Of course, RenSecureHealth doesn't cover everything. Here's what you need to know about what's not covered—

RenSecureHealth is designed to help minimize the financial strain that comes with unexpected health issues. We don't cover **mild conditions** that you would typically treat at home or with a primary care physician.

We also don't cover **chronic, mental health, or maternity conditions** because these types of conditions usually give individuals time to plan for upcoming or ongoing expenses.

Don't see a specific condition you're looking for? Send us an email at RenSecureHealth@joinansel.com or call **888-612-1172** to speak to a RenSecureHealth Member Care Representative.
