What is the test flow of *i-Ready Evaluación Diagnóstica de lectura en español?*

Overview

Test flow is the order in which students receive test items from each domain on Evaluación Diagnóstica de lectura en español. The test flow and domains assessed vary by grade level and performance. A student's performance on a previous assessment does not affect their test flow on subsequent assessments.
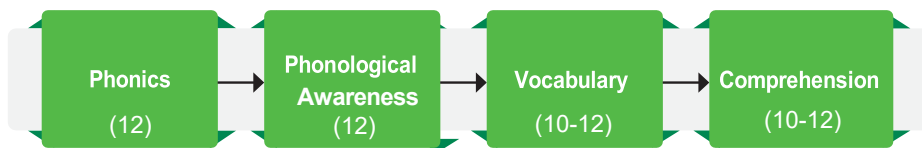

If a student has never completed Evaluación Diagnóstica de lectura, the assessment starts one grade level below the student's chronological grade. If the student has previously completed the assessment, the assessment begins near their last overall scale score from their previous assessment.

The Test Flow

The test flow and number of test items (shown in parentheses) vary depending on the domain and student's chronological grade level. All students, regardless of grade level, are presented with items from the Vocabulary and Comprehension domains. Students in lower chronological grade levels or performing at lower placement levels may also be assigned Phonics or Phonological Awareness.
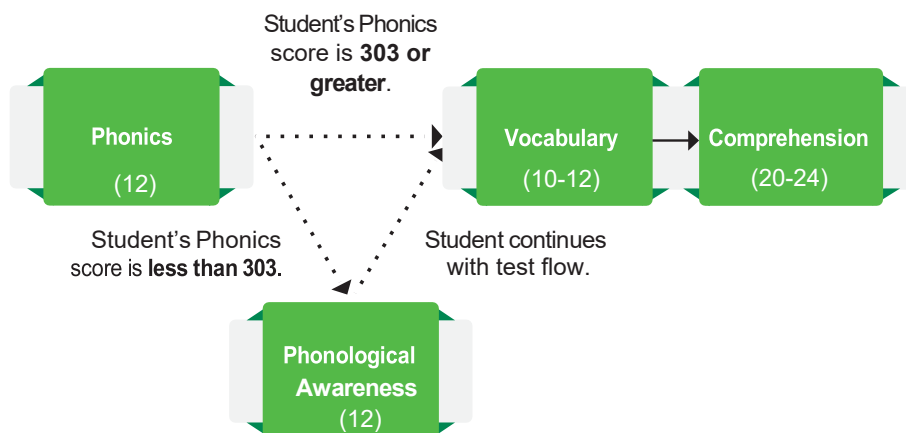

Grades K and 1

Students who are in chronological Grades K and 1 will receive items in all four Spanish Reading domains in the following order:

Phonics (12) → Phonological Awareness (12) → Vocabulary (10-12) → Comprehension (10-12)

Grade 2

Students who are in chronological Grade 2 are first assessed in the Phonics domain. The student's **overall** scale score after completing Phonics items determines the rest of their test flow:

Student's Phonics score is **303 or greater**.

Phonics (12) → Vocabulary (10-12) → Comprehension (20-24)

Student's Phonics score is **less than 303**.

Student continues with test flow.

Phonological Awareness (12)

Students who are in chronological Grades 3–6 are first assessed in Vocabulary and Comprehension. The student's **overall** scale score after completing these domains determines if the test ends or continues. If the test continues, the student will receive Phonics.

If the student's overall scale score after completing items from the first three domains is **382 or greater**, they will not receive additional items.

Vocabulary (14-16) → **Comprehension** (28-32)

Phonics

Students continue if their overall scale score is **below 382**.
