MIDDLE SCHOOL

Engagement without Limits

Middle school marks a pivotal stage in a student's educational journey, but many middle school students still require assistance with foundational skills in reading and core numeracy skills in mathematics. Support for these older, striving learners needs to cater to their unique needs with content tailored to this critical developmental stage.

Early access to *i-Ready Pro*, the next evolution of middle school, will feature new lessons for these students in reading and mathematics. These targeted and focused intervention lessons will offer a more mature design and give students the autonomy in their learning journey to bolster engagement.

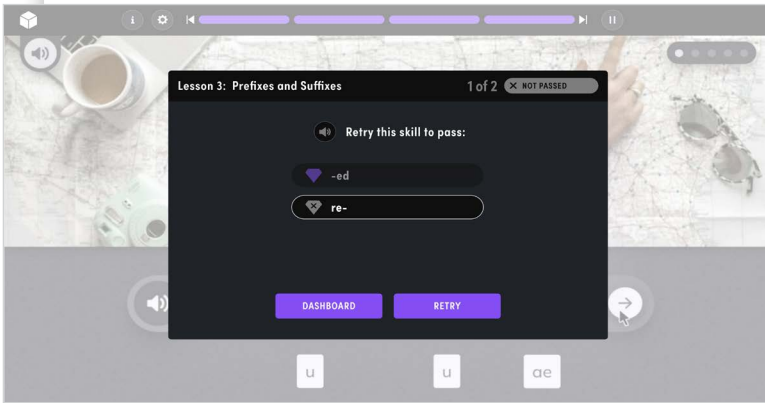

Did You Know?

i-Ready Pro is building from an **already-powerful foundation**, including recent enhancements focused on knowledge building that teach vocabulary in the context of reading in Grades 6–8.

ACCESSIBILITY

Opportunity without Limits

Building accessibility across our learning solutions to maximize usability for students with disabilities is our priority. That's why accessibility and accommodation support considerations have been incorporated into our product development process from the very beginning. We also have a cycle of continuous improvement and ongoing evaluation in place so students with disabilities will have what they need to grow without limits and achieve.

Did You Know?

Universal features include audio support, closed captioning, and keyboard navigation. Accommodation supports include optimization for use of **assistive technology**, such as screen readers.
