

The Next Evolution of *i-Ready* for Students in Grades 6–12

PROGRAM OVERVIEW

Dear Educator,

i-Ready Pro, the next evolution of *i-Ready* for Grades 6–12, is thoughtfully crafted to maximize learning in middle school at a time when building critical skills is key to shaping future success. With adaptive lessons tailored to students' unique needs—whether they require foundational skill building or are ready to engage in grade-level content—*i-Ready Pro* helps every learner feel empowered, confident, and capable of independent growth.

i-Ready Pro also provides real-time insights, enabling you to celebrate achievements, reflect on progress, and guide your students with purpose, making every moment in the classroom more meaningful.

With *i-Ready Pro*, you and your students can **own your progress**—together.

Sincerely,

Your *i-Ready* Team

Maximize Learning Time

Develop the skills and strategies students need to engage with grade-level content, making the most of every learning opportunity.

In Mathematics:

- 1 **Elevate Lessons** are designed for students ready to engage in grade-level content.
- 2 **Essential Lessons in core numeracy** are built for students who need support with whole number and rational number concepts.

Student	Overall Placement & Scale Score	Placement by Domain				Annual Growth Measures	
		NO	ALG	MS	GEO	Typical Growth	Stretch Growth
Matias, Zarita	Early 7 (525)	Mid 7	Grade 5	Early 7	Mid 7	12	22

Boost Student Confidence

Foster ownership in students' learning with an age-appropriate experience that offers autonomy and choice.

In their *i-Ready Pro* dashboards, students see their assessment performance across key domains with detail about the personalized instruction they will receive next and celebrate their successes—from completion of lessons to achievement of goals.

In their lessons, students are empowered to take control of their learning, choosing additional instruction and practice when needed, making informed decisions about their next steps, and reflecting on their progress along the way.

**"If you get something wrong,
it'll teach you why."**

—Middle School Student, MA

1

Students see the skills they already know and what they will practice next.

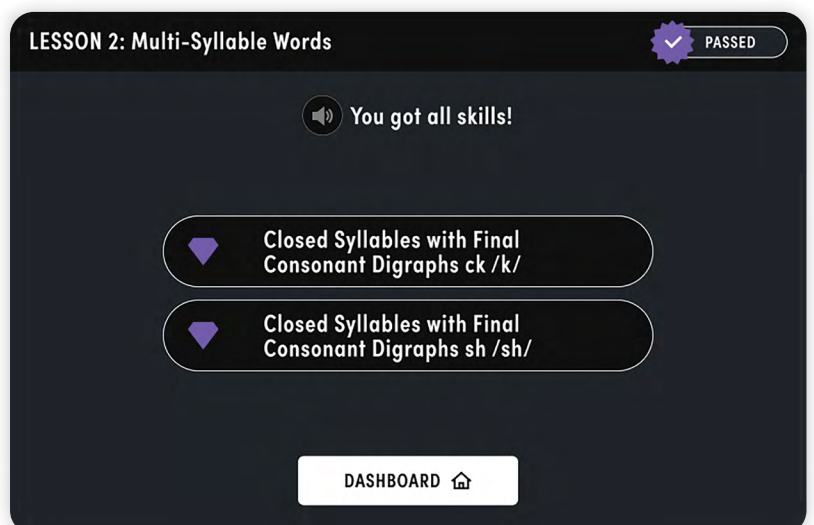

2

They can choose more practice before moving on.

3

They have visibility into their progress.

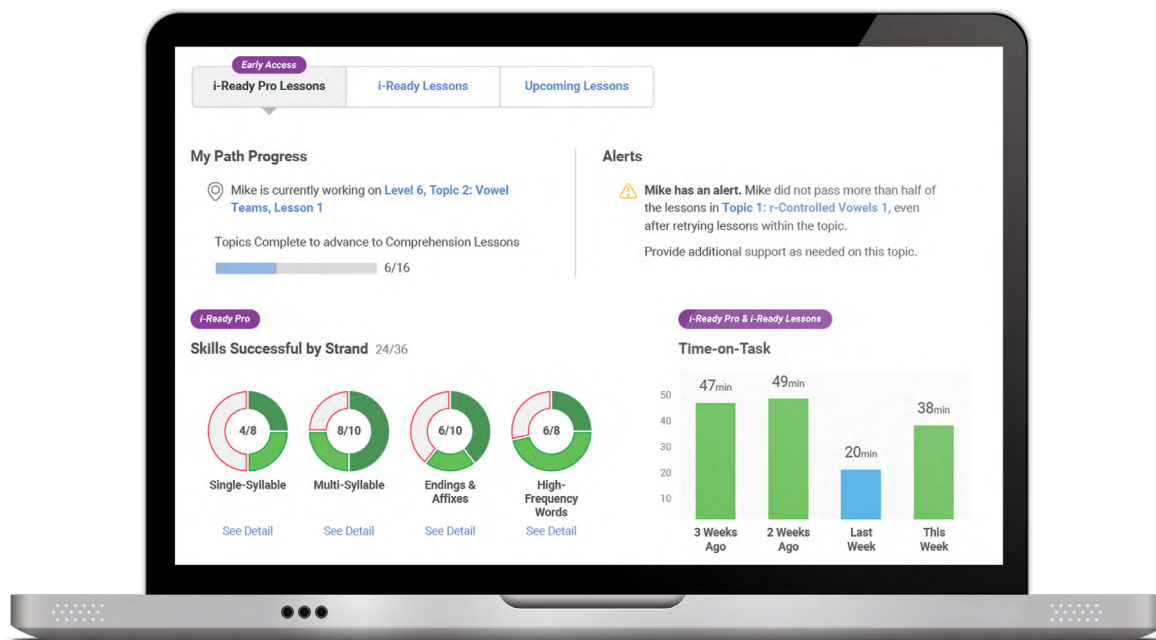

Empowers Educators for Lasting Impact

Address students' diverse needs and keep them engaged along the way with actionable insights and proven instruction.

Interventionists, teachers, and administrators see real-time data on lesson usage across Essential and Elevate Lessons and performance trends within each.

Personalized Instruction
Summary (Student) Report

Understand a student’s progress through lessons, and identify areas where additional instructional support would be beneficial.

Alerts	Level & Topic	Lesson	Lesson Result	Skill & Strand	Skill Result	Time-on-Task	Date Finished

**"I like that the lessons are broken
into smaller steps. It makes it
easier for me to understand."**

—Middle School Student, FL

Available in *i-Ready Pro* during the 2025–2026 school year:

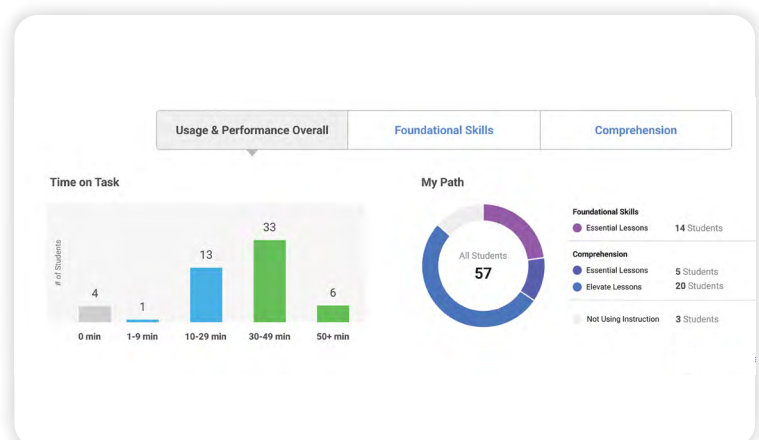

Nearly 700 new and updated lessons with updated lesson progressions

A screenshot of an i-Ready Pro math lesson interface. The lesson is titled "A lighthouse is 227 feet tall. The lighthouse is built on a cliff that is 315 feet above sea level. Find how high the top of the lighthouse is above sea level." The interface includes a progress bar at the top, a list of steps, and a visual representation of the lighthouse on a cliff. The steps are: 1. First, break apart 227 into hundreds, tens, and ones. 2. Now, start at 315 and add the hundreds, tens, and ones in 227. How many feet above sea level is the top of the lighthouse? The interface shows the calculation $315 + 227 = 542$ and a "DONE" button.

A screenshot of an i-Ready Pro lesson completion screen. The screen is titled "LESSON 2: Multi-Syllable Words" and displays "Lesson complete!" with a "NEXT →" button. The background is dark with a blue and purple gradient border.

All-new student experience and motivation system
