7 AND 8!

Magnetic Literacy™

Core English Language Arts for Middle School

PROGRAM PREVIEW

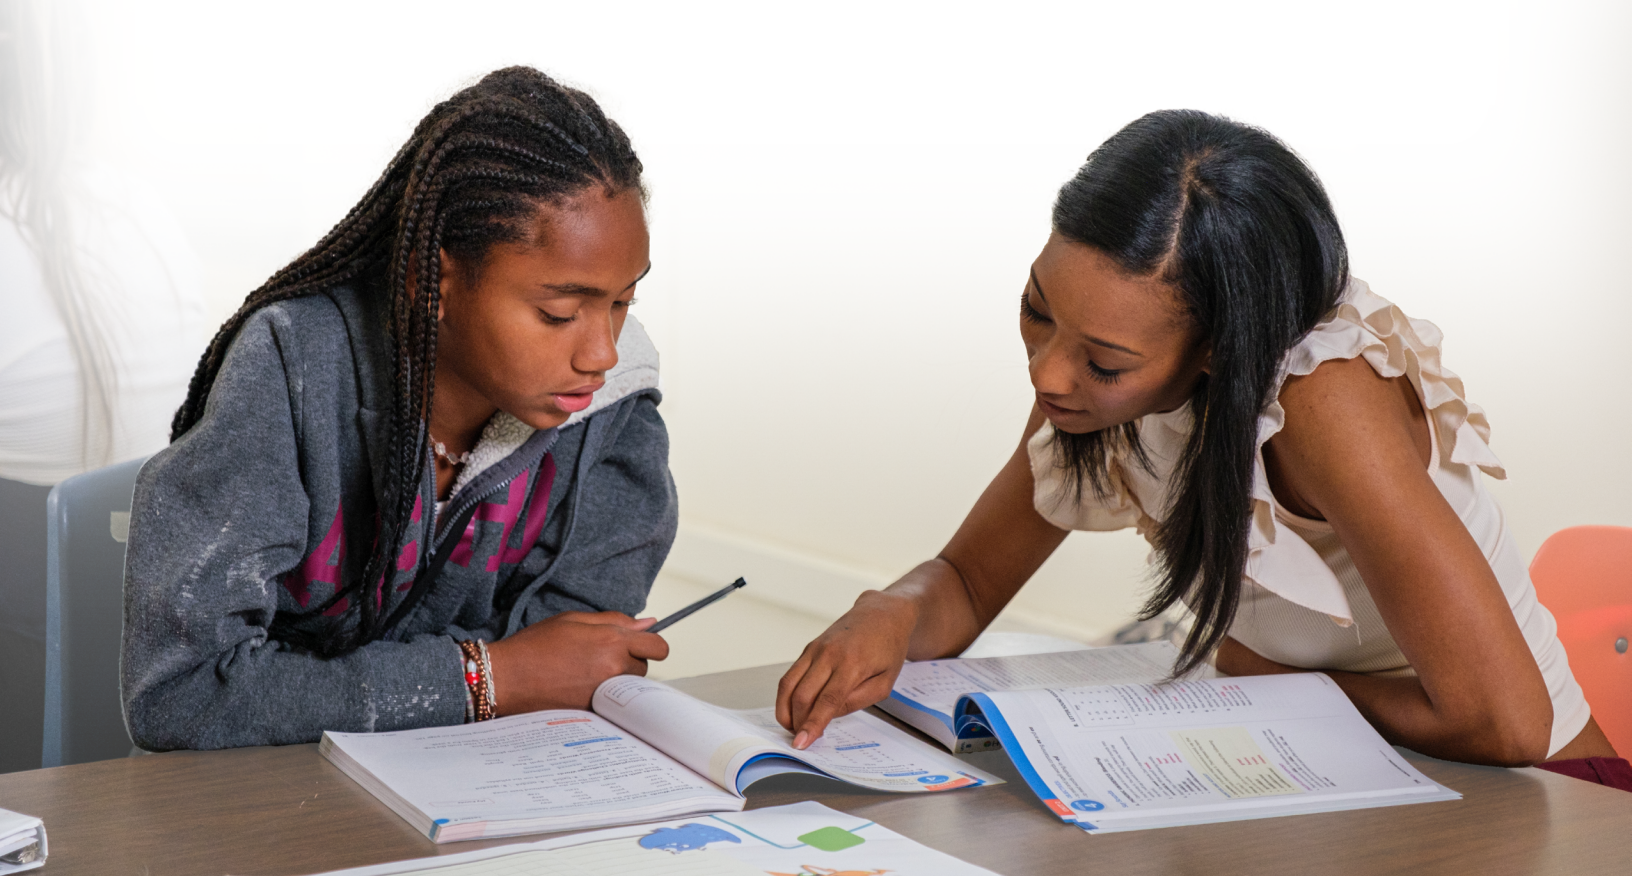

by  i-Ready™

Middle Grades Overview

Magnetic Literacy is a core English language arts program that empowers every student to read deeply, think critically, and communicate confidently.

Currently available for Grades K–6, *Magnetic Literacy* is expanding to Grades 7 and 8 for Back to School 2027—creating a seamless, knowledge-rich K–8 continuum.

A Consistent Experience, Grade to Grade

Grades 7 and 8 will carry forward the same program architecture students and teachers already know:

- The same unit, module, and session structure used in Grades K–6
- A familiar instructional arc, routines, and lesson flow
- A consistent approach to texts, sequenced to build students' perspective, rigor, and endurance as readers as they progress through the grade bands
- Coherent progression, so teachers and students experience continuity as they move up through the grade bands

Built for Middle School Learners

Alongside that continuity, Grades 7 and 8 bring targeted updates for middle school readers and writers.

Deeper literary work

More literary analysis and text-to-text connections

Classic and contemporary literature

Traditional and contemporary classics that deepen students' literary knowledge

More sophisticated look and feel

Elevated, text-forward design for independent readers

Right-sized support

Differentiation scoped to fit middle school scheduling

Actionable assessment

Embedded assessments that monitor progress and inform next steps

Classroom-ready digital tools

Integrated resources that streamline planning and support

**Available for
implementation
