Decisions in real-time

*How do you ensure your optimization model
delivers real-time performance consistently?*

Embracing complexity

*What bold decisions did optimization enable
you to make that would have been impossible
with simpler approaches?*

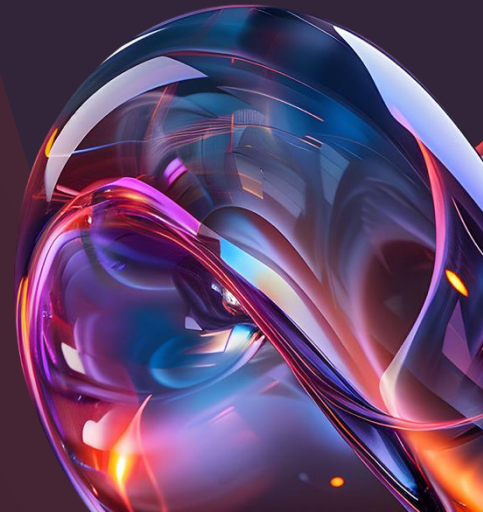

Shifting perspective

How has optimization helped you challenge the status quo and drive change that once seemed impossible?

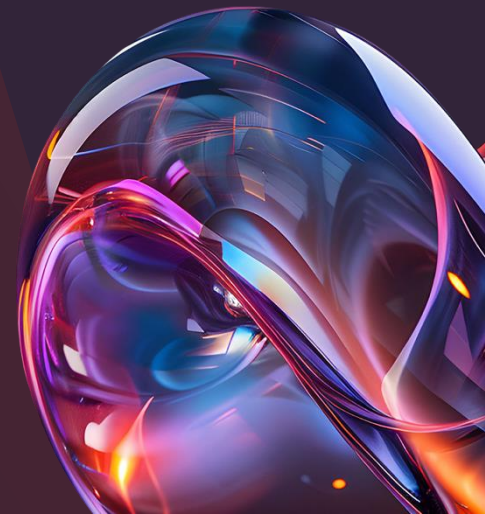

Getting it right

Where has optimization given you the confidence to avoid costly mistakes?

Driving innovation

*How did bold algorithmic decisions distinguish
your approach from the conventional path?*

Summary

GUROBI SUMMIT

Embracing complexity

Getting it right

Agenda

- 14:00 **Introduction**
- 14:15 **Airbus:** Resilient communications through mathematical optimization
- 14:45 **Polypoint:** Because Time Matters: Empowering Smart Health-Care Scheduling through Participation and Optimization
- 15:15 **Levasoft:** GUROBI as a Key to Optimizing Flat-Roof PV Systems: A Practical Perspective from Levasoft
- 15:45 **Break**

Agenda

- **16:15 Turkish Airlines:** Combining AI & OR for Large-Scale Airline Recovery Problems
- **16:45 A1 Telekom and Kärnten University of Applied Science:** Empowering Machine Based Next Generation Access Network Design by Gurobi Optimizer
- **17:15 Panel**
- **18:00 Cocktails, speaker hub and dinner**
