

Louisiana Charter Schools Level Up on Student Growth with *i-Ready Personalized Instruction*

A recent analysis of Louisiana charter schools using *i-Ready* shows that students who used *i-Ready Personalized Instruction* with fidelity showed remarkable growth.

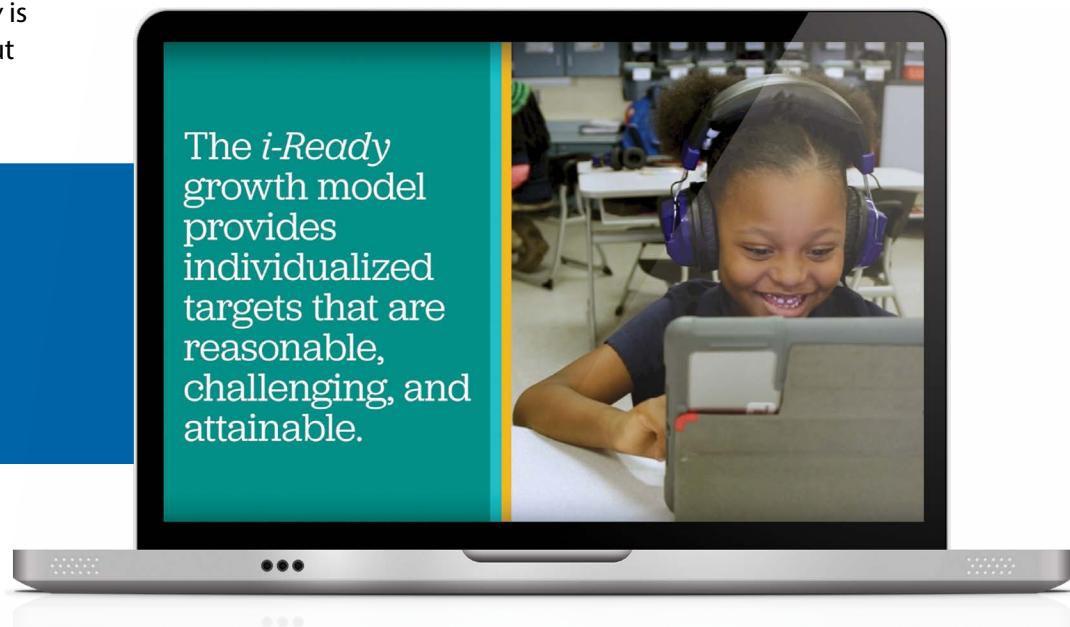

Educators across Louisiana are reducing complexity, saving time, and leveraging student data to differentiate instruction with *i-Ready*. Within the single *i-Ready* platform, *i-Ready Personalized Instruction* uses insights from the *i-Ready Diagnostic* to create a personalized path of engaging online lessons for mathematics and reading that motivate students to own their learning as they work toward proficiency and growth.

The following results are from the 2022–2023 end-of-school-year Typical Growth analysis of *i-Ready* data from 87 charter schools and more than 20,000 Grades K–8 students in Louisiana. *i-Ready*'s Typical Growth measure allows educators to assess student growth compared to the average at the same grade and baseline placement level.

Why It Matters

i-Ready Personalized Instruction is proven to work for Grades K–8 growth. The program:

- Supports every student's learning needs with research-based strategies and well-curated resources
- Is backed by the industry's most practical and applicable research
- Uses criterion-referenced data from *i-Ready's* placement levels to reflect what students are expected to know at each grade level and in each content area

*Median Typical Growth achieved when students have 30-plus minutes of instruction and at least 70 percent of lessons passed. Contact your educational sales consultant for full analysis.
