

Renaissance Benefits

A Smarter Benefits Partner for Today's Brokers

Built on reliability, service, and innovation, we partner with brokers nationwide to deliver employee benefits that work for today's employers.

Our Story: Leading The Way With Modern Supplemental Health.

Renaissance was founded on the belief that traditional benefits alone no longer meet the needs of today's workforce. Rising healthcare costs continue to create gaps for employees—and challenges for employers trying to offer competitive, affordable coverage.

That's why we lead with RenSecureHealth (RSH), our supplemental health solution designed to help offset out of pocket medical expenses and provide financial peace-of-mind. RenSecureHealth is built to complement major medical coverage, not replace it—giving brokers a smarter way to start the benefits conversation and deliver immediate value to clients.

Our Mission Is Simple: **Simplify benefits while delivering real value—for brokers, employers, and the people they serve.**

With Supplemental Health, Renaissance Helps Brokers:

- ✓ Address Real Cost Concerns Employers Are Facing
- ✓ Offer Employees Tangible Protection They Can Use
- ✓ Differentiate Their Recommendations In A Crowded Market

RenSecureHealth: The Foundation of a Better Benefits Strategy.

Key Advantages Include: (1) Comprehensive supplemental health options that help close coverage gaps. (2) Flexible plan designs to fit a wide range of budgets and workforce needs. (3) Simple enrollment and seamless administration for employers and employees.

RenSecureHealth Allows Brokers To Position Benefits Strategically—Starting With Protection That Matters, Then Building A More Complete Offering Around It.
