New CPT® Codes

Evaluation and Management

Remote Physiologic Monitoring

Additional codes were added to remote physiologic monitoring to allow for increased reporting of 2-15 days in addition to the already established 16-30 days for device supply, and additional time for remote physiologic monitoring management of 10-20 minutes per calendar month. See the CPT manual for additional time instruction.

Medicine

Immunizations

New codes have been created for immunization benefit counseling when an immunization is not administered. Time for counseling of immunizations not provided would be cumulatively reported as one code. Time spent on counseling for immunizations that are administered on the same date of service would not be included in the time of these codes.

90482 Immunization counseling by physician or other QHP when immunization(s) is not administered by provider on the same date of service; 3 minutes up to 10 minutes

90483 greater than 10 minutes up to 20 minutes

90484 greater than 20 minutes

Mechanical Scalp Cooling

New codes were created for mechanical scalp cooling, which must be provided by an FDA-defined device and performed by trained clinical staff in an office or facility under the supervision of a physician or other QHP. Any work for mechanical scalp cooling, including monitoring and management, when performed during the chemotherapy administration time is included in the work of the chemotherapy administration codes.

97007 Mechanical scalp cooling, including individual cap supply with head measurement, fitting and education

97008 Mechanical scalp cooling; including hair preparation, individual cap placement, therapy initiation, and pre-cooling period

97009 provided after discontinuation of chemotherapy, each 30 minutes (Use in conjunction with 97008)

Remote Therapeutic Monitoring

Additional codes were added to remote therapeutic monitoring to allow for increased reporting of 2-15 days in addition to the already established 16-30 days for device supply, and additional time for remote therapeutic monitoring management of 10-20 minutes per calendar month.
