

Grade 2 • Self Checks

UNIT 3 Measurement and Data

In This Unit You will learn how to find numbers on a number line. You will choose the correct measurement tool to measure lengths in different units. You will also solve problems about length, time, and money.

✓ Self Check

Check off the skills you know now. Then see how many more you can check off after each lesson!

I can:	Before this unit	After this unit
name a point on a number line.	<input type="checkbox"/>	<input type="checkbox"/>
find the distance from a number to a point on a number line.	<input type="checkbox"/>	<input type="checkbox"/>
use a ruler to measure an object.	<input type="checkbox"/>	<input type="checkbox"/>
choose the correct tool for measuring an object.	<input type="checkbox"/>	<input type="checkbox"/>
measure the same object using different units.	<input type="checkbox"/>	<input type="checkbox"/>
estimate the length of an object.	<input type="checkbox"/>	<input type="checkbox"/>
add and subtract lengths to solve problems.	<input type="checkbox"/>	<input type="checkbox"/>
draw picture graphs and bar graphs.	<input type="checkbox"/>	<input type="checkbox"/>
solve problems about picture graphs and bar graphs.	<input type="checkbox"/>	<input type="checkbox"/>
tell and write time to the nearest 1 minute.	<input type="checkbox"/>	<input type="checkbox"/>
solve problems about money.	<input type="checkbox"/>	<input type="checkbox"/>
