system helps to meet or exceed AORN, SGNA and AAMI guidelines (including ANSI/AAMI ST91:2021 updated guidelines) when included as part of your endoscope reprocessing workflow.

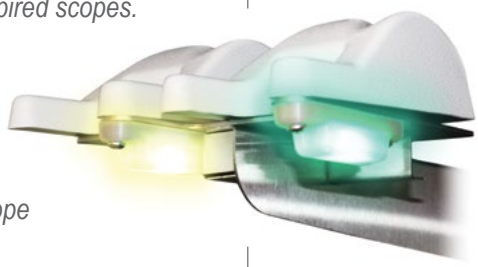

SC8044TD-T3316D

- *Customizable settings and drying options unique to each endoscope*
- *Intelligent automated scheduler*
- *Maintains records of scope drying events, user access, check-ins and check-outs*
- *Screen access by authorized personnel is completed by passcode*
- *Adjustable timing options*
- *At a glance, display shows scope inventory and reprocessing status*
- *Downloadable export files available for endoscope management, user lists and more*
- *Customizable Hang Time Monitor*

SC8030TD-T2310D

INDICATOR LED BUILT-IN

Upgrade your smart scope tracking cabinet with this built-in that provides tracking of endoscopes throughout the drying process, virtually eliminating the possibility of accidentally using expired scopes.

- *This upgrade is factory install only and is designed for Dri-Scope Aid® equipped Tracker scope cabinets from Harloff*
- ***Simplifies scope placement and improves the hanging and retrieval of endoscopes by your staff by up to 25%***
- *The scope holder's proprietary LED system syncs the LED color with the Tracker tablet on the door's touchpad*
- *Reduces human error and scope identification mistakes*
- *Improves the efficiency and accelerates the speed of the endoscopy process*
- *Virtually eliminates the possibility of using expired scopes*
- *Easily ID scopes without having to check serial numbers*
- *Colors display in Yellow, Red, Green, Orange, Blue, Cyan or Purple for each individual scope holder*

WHAT DO RECENT ANSI/AAMI ST91:2021 AND ASGE STUDIES REVEAL ABOUT THE **BENEFITS OF USING DRI-SCOPE AID®**

WHAT DO NEWLY RELEASED GUIDELINES TELL US ABOUT THE DRYING AND STORAGE OF REPROCESSED ENDOSCOPES?

Both the U.S. Multi-Society Task Force and the American National Standards Institute (ANSI)/Association for the Advancement of Medical Instrumentation (AAMI) reference the Barakat 2019 study[1], in which the Dri-Scope Aid® system was used to successfully purge moisture from endoscope channels. The studies state, "Barakat et al. [78] demonstrated only a single water droplet in 69 endoscope cycles following ten minutes of 'automated' forced filtered air purge of all channels, compared to modest numbers of persistent droplets after five minutes and extensive fluid after manual targeting of channels with a forced air gun." SureDry scope cabinets from Harloff, paired with the Dri-Scope Aid lumen drying system, provide optimal drying of both the exterior and interior of endoscopes for quick, efficient drying of all endoscope types.

1. Barakat MT, Huang RJ, Banerjee S. Comparison of automated and manual drying in the elimination of residual endoscope working channel fluid after reprocessing. GIE Journal. 89(1):124-132.e2, 2019

SureDry SCOPE CABINETS

ENDOSCOPE DRYING

WHY IS A POSITIVE PRESSURE SYSTEM IMPORTANT?

The unique design of the SureDry Scope Cabinet includes both top fans for intake and lower fans for exhaust. This push/pull design creates a vortex of air that flows through the cabinet ensuring maximum drying efficiency.

INTAKE: *Intake Airflow comes through separate HEPA filters (which remove 99.7% of particulates, .03 Microns) driven by fully redundant fans producing a positive pressure vortex from the top of the cabinet. This creates an even circular motion of airflow over all scopes.*

EXHAUST: *The lower exhaust fans pull the circulated air out of the cabinet ensuring the flow of air is consistent from top to bottom, which provides a complete drying system for the entire scope.This push/ pull multiple fan system - an industry first - ensures not only a positive pressure system to meet all major guidelines but also ensures forced drying and equal drying levels across the full length of each and every scope.*

ST91:2021

SureDry Cabinets are a Smart Choice to Meet and Exceed ANSI/AAMI ST91:2021 and Other Guidelines

The references below are taken from these guidelines. Channel drying available only with the addition of the Dri-Scope Aid® system.

☑ **Scopes Stored Vertically**	**11.2.1** "stored vertically, the insertion tube should be as straight as possible, with the distal tip hanging freely." **11.2.1** "When flexible and semi-rigid endoscopes are hung in the vertical position, coiling or kinking is prevented."
☑ **Hanging Freely Without Coiling**	**11.2.2** "should be stored in a cabinet that is of sufficient height, width, and depth to allow flexible endoscopes to hang vertically without coiling and without any components touching the bottom of the cabinet."
☑ **Channel Drying + Forced Air**	**8.2.5.1** "Flexible endoscopes with channels should be dried for a minimum of 10-minutes with pressure-regulated forced instrument air or a minimum of HEPA-filtered air." | **8.2.5.2** Use pressure-regulated instrument air or HEPA-filtered air to dry the channels in accordance with the manufacturer's written IFU.
☑ **HEPA Filtered Positive Pressure**	**11.2.2.2** Cabinets that enable circulation of HEPA-filtered or instrument air through the cabinet at… positive pressure. **NOTE:** SureDry cabinets feature an industry leading 3 intake and 2 exhaust fan system.
☑ **Easy Scope Identification***	**11.2.3** "Protocols should be developed to help ensure that users can readily identify an endoscope that has been processed and is ready for patient use." * *Available with Tracker-equipped SureDry scope cabinets*
☑ **Single-Use Connectors**	Use of single use connectors ensures no cross-contamination as well as simplifies staff efficiency.
☑ **Clinical Documentation**	**ASGE** "Drying the interior of an endoscope should use a sufficiently prolonged flow of medical air through all accessible channels, ideally simultaneously and for at least 10 minutes, for greatest efficiency." *Per the study, "Multisociety guideline on reprocessing flexible GI endoscopes: 2016 update."* **NOTE:** SureDry cabinets are the only clinically proven vertical drying cabinet.

SureDry SCOPE CABINETS ENDOSCOPE DRYING

SC9436DRDP

CUSTOM CABINET OPTIONS

One of the many strengths of Harloff is our unparalleled ability to create custom solutions. Examples include extra tall cabinets like the SC9436DRDP which are for longer endoscopes, and feature an extended base. Our double wide SC8060DRDP-2DSS2310 provides an even higher endoscope capacity and our mobile kit allows any scope cabinet to become mobile rather than stationary. Mobile cabinets permit usage in multiple areas of your facility and also can be transported to other areas for cleaning.

SC8060DRDP-2DSS2310

SC8030-MOBILEKIT

Any size of scope cabinet can be converted into a mobile version with the addition of this mobile kit. Includes four 3" casters plus a steel mounting plate. Available in stainless steel or heat sealed powder coat steel. Factory install only.

SLIMLINE CABINETS

Standard SureDry cabinets have a 24" cabinet depth, but some facilities require the slimmest, most space saving options available. Our Slimline scope cabinet has a 18" cabinet depth, ideal for hallways and other tight spots.

Another space saver is our SC5430DRDP 3/4 height scope cabinet, available in all three cabinet widths for facilities with shorter ceiling heights.

SC8036TKDP-14

This cabinet has the same SureDry features as Harloff's other models, but features a key locking roll top tambour door that recesses into the cabinet ceiling rather than a glass or solid door. An ergonomic handle is built into the middle of the door so that opening and closing it requires no stooping and minimal effort.

ENT/BRONCHOSCOPE DRYING

SCW2430DRDP

- *HEPA filtered Positive Pressure with two High Volume intake fans and one exhaust fan*
- *Customizable scope holders to fit most common scope types*
- *Holds up to 6 ENT Scopes*
- *Glass paneled doors for easy viewing of scope inventory*
- *Adjustable timer (10 to 180 mins) for fan operation.*
- *Fans activated automatically upon closing of doors*
- *Industry best 12 year limited manufacturer's warranty*
- *Ideal for non-connected or removable video/light processor cord*
- *Cabinet dimensions: 30"H x 24"W x 12"D*

An optional LED-UV disinfection strip helps to keep scopes clean!

These new wall mount bronchoscope & ENT scope cabinets allow for small scopes to be dried in the same safe, efficient manner as scopes in other parts of the facility.

SCW2448DRDP

- *HEPA filtered Positive Pressure with two High Volume intake fans and one exhaust fan*
- *Customizable scope holders to fit most common scope types*
- *Holds up to 4 bronchoscopes*
- *Glass paneled doors for easy viewing of scope inventory*
- *Adjustable timer (10 to 180 mins) for fan operation.*
- *Fans activated automatically upon closing of doors*
- *Industry best 12 year limited manufacturer warranty*
- *Cabinet dimensions: 48"H x 24"W x 12.75"D*

DILATOR DRYING CARTS

DSC24TK-DP

Vertically hang up to 24 dilators for channel drying, exterior drying and storage. Short cabinets can hold dilators up to 28" long while tall cabinets can hold dilators up to 39" in length.

- *Positive pressure fan system dries Bougie dilators, Savary-Gilliard® dilators & other wire guided dilators*
- *Includes 4 pull out slides that each hold six dilators for easy access to similar sized dilators at one time*
- *Replaceable HEPA Filter removes 99.7% of particulates, .03 Microns*
- *Fan run time (from 10-180 minutes) is fully adjustable and activated each time the cabinet door is closed*
- *Each dilator storage cart can hold up to 24 individual dilators, varying in size from 5mm (15 French) to 20mm (60 French) & up to 28" in length*
- *Choice of lock options: keyless, latch lock, standard key lock or standard electronic lock*
- *Durable, scratch resistant heat sealed powder coat finish*

DSC-BLNHLDR-5L

Add an esophageal dilation balloon holder accessory to hold all of the packaging needed for your GI practice.

DSC24SK-DP

All dilator carts available without a drying package

An uninterruptible power supply system prevents drying cycle interruptions when transporting carts. Two capacities are available.

Order your dilator cart with an optional glass door like this one!

DSC36TGK-DP

This high volume cabinet is recommended for facilities and clinics with a large quantity of dilators - typically more than 20 - as it can store up to 36 Bougie or Savary-Gilliard® dilators.

DSC36TK-DP

SCOPE DRYING STORAGE/TRANSPORT

STC-SH10L

STC-SH8L

Designed to securely store and safely transport scope trays. Carts can be color coded to signify clean, patient ready scopes versus soiled scopes that need reprocessing. Each cart securely holds most popular brands of scope trays.

STC-SH6L

- *Sturdy, steel construction*
- *Secure scope tray holding system with individual trays held in place by zero-slide tray retainers*
- *Holds multiple brands of scope transport trays*
- *Available space on the cart top for additional supplies or equipment*
- *Top quality 5" quiet rolling casters - 1 steering caster & 2 braking casters*
- *Durable scratch resistant hard baked powder coat finish*
- *Lightweight and simple to clean*
- *Cart is delivered fully assembled*
- *Latex free*
- *Scope trays not included*

CUSTOMIZE YOUR CART WITH **A VARIETY OF SCOPE TRANSIT SYSTEM OPTIONS!**

Breakaway Lock Bar:

- *Secure your scope trays with a breakaway lock bar*
- *Comes with a pack of 100 breakaway seals*
- *Enhances identification of trays allowing you to more easily keep track of which scope trays are clean or soiled*
- *Each breakaway seal has a unique identifying number for tracking which staff is responsible for tray reprocessing*
- *Helps prevent tampering by restricting tray access*
- *Comes in a heat sealed powder coat steel finish in over twenty color choices*

STC-SH4L

Change the appearance, expand the functionality and broaden the usefulness of your Harloff cart by purchasing optional built-in add-on products.

Color Coded Seals:

- *Breakaway seals come in a default yellow, but can be purchased in several color options*
- *Color code your seals: green for clean, red for soiled or any other color options to match your procedures*
- *Adds an additional identifying feature*

Color Coded Cart Bodies:

- *Color code your cart body: green for clean, red for soiled or any other color options to match your procedures*
- *Color code to specific reprocessing areas*
- *Our durable heat sealed powder coat aluminum finish and open design is easy to clean*

10 REASONS TO CHOOSE HARLOFF FOR SCOPE CABINETS

A Smart Choice to Meet & Exceed Current Joint Commission, SGNA, AORN and AAMI Guidelines.

1

Industry Best Positive Pressure HEPA Filtered Drying System. Designed to add Dri-Scope Aid® now or later with easy "Plug & Play installation.

2

LED Lighting Option

Brighten your cabinet and more easily inspect scopes with fully dimmable optional overhead LED lighting which triggers on/off when you open and close the door.

3

Disposable Connectors

Save time and ensure compliance! Use single-use connectors for all internal channels of the endoscope. Part of the Dri-Scope Aid® package.

4

Hooks and Holders for Specialized Scopes

Major brands to include ***Fuji, Olympus, Pentax, Karl Storz and others.***

5

12 Year Warranty

Our Manufacturer's Warranty is Unmatched in the industry. We build our cabinets to last and we stand behind them.

6

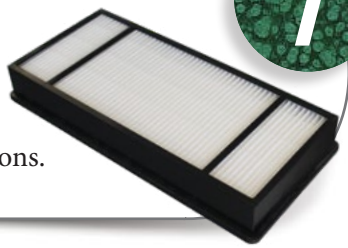

Proudly Made in the USA

Harloff products are proudly ***Designed, Engineered and Manufactured in the United States*** at our Colorado Springs, CO facility.

7

Easy Access to HEPA Filters

Change HEPA filters ***without opening the cabinet.*** Save time and ensure no cycle interruptions.

8

Keyed or Keyless Locks

9

Optional LED Indicator Upgrade

Provides scope-specific lighting to your tracking cabinet whenever a scope is hung, retrieved, or starts/completes a drying cycle.

10

Superior Color Choices

Over 20 Colors to choose from. Cabinets have a heat sealed powder coat finish inside and out. View color options online at www.harloff.com/finish-options/

VERSATILE, SECURE, MOBILE OR FIXED **MEDICAL STORAGE SOLUTIONS**

These storage cabinets are designed around the most innovative modular tray system on the market and feature your choice of door style for security and ease of access.

MEDSTOR MAX **CABINETS**

WHY CHOOSE MEDSTOR MAX FOR YOUR STORAGE SOLUTIONS?

- ***Offers up to 30% more tray and basket storage capacity when compared with leading competitors products.***
- ***Adjustable dividers have a unique clip-in design to stay in place when heavily loaded.***
- ***Unique design of side panels, combined with pull-out stoppers, allows trays to be viewed at an angle without falling out of the cart.***
- ***Available in multiple locking options on glass door models – key lock, E-lock & keyless entry with audit trail.***

Engineered and Manufactured in the U.S.

MSSM82-00GK

MEDSTOR MAX®

MEDICAL STORAGE

MSPM82-00GK (2-WIDE)

MSPM83-00TK (3-WIDE)

Tambour door models like the one above use a handled door front that rolls directly into the cabinet roof. They are useful for situations where the door needs to remain open all day long, but they are limited to a key lock and cannot incorporate LED lighting.

MedStor Max glass door storage cabinets come with the following standard features:

- *Unmatched quality of construction — built to last using professional-grade design and manufacturing for medical-grade applications*
- *Largest selection of locking options in the industry including badge entry and WiFi-capable locks*
- *Improved, better refined aesthetics featuring sleek new door handles and hinged doors*
- *Stacks flush with walls or other cabinets — we don't use easily misplaced removable handles or bulky exterior hardware*
- *Doors can swing open up to 270 degrees, which is great for leaving cabinets open during busy days.*
- *Features a true 24" interior cabinet depth able to store boxes two feet deep*
- *Customize your cabinet with any combo of trays, baskets, shelves or accessory packages*
- *Interior side panels offer multiple insertion points in every column creating a system of organizational possibilities*
- *Modular trays can be pulled out at an angle and "clip-on" locking safety features help minimize the risk of trays falling out*
- *Optional dimming LED lights toggle on/off when the door is open, ideal for use in surgical areas for better procedural vision*
- *Industry best 5" quiet rolling Tente® casters for superior mobility - 1 steering and 1 braking caster*
- *Cabinet is delivered fully assembled -* ***accessories not included***

View medical storage cabinet locking options on page 90

Build your MedStor Max storage cabinet to meet your specifications by choosing from the following options:

NUMBER OF COLUMNS
Choose from Single, Double, Triple or Quad column options. A Single column Slimline version is also available.

FINISH/MATERIAL TYPE
Choose from Heat Sealed Powder Coat Steel or Stainless Steel finishes.

CABINET HEIGHT
Choose from Full Height, 3/4 Height or 1/2 Height options.

DOOR TYPE
Choose from standard glass doors, tambour doors, solid metal doors for extra security or no door options.

FIXED OR MOBILE
Choose from our standard mobile base with wheels, a fixed base with levelers or a shortened base with levelers for tight spaces.

LOCKING OPTIONS
Choose from our standard key lock, an electronic lock, a keypad lock with or without a proximity reader, a WI-FI-capable lock or a basic latch lock.

SIDE PANEL AND COLUMN OPTIONS
Customize your interior setup with a split column or any number of panel configurations to accommodate your chosen accessories.

ACCESSORIES
We have a wide variety of trays, baskets, shelves, dividers, labels and catheter slide shelves to perfectly outfit your cabinet.

MEDICAL STORAGE OPTIONS

MS-CATHDOUBLEDRW

Catheter slide drawer for use in double column MedStor Max, with five partitions

MS-CATHSINGLEDRW

Catheter slide drawer for use in single column MedStor Max, with two partitions

MS-SLOPETOP ***(multiple SKUs)***

This top cover accessory adds a sloped top to any one, two, three or four column MedStor Max cabinet. Slope top cabinets provide attractive aesthetics and are easier to clean within medical facilities.

MS82-LVRPANEL

This accessory replaces our side panels with louver panels that hold Akro-Mils® or similar style plastic bins. Panels are affixed to the rear and provide up to 180 insertion points. Designed for full size, double width column MedStorMax cabinets.

https://www.youtube.com/watch?v=ITcmF3YVHcc

BASE ALTERNATIVES

MedStor Max cabinets come standard with 5" quiet rolling Tente® casters to keep your storage mobile. But for those that need stationary storage cabinets, we offer two options: a standard height base with legs or a short base for rooms that have lower clearance. Each version includes levelers to help cabinets stay level.

Stationary Base with Levelers

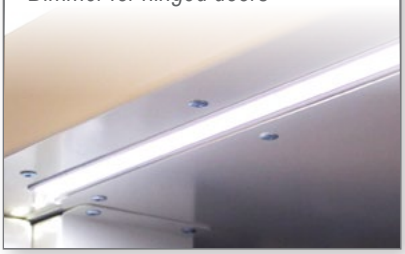

Zero Base with Levelers

MS-SKRT-SGL MS-SKRT-DBL MS-SKRT-TPL MS-SKRT-QUA

(1 column) (2 column) (3 column) (4 column)

Front Kick Plate, skirt affixes to any MedStor Max with casters

SPLIT COLUMN MODELS

Double column cabinets can be either two single columns or one double wide column, however a split column cabinet provides the best of both worlds. The SPLITA version has two single columns above with a double wide column below, while the SPLITB is the inverse of that. These configurations are ideal for holding catheters & optimize storage space.

10 REASONS TO CHOOSE HARLOFF FOR MEDICAL STORAGE

1 Premium Grade Quality

*Our medical grade cabinets are proudly **made in the USA** using top manufacturing techniques. We stand by our work with an industry leading 12-year manufacturer's warranty.*

2 Limitless Possible Combos

***Customize your cabinet** with any configuration of trays, baskets, shelves or accessories/packages. Interior side panels within each column create a system of multiple organization possibilities.*

3 Highest Capacity Storage

*Our cabinets feature a true 24" interior cabinet depth able to store boxes two feet deep. Offers **30% more tray or basket storage capacity** when compared with leading competitors products, using any 2", 4" and 8" modular trays or 3", 5" and 8" wired baskets.*

4 Recessed LED Lighting Option

***Optional dimming LED lights** toggle on/off when the door is open, ideal for use in surgical areas for better procedural visions.*

5 Multiple Door Options

***Select our standard glass doors** option or choose a tambour door, solid doors, sliding doors or even no doors at all!*

6 Increased 270° Door Swing

Doors can swing up to 270 degrees, great for leaving cabinets open during busy days. Optional magnets help keep open doors flush to the cabinet body.

7 Integrated Side Handles

*We don't use easily misplaced removable handles or bulky exterior hardware. **MedStor Max handles are built into the cabinet body** so they can stack flush with walls or other cabinets.*

8 Your Choice of Lock Type

*We have the **largest selection of locking options** in the industry including badge entry and WiFi-capable locks. View the options online at https://www.harloff.com/locking-options/*

9 Modular Trays that Safely Extend

Trays can be pulled out at an angle, and "clip-on" locking safety features help minimize the risk of falling trays.

10 Stainless Steel or Color

*All cabinet sizes **available in stainless steel** or choose from over twenty color options.*

STEEL OR ALUMINUM?

The A-Series is our line of ultra light aluminum carts with optimal curb appeal. Enjoy top-quality innovative storage and organization with a sleek, modern appearance. The A-Series comes with curved drawer pulls, self-closing drawer slides and our expanded lock options for the perfect balance of form and function.

The M-Series is our line of durable steel carts designed and built to meet the needs of today's healthcare market. Ergonomic side handles, comfort drawer pulls, expanded lock options and a standard plastic top help make things easier for your facility.

Engineered and Manufactured in the U.S.

Customizations Made Easy

2

Our ***step-by-step process*** *makes complicated options simple, including non-typical changes like bumper and caster options, wood vinyl choices and more.*

A Cart Uniquely Yours

4

Literally millions of different possible cart combinations can be created through the configurator. ***The cart YOU CREATE*** *will be like no other.*

Add the look of wood to any M-Series or A-Series cart by adding vinyl-coated aluminum drawer fronts or full wraps. Combine the aesthetics of furniture with the customizable options and long-term functionality of a Harloff metal cart.

WOOD VINYL CART WRAPS

MWA1830E06N3-CM

MDS1830KC7-CM

MDS3030EC6-AN

Wood vinyl color options include American Natural, Cherry Mahogany and several other types of wood grain colors.

Fully wrap your aluminum A-Series cart with a vinyl wood grain look of your choice.

MWA1824E05N3-DG

WOOD GRAIN FINISH CARTS

WV6400B-CM

WV3256K-CM

We offer full wood grain finish options for several cart styles including crash carts (WV6400B) anesthesia carts (WV3256K), and general treatment carts (WV6200, WV6350, WV6450, WV6520, WV6400SC). Each "medical furniture" cart features the same full extension drawer slides and 5" premium ball-bearing casters of our standard carts, but comes with a durable vinyl coated aluminum body, a pull out shelf and gray bumpers. These carts are ideal for facilities supporting Culture Change initiatives by giving carts a home-like feel.

WV6200-CM

Similar to the MDS3030K02-21DR, this wood vinyl coated aluminum cart has a 21" tall bottom storage area.

M-SERIES/A-SERIES OPTIONS

EQUIPMENT HOLDERS AND DRAWER OPTIONS

Replace 9", 12" or 18" of vertical drawer space at the top or bottom of your M-Series or A-Series cart with an open or closed door equipment holder, perfect for storing large medical equipment. For carts with storage areas, you have several options available to you for these enclosures including flip up doors, locking double doors and adjustable shelves.

MDS3030B16+MD30-FDR12

STAINLESS STEEL

These stainless steel carts, available as an option for M-Series, have the same great features but are built with a stainless steel body and drawer fronts that are ideal for cleaning. The drawer pans (interiors) are heat sealed powder coat steel, not stainless. Comes with a white plastic top.

MDSS3030K06

BUMPERS AND CASTERS

Standard M-Series and A-Series carts come equipped with fully curved "pontoon-style" protective bumper guards and premium 5" quiet rolling Tente® casters, but other options are available if you have (for example) height or width space limitations or other considerations. We offer two non-custom bumper options (smaller gray bumpers or no bumpers) and two caster options (3" plate casters or 3" stem casters).

MDS1824E04G3

(gray bumpers, 3" plate casters)

MDS2421E05N5

(no bumpers, 5" plate casters)

M3DS1830K05

(no bumpers, 3" stem casters)

CUSTOM OPTIONS

M-Series/A-Series carts are highly adaptable, customizable and can be used for a variety of medical purposes. Let us help build the perfect custom cart for you!

MPA3030EC5

Includes an open tray holder option MD30-DRW15-EH-HH

QUICK-RESPONSE CARTS DESIGNED **FOR EMERGENCY ENVIRONMENTS**

Harloff provides emergency carts to meet your unique needs. In addition to the many standard configurations shown, we are well known for our custom capabilities. Whether it's changing carts to custom locks, replacing drawer configurations, creating specialized accessories for unique facility requirements or designing and building new specially-sized carts, just ask our Sales Team for a quote to meet your specific needs.

EMERGENCY **CRASH CARTS**

Emergency carts, code carts and crash carts are designed for storing supplies needed in emergency situations. Harloff crash carts feature quality construction, multiple configurations and a 12 year warranty on manufactured parts.

Harloff is the market leader in storage solutions designed for emergency departments, ICU coronary care and urgent care centers. Our crash carts are used in world-class hospitals and medical facilities around the world.

MDS3030B06+MD30-EMG3

CUSTOM AND UNIQUE PROJECTS

Harloff has an unparalleled ability to do custom and unique projects. Let us design the perfect cart or storage system for your facility! We have helped to pioneer small cart innovations such as bayonet mounted ball-bearing drawer slides, fully modular customizable designs and carts that ship fully assembled.

The carts on the right are custom solutions requested by customers with options like independent breakaway locking bars, locking bars with bacteria-resistant white paint and undercarriage step stool holders. Step stools allow shorter nurses to gain additional height for effective chest compressions. Harloff can make custom changes to your casters, bumpers, locks, colors, drawer options, door options, top, height, width, depth, accessories and many other cart features. Allow us to help you create your cart just the way you want it!

CART OPTIONS

Harloff has standard sizes, but our manufacturing capabilities allow us to build custom carts to your specifications. This cart is a double height, double width solution designed for a multi-facility off-site SPD department.

SECURITY OPTIONS

Harloff offers multiple locking options, including advanced electronic solutions. This cart uses audible anti-theft and door ajar alarms, wireless access tracking and independent drawer locking options.

DOOR OPTIONS

Our medical storage cabinets come with your choice of solid, glass-paneled or tambour doors, but sometimes custom options are needed. This two column MedStor Max cabinet was built with dual sliding doors secured with a key lock.

TOP QUALITY LOCKS FOR MAXIMUM SECURITY AND STORAGE

Harloff manufactures the highest quality anesthesia storage carts in a variety of sizes, ideal for use in surgical environments to increase operating room efficiency and improve the patient experience. Anesthesia carts require proper security and strict access control to protect medications and supplies stored within. Many anesthesiologists maximize their cart's storage capabilities by outfitting them with back rails, tilts bins, side rails, hooks and other accessories, all of which are offered by Harloff.

ANESTHESIA CARTS

Harloff anesthesia carts provide secure and convenient access to controlled substances, medications and other supplies that practitioners require. We offer multiple configurations of anesthesia carts for a variety of medical settings, available in both all-steel construction or lightweight aluminum with heat sealed powder coat finishes. Best of all, our anesthesia carts all come with Harloff's twelve year manufacturer's warranty.

HARLOFF CAN CREATE CUSTOM SOLUTIONS FOR YOU: A CASE STUDY

Mercy Medical Center approached Harloff to build an anesthesia cart with top notch security. Our solution included the following features:

- ***A LockView® 5 compatible wireless lock utilizing 802.11g wireless protocol or Ethernet communication on existing networks. Used common security encryption methods; can program up to 3,000 user codes and audit the last 15,000 access attempts***
- ***Built-in anti-theft drawer alarm***
- ***Drawer ajar alarm that sounds after 30 seconds of inactivity with any drawer left open***
- ***Able to use existing credentials and add new users with existing HID Prox and iClass compatible badges***

This cart also included an overhead shelf, 30" of vertical drawer space and standard M-Series cart features. A-Series and M-Series carts are highly customizable and offer multiple locking solutions – let us build the perfect cart for you!

ANESTHESIA CARTS

MDS1824K05

Replaces the 3245K

This M-Series mini width cart has tons of storage space but has a small enough profile to fit in tight areas. This highly mobile cart comes with 5" quiet rolling Tente® casters, stabilizing pontoon bumpers and smooth-gliding full extension drawer slides.

MPA1830K06+MD18-ANS

IT TOOK A PANDEMIC TO REALIZE
THE VALUE OF INFECTION CONTROL

The need for proper infection control and isolation measures at medical facilities across the globe has never been higher than today. Having a secure place to store PPE for your hard-working staff is vital. Harloff isolation carts typically feature deep drawers and removable white plastic tops. Multiple sizes, configurations and colors of carts are available although most come in a yellow color indicative of isolation areas.

ISOLATION CARTS

Isolation carts, also referred to as infection control carts, are intended to help prevent the spread of infectious illness and disease within a healthcare setting. Storage solutions for PPE supplies help to reduce the risk of pathogen transmission between patients, healthcare workers and visitors.

Stopping the spread of VREs, MRSAs and other infectious microbes can help save hospitals millions of dollars as well as improve patient outcomes. Our carts help lower hospital costs and liability by limiting the number of healthcare acquired infections.

Engineered and Manufactured in the U.S.

MPA2430EKC16

INFECTION CONTROL CARTS

MDS2424E05

Replaces the 4245E

Formerly called the Mini24, this cart with 18.5" wide drawers is a happy medium between the full width cart and the minis. Includes full extension drawer slides, fully curved protective bumpers, a white plastic top and an electronic pushbutton lock with key lock override.

M3DS1830K04-PPE

This four drawer, key locking PPE cart has ample storage for face shields, masks, medical gloves, gowns and footwear plus it comes with a Sani-Wipe holder and triple glove box holder. It uses one of our most popular cart bodies.

QuickShip

available in Yellow color

MDS3030K03

Replaces the 6510

With one 6" drawer and two 12" deep drawers, this cart has plenty of storage space for all your PPE. Ergonomic side push handles and premium 5" Tente® casters provide optimal mobility and full extension drawer slides allow easy access to drawer contents.

MDS3030K04

Replaces the 6520

This top selling infection control cart has one 3" drawer and three 9" deep drawers. Further customize your cart with accessories such as drawer dividers, tilt bins and glove boxes.

QuickShip

available in Yellow color

M3DS1824K03

Replaces the 3143K

This short mini-width cart helps organize all your PPE and other supplies in one mobile, secure location. Three large drawers, each with full extension drawer slides offer up to 24" of vertical drawer space. Includes a white plastic top, 3" stem casters and multiple customizable options.

View infection control cart locking options on page 88

M3DS1830K04-VC

This vaccine cart comes with four drawers of dry storage for vaccine preparation, along with a triple glove box holder and sharps container for syringes. This is a great solution for vaccination efforts that don't require cold storage.

INFECTION CONTROL CARTS

MDS1830K06+MD18-PHB

Replaces the 3256KPB

This phlebotomy cart has 30" of vertical drawer space secured with either a key or latch lock and it comes with two 6-compartment tilt bins, a raised back rail, a waste container, a single glove box holder and extended push handle. Phlebotomy carts keep your supplies nearby, are mobile, provide a dedicated work surface for procedures and allow quick disposal of used needles.

MPA1824K04

Replaces the AL3244K

This narrow lightweight aluminum cart offers 24" of vertical drawer space, secured by a standard key lock with two keys. Features premium 5" Tente® casters, a white plastic top, new full-extension self-closing drawer slides and a fully-curved protective bumper.

M3DS1830K04

Replaces the 3154K

One of our top-selling items during the pandemic, this cart combines premium PPE storage abilities with a small footprint in one economical package. Comes with a key lock, 3" single wheel stem casters and 30" of vertical drawer space.

3123

The IV Start Cart is designed to reduce the risk of accidental needle sticks to patients and staff while improving the efficiency of IV and epidural procedures. Features a dual work surface, articulating arm, waste container and Sharps container. Comes with either a latch or key lock to secure the four full extension drawers.

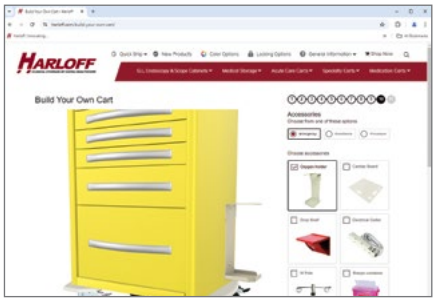

MPA2430EKC16

This lightweight aluminum cart has a highly secure electronic keypad lock plus a six drawer configuration for maximum storage. All A-Series carts include 5" premium casters, pontoon bumpers and self-closing drawer slides.

BUILD YOUR OWN INFECTION CONTROL CART ONLINE

Our online small cart configurator allows you to build your M-Series or A-Series infection control cart just the way that you want it! You choose the height, width, color, drawers and more. Try it now at ***https://www.harloff.com/build-your-own-cart/***

INFECTION CONTROL CARTS

V30-4K

V-Series Carts are value-priced and used in a variety of hospital departments. This drawer configuration is a popular choice for isolation carts and features a key lock, side rail push handle and plenty of room for accessories.

Find accessories for small carts on pages 61-68

V30-3K

This tall three drawer V-Series cart comes with a key lock, side rail push handle, corner bumpers, 5" ball bearing casters and 30" of vertical drawer space with plenty of room for PPE and other supply storage.

MDS3030E03

Replaces the 7510E

Add additional security to your cart with an electronic pushbutton lock that stores access codes for up to twenty users. Other features include:

- *Full extension drawer slides*
- *White plastic top, removable*
- *Ergonomic side push handles*
- *30" of vertical drawer space*
- *Fully curved protective bumper*
- *5" quiet rolling Tente® casters*

MR CONDITIONAL

SPECIALLY MADE FOR MAGNETIC RESONANCE IMAGING SUITES

Harloff is the only US based manufacturer to offer MR-Conditional Safe carts in both 1.5 and 3.0 Tesla magnetic resonance environments. Our carts meet the American Society for Testing and Materials (ASTM) International Designation of MR-Conditional for use in a 3 Tesla or less environment of the Magnetic Resonance Imaging Suite (testing date January 13, 2010).

Our carts are built primarily of non-ferrous aluminum, plastic and stainless steel for safe daily use in highly magnetic environments. We also offer Anesthesia and Emergency packages, multiple drawer configurations and extra MR-Conditional accessories.

MR7K

MR-CONDITIONAL CARTS

MR6K

One of our best selling MRI carts, this model features six storage drawers, corner bumpers, low-ferrous ball-bearing casters and low-ferrous drawer slides. Like all of our MRI-Safe carts, the MR6K is constructed only from non-magnetic or "weakly magnetic" materials.

Find more MRI Safe carts on page 76

MR6K-MAN

Has all of the same great features of the MR6K but with the addition of side rails, 3-tier back rails and full drawer tray organizers.

MR7K-MAN

These two seven drawer MRI carts include BEST® brand locks on each cabinet with 2 keys, a replaceable plastic top and several accessories ideal for anesthesia procedures. The larger MR7K-MAN includes a pull-out shelf, the narrow version does not.

MRN7K-MAN

MR9B-PED

This MR-Conditional pediatric cart is specifically designed for treating pediatric emergencies by using a multi-colored drawer labeling system comparable to the Broselow color coding method. Each drawer has it's own breakaway locking bar and plastic seal.

View details for the breakaway and key locking options on page 88

MR6B-EMG

Has all of the same great features of the MR6B but with the addition of an IV pole, cardiac board, oxygen tank holder, utility hooks and full drawer tray organizers making this ideal for use as an emergency cart.

MRI-SAFE ACCESSORIES

Most MRI-Safe accessories can be located in the Small Cart Accessories section on pages 62-65.

68620-P1	MRI-Safe Adjustable Dividers w/Tray for Narrow Carts, 3 Long, 3 Short

MALIGNANT HYPERTHERMIA **CARTS**

Meet AANA and MHAUS recommendations to have the right supplies organized and quickly available. Harloff's MH Carts provide portable storage with easy access.

Signs of malignant hyperthermia are often not apparent until anesthesia drugs have already been administered, and this condition can be fatal if not treated promptly. Medication and ice packs are used in the immediate treatment of malignant hyperthermia, so having a dedicated MH cart nearby significantly improves medical response time.

Engineered and Manufactured in the U.S.

View MH cart locking options on page 88

MH5200B-AC

Includes a built-in 2.4 cubic feet Accucold® labortory grade refrigerator for storage of cold saline solutions and regular insulin. Comes with a breakaway lock and two drawers. Accessories include a waste container, two chart/document holders and a large wire basket.

STORE YOUR MEDICATIONS AND INSULIN **IN A MEDICAL-GRADE REFRIGERATOR**

Harloff malignant hyperthermia carts are the perfect solution for holding your Dantrolene and other medical supplies while keeping insulin, saline and ice packs cold inside a lab-quality Follett® or Accucold® refrigerator. MH carts are offered with two different sizes of refrigerator along with multiple drawer configuration options. Harloff offers a wide range of accessory options to further equip your MH cart, or purchase one of our Malignant Hyperthermia cart packages featuring our most common accessories.

MH4216K-AC

Equipped with an Accucold® 1.0 cubic feet medical-grade refrigerator, two storage drawers are available for Dantrolene and other supplies.

MDS2430B02-MHI

We combined an M-Series body with a 1.0 cubic feet Accucold® refrigerator. Includes most M-Series features such as premium casters and bumpers, pre-drilled accessory mounting holes and full extension drawer slides.

MALIGNANT HYPERTHERMIA CARTS

FOLLETT MEDICAL GRADE REFRIGERATORS

Buy your MH cart with a Follett® REF1 or REF2 refrigerator, known within the medical field for quality and reliability.

- *Stainless steel construction.*
- *Heavy-duty, quiet compressor*
- *Uses non-CFC, environmentally responsible R134a refrigerant*
- *Cylinder door lock supports JC standard for medication storage*
- *Field-reversible door*
- *Epoxy coated wire shelves, adjustable in 1/2" increments*
- *Exterior LED user-programmable display shows temp, alarms and more*

MH5200B

Our most popular selling MH cart, the MH5200B combines the perfect balance of cold storage with two drawers of top storage. Comes with the accessories you need to create a fully equipped MH cart.

MH5216K

Our standard cart features a 1.8 cubic feet Follett® medical-grade refrigerator. This key locking model features a smaller 1.0 cubic feet Follett® refrigerator to offer more top drawer space. Other features include a waste container with mounting brackets, two large chart/document holders and a large wire basket.

MH5300B

Features three top drawers with a break-away bar for quick access to both room temperature and refrigerated medications, along with accessories.

MH5100B

Our shortest Malignant Hyperthermia cart has a single top drawer with breakaway bar, ample refrigerated storage, a full complement of accessories and a white plastic top.

MH4300K

For those who don't need accessories or wish to purchase their own accessories separately, this three drawer, key locking cart is the lean version of our MH carts.

SPECIALTY CARTS

Medical facilities may need specialized equipment to effectively serve within their particular area of patient care, and having a specialty cart or cabinet to assist with this treatment is paramount. Whether you need a cast cart for patients with broken bones, a phlebotomy cart for IV and epidural procedures, a storage cart for your IntraOcular lens boxes, a pediatric cart for your children's area or something custom made for another area of specialization, Harloff has you covered.

Engineered and Manufactured in the U.S.

SPECIALIZED CARTS FOR **UNIQUE MEDICAL APPLICATIONS**

Most Harloff specialty carts were developed because of customer requests. When a customer requires a specialized solution and they trust in Harloff's unparalleled ability to make custom and unique projects, great things can happen! We are proud to offer these "niche" carts to help fill unique needs in the medical community. Perhaps your idea will become the next specialty cart to help other professionals just like you!

6035-TC

ORTHOPEDIC CAST CARTS

STAINLESS STEEL

6035

This popular 8-drawer cart includes a stainless steel folding side shelf, stainless steel side storage cabinet, swivel tourniquet/ pump pole and scissors cable.

6025

This version of the 6035 has a cabinet and drawers made of stainless steel rather than heat sealed powder coat steel. Multiple locking options are available.

ALL HARLOFF CAST CARTS FEATURE:

- ***Stainless steel bucket holder with vinyl mat***
- ***24" stainless steel ruler mounted on top of cart***

- ***Aluminum towel bar***
- ***Internal drawer dividers***
- ***Corner bumpers***
- ***5" ball-bearing casters, all full swivel - one tracking, one with brake***
- ***Ball-bearing full extension drawer slides***
- ***Latex free construction***

View specialty cart locking options on page 88

6035-TC

Our top selling cast cart, this model is just like the 6035 cart but with a top compartment for extra storage.

6025-TC

This stainless steel cart is just like the 6025 cart but with a Sand colored aluminum top compartment for extra storage.

6030

Designed in conjunction with orthopedic technicians to maximize functionality, our cast carts have one 3-inch drawer with a black vinyl mat, five 3-inch drawers with drawer dividers and two 6-inch drawers with drawer dividers.

This basic cast cart has a bucket holder, towel bar and mounted ruler but does not come with top shelving or a pole.

INTRAOCULAR LENS CARTS AND SUTURE CARTS

MS-IOL840

This version holds up to 840 IOL boxes and is less than 41" tall.

For larger, non-standard sized IOL boxes we build custom cabinets that can meet your exact specs.

MS-IOL1260

Compatible with multiple IntraOcular lens box sizes and brands including Alcon, Bausch and Lomb, Rayner and Abbot Medical Optics, this cart provides mobile storage for up to 1,260 boxes. The six pull-out drawer shelves allow for quick visual scans of the types and powers of each IOL box kept organized with six adjustable dividers per drawer. Industry best 5" quiet rolling Tente® casters improve mobility and lenses are secured with a standard key lock.

MS-SUTURE2-K

This suture cart has clear acrylic doors designed for operating rooms that require secure but visible storage and transport of sutures. It features five adjustable shelves and a bottom pass through compartment which can hold several sizes of Harloff trays.

Comes with a key lock or an e-lock

***Also available:** The MS-IOL1092 and MS-IOL1470 models are designed to include fewer shelves with more space between each shelf to accommodate larger IOL boxes such as those from Johnson & Johnson.*

MS-IOL1680

This high volume IOL cart is the equivalent size of a full height two column MedStor Max cabinet. It features eight drawers with full extension drawer slides to hold up to 1,680 IOL boxes. This model can come equipped with optional lighting, a dimmable recessed LED that turns on automatically when doors are open. This is a perfect solution for large eye surgery centers that do 30-50 eyes per day.

CUSTOM CARTS

Many of the "specialty" carts that Harloff carries (IOL carts, phlebotomy carts, etc) were created because of customer requests. No one understands what innovations the medical industry needs better than those who are working daily in patient care. If you have an idea that you want to see materialize into a cart in the field, Harloff can help you. We have a full-time engineering staff that can assist you, and Harloff's manufacturing team gives us an unparalleled ability to do custom and unique projects. Harloff has helped to pioneer small cart innovations such as bayonet mounted ball-bearing drawer slides, fully modular customizable designs and carts shipped fully assembled. *See page 44 for details.*

MODERN, AFFORDABLE AND SECURE **MEDICATION STORAGE**

Harloff medication carts are manufactured to provide hospital pharmacies with highly secure medication administration in a healthcare environment. Our carts are manufactured with durable, high capacity drawers which improve medication management and ensure patient safety while also reducing costs.

MEDICATION **CARTS**

Meet the requirements of your hospital medication distribution system with Harloff medication carts. Our goal is to help you manage complex clinical medication management issues by offering a full line of med carts to improve patient safety and reduce costs.

One size does not fit all — Harloff offers a wide selection in medication carts for a variety of medication dispensing systems and budgets. Carts feature secure locking systems, separately locking narcotic boxes and specialized dividers inside the drawers.

Engineered and Manufactured in the U.S.

PUNCH CARD CARTS

▶ Watch a helpful Medication Cart video at
https://www.youtube.com/watch?v=n4XILlb5A8c

SL600PC

This dual column punch card cart has a BEST® lock on the cabinet, a single width narcotics drawer with an Illinois lock and holds a capacity of 600 cards. The standard package includes a pull-out shelf, adjustable punch card row dividers, a plastic replaceable top with integrated push handles and premium 5" casters.

SL602PC

This punch card cart has the same capacity as the SL600PC but features a larger double-width narcotics drawer in the right column. Features include full extension drawer slides, protective corner bumpers, an easy to clean heat sealed powder coat finish and our 12-year manufacturer's warranty.

SL600PC-EKC

All the same great features of the SL600PC but secured with an electronic keypad lock that allows access rights for up to 250 users.

AL600PC

All the same great features of the SL600PC but with a lightweight all-aluminum construction that makes the cart 50 pounds lighter. This cart can accommodate all types of medication packaging and offers a complete line of accessories for your storage needs.

AL602PC

All the same great features of the SL602PC but with a lightweight all-aluminum construction that makes the cart 50 pounds lighter. The 600PC and the 602PC are primarily differentiated by the width of the primary column and the right narcotics drawer column.

SL550PC

This single column 550 capacity punch card medication cart is ideal for those who want punch card storage but don't require large narcotics storage. A smaller single width narcotics box that uses an Illinois lock with four keys is included.

PUNCH CARD CARTS

VLT360PC

This value 360 capacity punch card cart is secured with a key lock and includes a top rail/push handle, a pull-out shelf, adjustable punch card row dividers and an in-drawer locking narcotics box. Constructed from heat sealed powder coat steel, it includes full extension drawer slides, protective corner bumpers and premium 5" Tente® casters.

VLT480PC

This value 480 capacity punch card cart is made of steel and is secured with a key lock. It includes a top rail/push handle, a pull-out shelf, adjustable punch card row dividers and an in-drawer locking narcotics box.

VLT240PC

This value 240 capacity punch card steel cart is secured with a key lock. It includes a top rail/push handle, a pull-out shelf, adjustable punch card row dividers and an in-drawer locking narcotics box.

SL480PC

This thinner version of the SL600PC features a 480 punch card capacity secured with a BEST® lock, a pull-out shelf, adjustable row dividers and a single wide narcotics drawer locked by an Illinois lock. The top is replaceable and features integrated push handles.

VLT360EPC

For those looking for added security, this model locks its 360 punch card capacity of medications with an electronic pushbutton lock that stores up to twenty user codes that can be programmed in the field.

AL460PC

This aluminum cart holds 460 punch cards split between its two columns, and is secured by a BEST® lock on the cabinet and an Illinois lock on the in-drawer narcotics box. Also included is a pull-out shelf, punch card row dividers and premium casters.

MED-BIN CARTS

VLT24BIN5

This value med-bin cart features a 24 count of 5" med-bins (dividers and labels included) plus a 3" multipurpose top storage drawer and a 9" lower drawer with a locking narcotics box and divider. This steel key locking cart also comes with a top rail/push handle and a pull-out shelf.

SL28BIN5

This dual column med-bin cart has a BEST® lock on the cabinet plus a single width narcotics drawer, similar to the SL600PC cart but with a 28 count of 5" med-bins (dividers and labels included) as well as a 3" multipurpose top drawer and a 9" lower drawer.

SL36BIN5

This dual column med-bin cart features a 36 count of 5" med-bins (dividers and labels included) as well as a 3" multipurpose top drawer, plus these features: a single width narcotics drawer, full extension drawer slides, 5" ball-bearing premium rubber casters, one pull-out shelf, protective bumpers, a heat sealed powder coat steel finish and Harloff's 12-year manufacturer's warranty.

SL54BIN3

This dual column med-bin cart has a BEST® lock on the cabinet plus a single width narcotics drawer, similar to the SL600PC cart but with a 54 count of 3.5" med-bins (dividers and labels included) as well as a 3" multipurpose top drawer and pull-out shelf.

SL54BIN3-EKC

All the same great features of the SL54BIN3 but secured with an electronic keypad lock that allows access rights for up to 250 users. Drawers automatically re-lock after access as you may add, edit, or delete users and user groups with a lock that has an low battery indicator.

VLT12BIN5

This value med-bin cart features a 12 count of 5" med-bins (dividers and labels included) plus a 3" multipurpose top storage drawer and two 9" lower drawers, one with a locking narcotics box. This steel key locking cart also comes with a top rail/push handle and a pull-out shelf.

CASSETTES

DISPILL®

MEDICINE ON TIME®

UNIT-DOSE BOXES

OTHER MEDICATION CARTS

VLT150MOT

This value medication cart has a capacity of 150 Medicine On Time® cards plus a 3" multipurpose top storage drawer. An internal locking narcotics box made for M.O.T. packaging is included. This steel key locking cart also comes with a top rail/push handle and a pull-out shelf.

View medication cart locking options on page 88

SL100DSPN

This medication cart has a capacity for 100 DISPILL® cards plus two multipurpose top storage drawers. An internal locking narcotics box designed to hold DISPILL® cards is included. This steel key locking cart also comes with a pull-out shelf and a replaceable plastic top.

AL24CS-5

This medication cart features 24 count of 5" wide patient bin drawers in three aluminum cassettes (dividers and labels included) plus two 4" multipurpose storage drawers. Cassettes are located in pull-out drawers for ergonomic removal.

AL36CS-3

This medication cart features 36 count of 3" wide patient bin drawers in three aluminum cassettes (dividers and labels included) plus two 4" multipurpose storage drawers. Cassettes are located in pull-out drawers for ergonomic removal.

SL294BOX

This medication cart has a capacity for 294 Unit-Dose medication boxes plus a single width narcotics drawer, similar to the SL600PC cart. This steel key locking cart also comes with a pull-out shelf, a replaceable plastic top, full extension drawer slides and protective corner bumpers.

WV240PC-CM

This wood blend medication cart holds up to 240 punch cards and is designed to support culture change initiatives in long term care. Constructed from lightweight aluminum with a wood vinyl coating, this four drawer cart has a removable top with a granite look.

WV540PC-AN

This 540 punch card cart, shown in an American Natural finish is designed for long term care facilities or other settings where a homelike feel is desired. This puts patients at ease and helps to promote culture change initiatives toward person-centered home care.

WV600PC-CM

This punch card variant is made of light vinyl coated aluminum and comes with a "marbled" top. It is designed to look like furniture and comes with a skirt that hides its rubber casters. It has a 600 punch card capacity and locking narc drawer similar to the AL600PC.

WV360PC-CM

Constructed from lightweight, wood vinyl coated aluminum, this model resembles a dresser more than a medical cart and can store a maximum of 360 punch cards. It comes with a removable granite look top for extra work space.

NARCOTICS CABINETS

Government rules and regulations require you to keep narcotics in secure locations. By storing drugs in narcotics cabinets, you can keep the potentially dangerous and addictive drugs out of the hands of individuals who may abuse them while still having them near at hand for the patients who will benefit from them.

MAXIMUM SECURITY IN A VERY SMALL PACKAGE

Each Harloff narcotics storage cabinet is constructed with 20 guage steel and comes with high security pick-resistant locks, full length steel pinned door hinges to prevent pin removal and predrilled holes in the back for mounting to a solid surface. Other than our wood vinyl wrapped cabinets, all Harloff narc boxes are finished with a beige heat sealed powder coat finish.

Harloff offers many different narcotic cabinets to help you keep both your controlled substances and your business secure including wood look cabinets, slim profile boxes and cabinets with audio/visual alarms.

Engineered and Manufactured in the U.S.

Now available in all standard colors!

NARCOTICS CABINETS

MAXIMUM SECURITY

Our narcotics cabinets feature high security pick-resistant tubular locks, with four keys included per lock. All cabinets are keyed differently with unique lock sequences, unless otherwise specified. Harloff uses full length stainless steel staked door hinges to prevent pin removal. Our dual door cabinets meet the highest level of security required by DEA storage guidelines.

Item # followed by description

NC12C16-SK2
Medium Narcotics Cabinet, Single Door, Double Lock. 12" H x 16" W x 8"D. You have the Option to Disengage the Top Lock When a Double Locking Cabinet is Not Needed.

NC16C12-SE1-AVD
All the same features of the NC16C12-DT2-AVD but with an electronic lock.

NC16C12-SE1-AVD-AT
All the same features of the NC16C12-SE1-AVD but with an electronic lock.

NC16C12-DT2-AVD-DIGIPROX
All the same features of the NC16C12-DT2-AVD but with a Digilock® Electronic RFID Proximity Reader

NC24C16-DT2-AVD
All the same features of the 27AVD20 but larger! 26" H x 16" W x 8" D

NC30D30-BK2
X-Large Narcotics & Medication Cabinet w/double-wide doors and a single lock. Two shelves hold 180 Punchcards. Bottom open area holds liquid storage. 30" H x 30" W x 10" D

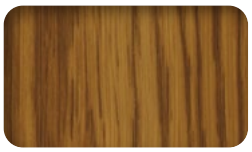

ADDITIONAL WOOD VINYL MEDICATION CABINET MODELS

Item #	Description
WV2718PC	*Single Door, Single Lock Wood Vinyl Medication Cabinet w/shelf. 40 Punch Card capacity + liquid storage. 13.5" H x 18.25" W x 10.75" D. Also available with an electronic keypad lock, left opening door swing or locked narc storage box.*
WV2766	*Single Door, Single Lock Wood Vinyl Medication Cabinet w/shelf. 60 Punch Card capacity + liquid storage. One Hand Open/Close. For exterior mount with cabinet wrap. 23" H x 20.25" W x 6.75" D Also available with an electronic keypad lock, left opening door swing or locked narc storage box.*
WV2761	*Single Door, Single Lock Wood Vinyl Medication Cabinet w/shelf. 40 Punch Card capacity + liquid storage. One Hand Open/Close. For exterior mount only - no wrap. 23" H x 14.625" W x 6.75" D Also available with an electronic keypad lock, left opening door swing or locked narc storage box.*
WV2795	*ADA-Compliant Wood Vinyl In-Room Medication Cabinet w/shelf. 20 Punch Card capacity + liquid storage. For exterior mount with cabinet wrap. Includes Shelf and Bin with Divider. 23" H x 20.25" W x 5.25" D Also available with an electronic keypad lock, left opening door swing or locked narc storage box.*
WV2718	*Single Door, Single Lock Wood Vinyl Coated Medication Cabinet. Door opens into shelf. Cabinet Includes Adjustable Feet For Counter Top Use, or can be stud mounted. 40 Punch Card capacity + liquid storage. 11.0" 13.5" H x 18.25" W x 10.75" D*

BREAKAWAY LOCK

*Identified by **"B"***

Features & Benefits

- *Powder coat steel or aluminum break-away lock bar*
- *100 break-away seals included*

An optional white, bacteria-resistant paint upgrade can be added.

LATCH LOCK *Identified by "L"*

Features & Benefits

- *Quick, open access to any user with a simple 90 degree turn*
- *Allows doors to latch without other security considerations*

STANDARD KEY LOCK

*Identified by **"K"***

Features & Benefits

- *Key Locking System comes with 2 keys*
- *Multiple key codes allow departments to be keyed differently or alike*

KEYLESS ELECTRONIC PUSHBUTTON LOCK

Identified by "E"

Features & Benefits

- *Made in the USA*
- *Key Lock Override*
- *Cabinet may be programmed in the field*
- *Membrane keypad with pass/fail and low battery light indicators*
- *Up to 75,000 cycles before power depletion with standard batteries*
- *Batteries are changed externally using a tamper-proof screw*
- *20 factory set codes per lock, 19 users and 1 supervisor*

ELECTRONIC LOCK W/KEYPAD

Compatible with LockView® 5 software (LKVIEW-CAB)

Features and Benefits

- *Key Lock Override*
- *May add, edit, or delete user and user groups*
- *Made in the USA*
- *Access rights may be assigned for up to 250 users per cart*
- *Membrane keypad with pass/fail and low battery light indicators*
- *Drawers automatically re-lock after access (pre-set or programmed time)*
- *Operated with six D-cell batteries; 1 year minimum life at 25-50 uses per day*

Identified by "EKC"

*Identified by **"ELP"***

ELECTRONIC LOCK W/KEYPAD AND PROXIMITY READER

Compatible with LockView® 5 software (LKVIEW-CAB)

Features and Benefits

- *Key Lock Override • Enables you to use existing credentials*
- *Membrane keypad with pass/fail and low battery light indicators*
- *Access rights may be assigned for up to 250 users per cart*
- *Allows for supervisor assignments; dual credential access available*
- *Drawers automatically re-lock after access (pre-set or programmed time)*
- *Operated with six D-cell batteries; 1 year minimum life at 25-50 uses/day*
- *Easily add new users with existing HID compatible badges (Prox and iClass)*
- *May add, edit, or delete user and user groups • Made in the USA*

WIRELESS ELECTRONIC LOCK W/KEYPAD

Compatible with LockView® 5 software (LKVIEW-WIFI)

*Identified by **"WKC"***

Features and Benefits

- *Key Lock Override*
- *Wireless Lock utilizes 802.11g wireless protocol or Ethernet communication on existing networks. Uses common security encryption methods; program up to 3,000 user codes and audit of the last 15,000 access attempts • Made in the USA*
- *User defineable network updates; change the download frequency to your preferences*
- *Allows alarms and reports via email, text, fax and voice for multiple notifications*
- *Membrane keypad with pass/fail and low battery light indicators • Capable of operating two separate latches or drawers*

WIRELESS ELECTRONIC LOCK W/KEYPAD AND PROXIMITY READER

Compatible with LockView® 5 software (LKVIEW-WIFI)

*Identified by **"WLP"***

Features and Benefits

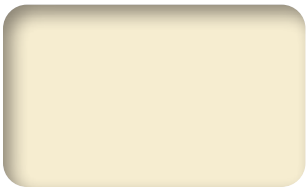

- *Key Lock Override • Enables you to use existing credentials*
- *Wireless Lock utilizes 802.11g wireless protocol or Ethernet communication on existing networks. Uses common security encryption methods; program up to 3,000 user codes and audit of the last 15,000 access attempts • Made in the USA*
- *Membrane keypad with pass/fail and low battery light indicators • Capable of operating two separate latches or drawers*
- *Allows for supervisor assignments; dual credential access available*
- *Easily add new users with existing HID compatible badges (Prox and iClass)*
- *User defineable network updates; change the download frequency to your preferences*
- *Allows alarms and reports via email, text, fax and voice for multiple notifications*

** An enhanced, bacteria-resistant paint upgrade can be added for extra protection. Chemically treated to resist bacterial growth, this paint option requires an additional upcharge.*

ARE YOU A MEDICAL DEVICE MANUFACTURER IN NEED OF NEW STORAGE SOLUTIONS?

PARTNER WITH US!

Partner with harloff to help take all your storage ideas from concept to reality!

The Harloff Company is known for our ability to take on custom and unique projects. This customizability separates us from our competitors and provides unique opportunities for business partnerships. Our on-site full-time engineering staff, state of the art production equipment and years of manufacturing experience allows us to quickly create new products and to act as a custom storage system developer for companies like yours. ***Some examples are:***

We were approached by a company named TRACORP that was interested in our medication cabinets, but they really needed something that worked with a locking system they had already purchased. Although this was not a traditional Harloff lock, our engineering team made a modification to our standard medication cabinet and essentially built the cabinet around the lock, making it a seamlessly integrated component of the final product. The customer was very satisfied with the final results!

On another occasion, we were approached by DeRoyal, a company that specializes in medical supply tracking through Radio Frequency Identification (RFID) technology. DeRoyal wanted to incorporate its medical supply tracking technology, used in hospitals to track inventory and consumption of medical devices and supplies into RFID-capable medical carts and surgical trash cans. At the inception of this idea, DeRoyal understood that RFID waves cannot penetrate the steel/aluminum construction of Harloff carts and trash cans. DeRoyal went to work to solve this RFID penetration problem, which resulted in a patented solution that masks RFID interference in such a way that allows the RFID technology to continue to track supplies. Harloff worked with DeRoyal to not only provide a more cost-effective supply of carts and trash cans, but to also incorporate its patented RFID solution into these products.

By customer request, we modified one of our standard cabinets into mobile IntraOcular lens box storage carts for use within surgical vision centers. The solution was so successful that our IntraOcular Lens Carts (or IOL carts) are now a standard part of our product offering at Harloff.

One of the companies with whom we have a long relationship sells custom automotive solutions. They paired a Harloff cart body with tools, computer hardware and scanning technology to create an all-in-one system that maps collision damage in vehicles. Even companies outside of the medical industry have partnered with Harloff to create superior customer solutions.

Automation is taking an increasingly larger role within medical facilities, with COWs (Computer Operated Workstations) and other powered medical carts becoming more commonplace. Harloff once fulfilled a request for our products to be retrofitted for daily end-of-shift restocking by automated facility robots! We are always looking for ways to pair our carts and cabinets with new tech companies to provide added benefit to nurses and medical staff everywhere.

In both large and small ways, Harloff has been able to use our custom engineering capabilities to fit the needs of our customers. Need a step stool carrier added to your cart? ***We've done that.*** *How about custom accessory holders for non-standard items?* ***No problem, we've done that too.*** *No matter what your need, or how large or small the project, Harloff has the staff and experience that you need to build a custom storage system for your developing concept. We'd be delighted to design the perfect custom cart or storage system for your facility!*

To inquire about partnership opportunities or to discuss your concept with our sales and engineering team, please reach out to Greg Stadjuhar at (719) 466-9048 or email medicalsales@harloff.com today.

NEW PRODUCT SPOTLIGHT

AVAILABLE IN THREE OPTIONS:
4-DRAWER **(TPS3028EC4)**, 5-DRAWER **(TPS3028EC5)** AND 6-DRAWER **(TPS3028EC6)**

T-SERIES DRAWER TRAY CARTS

T-Series carts have the look and function of traditional drawers with the adaptability of medical storage trays. Each drawer features an outer frame that holds an easily removeable plastic tray.

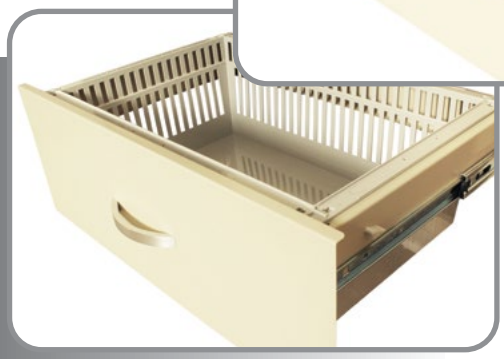

How does it work?

- *Store your standard stocked 8" high trays (81032S) and 4" high trays (81031S) in your Harloff MedStor Max medical storage cabinet or other standard storage systems*
- *Stocked trays can be moved to your T-Series cart, then accessed daily like any "normal" drawer.*
- *Once tray supplies are depleted and restocking is needed, simply remove the depleted tray from the T-Series cart and replace with a different stocked tray of the same size.*
- *Most standard trays can be restocked at your T-Series cart, at your MedStor Max medical storage cabinet or at a separate restocking area.*

What are the benefits?

- *T-Series drawers are designed for easy "remove and replace" unlike traditional drawers*
- *Drawer cleaning is easier with this method - trays can be moved to cleaning areas of your facility.*
- *Restocking can take place at designated supply areas, improving efficiency and restocking speed*
