Ideas for Leveraging *i-Ready* Resources in Your Summer Learning Plans

We know that everyone is in a different place, and there is no "one-size-fits-all" as districts navigate implementing summer learning. No matter the structure of your summer program, *i-Ready* has versatile resources to fit your instructional needs.

Implementation Ideas

Allow students to work independently on additional instruction and practice

- Students work on their *i-Ready* personalized lessons and Learning Games for 30–49 minutes per subject per week.*
- Families and/or educators support students as they track their own progress.
- Educators monitor usage and track and recognize progress throughout the summer, culminating in a larger celebration.

Provide students the critical instruction to get them ready for the next grade level

- Teachers provide direct instruction on select prioritized skills using Tools for Instruction, resources from the Teacher Toolbox, and/or their core math program.
- Students work on their *i-Ready* lessons, either as informed by their personalized pathway* or manually and strategically assigned based on a prescribed scope and sequence.

Boost foundational reading skills in striving learners

- Teachers or paraprofessionals provide explicit phonics instruction daily following the routine-based *Phonics for Reading*™ program.
- Students work on their *i-Ready* personalized lessons based on their unique needs informed by the Diagnostic.*

Supports for Teacher-Led Instruction (Grades K–8):
