play braid gray plain spray

Multisyllabic Challenge Words

midday crayon mailbox paycheck waistband

High-Frequency Words

was of you they are

Words with Endings

rained painted played braided waited

C. Passage Reading Fluency

Grass and Hay

12 On the ranch, we have grass that will be **food** for the
22 stock. The grass is not sprayed with water because the
35 grass gets water from rain. In May, if we have 3 days with
48 sun and no rain, we cut the grass. When we cut the grass,
62 we lay it on the land until it wilts. Then the grass is hay.
73 Next, we put the hay into bunches and stack them. The
87 bunches of hay are put in a shed. Some of the hay will be
99 food for the stock. We will sell the rest of the hay.

112 Hay crops can fail! If we wait to cut the grass, we may
125 not have hay for the stock. If it rains after we cut the
138 grass, the hay can rot. If the shed is damp, the hay may
151 rot. If insects, or bugs, get to the crop, the crop can fail.
157 Yes, we have had failed crops!

D. Text Comprehension

1. **HOW** is the grass getting water?

The grass is getting water from _____.

2. **WHEN** the grass wilts, what is it?

When the grass wilts, it is _____.
